The definitive guide to the definitive kitchen

The world of Gaggenau is within your hands.

Our products perform exceptionally, are technologically advanced, built without compromise and designed to be appreciated by both the hand and the eye.

This comprehensive handbook will enable the smooth, we would not say effortless, creation of the kitchen for your client. It is all here, clearly and cleanly presented, easy to find and utterly complete. See for yourself.

The difference is Gaggenau.

Accessories special accessories EB 333
Technical specifications EB 333

EB 333 111

Stainless steel Width 90 cm

Included in the price

1 baking tray, enamelled pyrolysis-safe

- 1 rotisserie spit
- 1 wire rack 1 grill tray wi
- grill tray with wire rack
 plug-in core temperature probe

Special accessories BA 018 105

Pull-out system

Fully extendable telescopic rails and enamelled cast iron frame.

BA 028 115

Baking tray, enamelled

30 mm deep.

BA 038 105 Wire rack, chromium-plated Without opening, with feet.

BA 058 115 Heating element for baking stone and

Gastronorm roaster. BA 058 133

Baking stone.

Incl. baking stone support and pizza paddle (heating element must be ordered separately). Not in combination with pull-out system.

BA 090 100

Black rotary knobs for EB 333, set of 2 Stainless steel knobs with black

coating.

BS 020 002 Pizza paddle, set of 2.

GN 340 230

Gastronorm roaster in cast aluminium.

GN 2/3, height 165 mm, non-stick.

Oven EB 33

- One-piece front-hinged door with 3 mm precision crafted stainless steel front door panel
- Cushioned door opening and closing system
- Diagonally positioned light sources for optimal interior lighting
- Pyrolytic system
- 17 heating methods with core temperature probe, rotisserie spit and baking stone function
- Automatic programmes
- Core temperature probe with estimation of cooking time
- Hot air fan rotates in both
- directions for ideal heat distribution TFT touch display
- Panel-free appliance with control
- module behind glass Electronic temperature control from
- 30 ° C to 300 ° C
- Net volume 83 litres

Heating methods

Hot air Eco hot air Top + bottom heat. Top + 1/3 bottom heat. Top heat. 1/3 top + bottom heat. Bottom heat. Hot air + bottom heat. Hot air + 1/3 bottom heat. Full surface grill + circulated air. Full surface grill. Compact grill. Baking stone function. Roaster function. Dough proofing. Defrosting. Keeping warm.

Handling

Rotary knob and TFT touch display operation. Clear text display. Option to save individual recipes (incl. core temperature probe). Personalisation of automatic programmes. Information key with use indicators. Front-hinged door with 90° door opening angle.

Features

Three-point core temperature probe with automatic shut-off and estimation of cooking time. Automatic programmes. Rotisserie spit. Baking stone socket. Actual temperature display. Rapid heating. Timer functions: cooking time, cooking time end, timer, stopwatch, long-term timer. 60 W halogen light on the top. 2x10W halogen light on the side. Enamelled side shelf supports with 3 tray levels, pyrolysis-safe. Home network integration for digital

services (Home Connect) either via cable connection LAN (recommended) or wireless via WiFi. The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com. Please read additional information on Home Connect on page 420.

Safety

Thermally insulated door with quintuple glazing. Child lock. Safety shut-off. Cooled housing with temperature protection.

Cleaning

Pyrolytic system. Gaggenau enamel. Heated catalyser to clean the oven air.

Planning notes

The door panel surface of the appliance extends 40 mm from the furniture cavity. The outer edge of the door handle extends 90 mm from the furniture cavity. For installation underneath cooktops: Distance between the underside of the cooktop and the top edge of the oven cavity: min. 15 mm. The planning notes for the cooktops (particularly regarding ventilation, gas/electric connection) must be taken into account. To achieve the 550 mm installation depth, the connection cable needs to follow the slanted edge on the corner

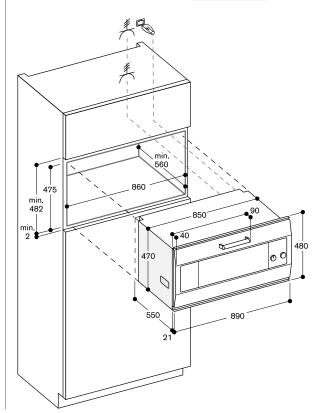

of the housing. The mains socket needs to be planned outside the built-in niche.

The LAN port can be found at the back on the upper left side.

Connection

Energy efficiency class A at a range of energy efficiency classes from A+++ to D. Total connected load 5.4 kW. Plan a connection cable. Plan a LAN cable.

Advice: Not every illustrated accessory fits to every oven. For exact allocation see page 6.

BA 090 100 Stainless steel knobs with black coating.

BA 018 105 Pull-out system Fully extendable telescopic rails and enamelled cast iron frame.

BA 028 115 Baking tray, enamelled 30 mm deep.

BA 038 105

Wire rack, chromium-plated Without opening, with feet.

BA 058 115 Heating element for baking stone and Gastronorm roaster

BA 058 133

Baking stone Incl. baking stone support and pizza paddle (heating element must be ordered separately). Not in combination with pull-out system.

BS 020 002 Pizza paddle, set of 2.

GN 340 230

Gastronorm roaster in cast aluminium GN 2/3, height 165 mm, non-stick For roasting in oven with roasting function.

Lower and upper part can also be used separately, height 100 and 65 mm.

For ovens with heating element BA 056 115 or BA 058 115 and pull-out system BA 016 or BA 018 (both to be ordered separately) and Combi-steam and steam ovens.

Checklist for appliance combinations 400 series

This checklist provides the most relevant parameters for the perfect combination and ordering of ovens, Combi-steam ovens, Combi-microwave ovens, fully automatic espresso machine, vacuuming drawers, warming drawers and dishwashers.

In general:

- All appliances shown can be obtained with stainless-steelbacked full glass doors.
- □ When several appliances are listed (BS/BM and DV/WS), the first appliance is shown.

Vertical combinations

When planning and ordering please note that

- ☐ The door hinges of the appliances must be on the same side.
- □ The door hinge (right-/left-hinged) is not reversible.
- ☐ The width of the appliances is identical
- ☐ The control modules of the two appliances should meet each other in the middle of the combination.
- □ No further appliances may be fitted above the BS.
- Only appliances with controls at the top can be installed above a dishwasher. The niche for appliances that are installed above it must be 56 cm wide. The dishwasher is 60 cm wide. A stainlesssteel-backed full glass door can be obtained as a special accessory.

Horizontal combinations

When planning and ordering please note that

- ☐ The door hinges need to be placed on the outside in order to use the full available door opening angle.
- ☐ The door hinge (right-/left-hinged) is not reversible.
- A minimum clearance of 10 mm between the two doors must be observed.
- Combi-steam ovens, Combi-microwave ovens and fully automatic espresso machine in combination with a vacuuming drawer or a warming drawer (14 cm in height) have the same total height as a 60 cm wide oven.
- ☐ The control modules are either all at the top or all at the bottom.
- BO Ovens
- BS Combi-steam ovens
- BM Combi-microwave ovens
- CM Fully automatic espresso machine
- DV Vacuuming drawers WS Warming drawers
- DF Dishwashers

Ovens 400 series

Planning notes for the installation of ovens and oven combinations 400 and 200 series

General notes

Installation behind kitchen furniture doors

Appropriate measures must be taken to prevent these types of doors from closing when the appliance is heating or while it is cooling down (fan operation).

Combination of ovens and

Vario cooling 400 series appliances Please check the planning notes in the information for Vario cooling 400 series appliances in order to prevent the refrigerator door from colliding with the oven.

Installation side by side

When appliances are installed side by side, the clearance between the appliances must be at least 10 mm (corresponds to the standard outside measurement of the furniture cavity of 600 or 762 mm). The door hinges need to be placed outside in order to use the full available door opening angle.

Necessary air cross section at the door edges

Gaggenau ovens are cooled with fresh air at the top edge and side edges of the door. Hot air is blown out at the door bottom edge. Combi-steam ovens and Combi-microwave ovens have the air inlet at the side edges of the door and the hot air and steam outlets at the top edge of the door. In order to prevent appliances from overheating and to ensure that they cool down as required after operation, appropriate minimum cross sections of free space must be maintained from kitchen furniture edges.

The measurements given in the drawing apply to all appliances. The following must also be observed:

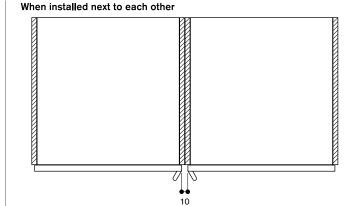

The area above the appliances BS:

No other electrical appliances should be installed above the BS. It is recommended that a horizontal handle is not fitted on furniture above the BS.

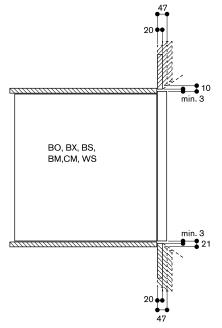

Where the edge of a kitchen unit protrudes more than 20 mm from the front edge of the furniture cavity, the edge of the kitchen furniture panel must be steam resistant as is the case above a dishwasher. Steam may possibly penetrate into the compartment.

The area below the appliances DV / WS:

It must be ensured that there is sufficient access to the lower edge of the vacuuming drawer and warming drawer, if the thickness of the kitchen furniture door is greater than 20 mm in front of the furniture cavity.

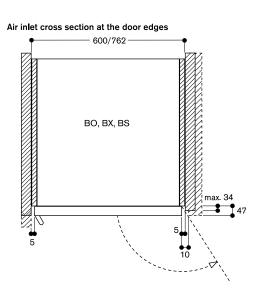

Cross section of the top/bottom door edge gaps

At the sides

In cases where kitchen furniture door thicknesses are greater or where sidewalls protrude up to 34 mm from front of the edge of the furniture cavity, the minimum distance on the hinge side is sufficient for the air supply and a door opening angle of 120°. Above that, a distance of 10 mm or even more is required.

The handle side may, if required, be covered by a side panel provided that the minimum distance is maintained.

Left-hinged

BX 481 112

Stainless steel-backed full glass door Width 76 cm

Included in the price

- 2 baking trays, enamelled pyrolysis-safe
- 1 rotisserie spit
- 2 wire racks
- 2 grill trays with wire rack
- 1 plug-in core temperature probe

Special accessories

BA 018 105 Pull-out system

Fully extendable telescopic rails and enamelled cast iron frame.

BA 028 115

Baking tray, enamelled 30 mm deep.

BA 038 105

Wire rack, chromium-plated Without opening, with feet.

BA 058 115

Heating element for baking stone and Gastronorm roaster.

BA 058 133

Baking stone. Incl. baking stone support and pizza paddle (heating element must be ordered separately).

Not in combination with pull-out system.

BS 020 002

Pizza paddle, set of 2.

GN 340 230

Gastronorm roaster in cast aluminium. GN 2/3, height 165 mm, non-stick.

Double oven 400 series BX 480/BX 481

- Pyrolytic system

- 17 heating methods with core temperature probe, rotisserie spit and baking stone function
- Core temperature probe with estimation of cooking time
- TFT touch display
 Electronic temperature cont
- Electronic temperature control from 30 °C to 300 °C
- 2x110 litres net volume

Heating methods

Hot air. Eco hot air. Top + bottom heat. Top + 1/3 bottom heat. Top heat. 1/3 top + bottom heat. Bottom heat. Hot air + bottom heat Hot air + 1/3 bottom heat. Full surface grill + circulated air. Full surface grill. Compact grill. Baking stone function. Roaster function. Dough proofing. Defrosting. Keeping warm.

Handling

Rotary knob and TFT touch display operation. Clear text display. Information key with use indicators. Side-opening door opens up to 180° angle.

Features

Three-point core temperature probe with automatic shut-off and estimation of cooking time. Rotisserie spit (lower oven). Baking stone socket. Actual temperature display. Rapid heating. Timer functions: cooking time, cooking time end, timer, stopwatch, long-term timer. 60 W halogen light on the top. 10 W halogen light on the side. Enamelled side shelf supports with

Enamelled side shelf supports v 5 tray levels, pyrolysis-safe.

Safety

Thermally insulated door with quadruple glazing. Child lock. Safety shut-off. Cooled housing with temperature protection.

Cleaning

Pyrolytic system. Gaggenau enamel. Heated catalyser to clean the oven air.

Planning notes

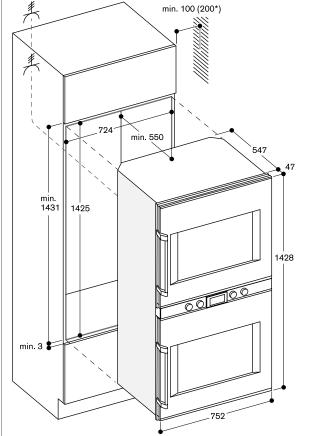

Door hinge not reversible. The facade of the appliance extends 47 mm from the furniture cavity. Consider the overhang when planning to open drawers next to the appliance. When planning a corner solution, pay attention to the 90° door opening angle. To achieve the 550 mm installation depth, the connection cable needs to follow the slanted edge on the lower right hand corner of the housing. The mains socket needs to be planned outside the built-in niche.

Please read the installation details regarding oven combination on page 14 – 15.

Connection

Energy efficiency class A at a range of energy efficiency classes from A+++ to D. Total connected load 9.2 kW. Plan a connection cable.

- Handleless door / automatic door opening
- Fixed inlet and outlet water connection
- Cleaning system, fully automatic
 Hot air 30 °C to 230 °C can be
- combined with chosen humidity level of 0%, 30%, 60%, 80% or 100% - Sous-vide cooking with accurate
- Sous-vide cooking with accurate temperature regulation
 Full surface grill behind glass
- Full surface grin behind glass ceramic, combinable with circulated air up to 230 °C and steam
- TFT touch display
- Panel-free appliance with surface control module
- Steaming without pressure
 Electronic temperature control from
- 30 °C to 230 °C - Core temperature probe, removable
- Net volume 44 litres

Heating methods

Hot air + 100 % humidity. Hot air + 80 % humidity. Hot air + 60 % humidity. Hot air + 30 % humidity. Hot air + 0 % humidity. Low temperature cooking. Sous-vide cooking. Full surface grill level 1 + humidity. Full surface grill + circulated air. Full surface grill. Defrosting. Regenerating.

Handling

Automatic door opening. Rotary knob and TFT touch display operation. Clear text display. Option to save individual recipes (incl. core temperature probe). Information key with use indicators. Side-opening door opens up to 180° angle.

Features

Full surface grill 2000 W behind glass ceramic. Steam removal. Misting. Core temperature probe with automatic shut-off. Actual temperature display. Timer functions: cooking time, cooking time end, timer, stopwatch, long-term timer Electronic boiling point detection. Capacity display for filter cartridge (if connected to GF111100 descaling system). 48 W halogen light on the side. Hygienic stainless steel cooking interior. 4 tray levels.

Safety

Child lock. Safety shut-off. Cooled housing with temperature protection.

GN 410 130

Gastronorm lid, stainless steel, GN 1/3. GN 410 230

Gastronorm lid, stainless steel, GN 2/3.

GR 220 046

Wire rack, stainless steel Without opening, with feet.

Cleaning programme, fully automatic. Descaling programme, fully automatic. Drying programme. Strainer filter, removable. Demo cleaning programme.

Planning notes

Door hinge not reversible. No other electrical appliances should be installed above the BS. At no point may the outlet hose be positioned higher than the bottom edge of the appliance. The outlet hose must also be at least 100 mm lower than the appliance outlet (see drawing "drainage connection"). Inlet hose can be extended once. The outlet hose must not be longer than a maximum of 5 m. The water connection (1) for the inlet hose must always be accessible and not located directly behind the appliance.

The connection of the outlet hose to the siphon (2) must not be directly behind the appliance and should be accessible.

The descaling system GF111100 (3) must be installed when connecting the appliance if the water hardness exceeds 7° dH.

The door panel surface of the appliance extends 47 mm from the furniture cavity.

If the handle (optional accessory) is retrofitted, the outer edge of the door handle extends 94 mm from the furniture cavity.

Consider the overhang, incl. the door handle where applicable, when planning to open drawers next to the

appliance. When planning a corner solution, pay

attention to the 90° door opening angle. To achieve the 550 mm installation depth, the water hoses and connection cable needs to follow the slanted edge on the corner of the housing.

The mains socket needs to be planned outside of the built-in niche.

Please read the installation details regarding oven combination on page 14 – 15.

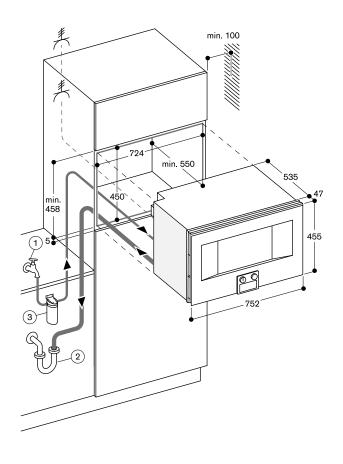

Connection

Energy efficiency class A at a range of energy efficiency classes from A+++ to D. Total connected load 2.9 kW. Only cold water connection. Inlet hose 3.0 m with 3/4 " (26.4 mm) connection, extendable.

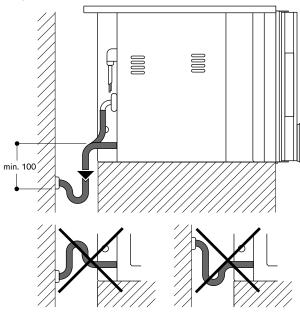

Outlet hose (Ø 25 mm) 3.0 m (HT-Hose). Plan a connection cable.

- Fixed inlet and outlet water connection
- Cleaning system, fully automatic Hot air 30 °C to 230 °C can be _
- combined with chosen humidity level of 0%, 30%, 60%, 80% or 100% Sous-vide cooking with accurate
- temperature regulation - Full surface grill behind glass
- ceramic, combinable with circulated air up to 230 °C and steam
- TFT touch display
- Panel-free appliance with surface control module
- Steaming without pressure
- Electronic temperature control from 30 °C to 230 °C
- Core temperature probe, removable - Net volume 44 litres

Heating methods

Hot air + 100 % humidity. Hot air + 80 % humidity. Hot air + 60 % humidity. Hot air + 30 % humidity. Hot air + 0 % humidity. Low temperature cooking. Sous-vide cooking. Full surface grill level 1 + humidity. Full surface grill level 2 + humidity. Full surface grill + circulated air. Full surface grill. Defrosting. Regenerating.

Handling

Automatic door opening. Rotary knob and TFT touch display operation. Clear text display. Option to save individual recipes (incl. core temperature probe). Information key with use indicators. Side-opening door opens up to 180° angle.

Features

Full surface grill 2000 W behind glass ceramic. Steam removal. Mistina. Core temperature probe with automatic shut-off. Actual temperature display. Timer functions: cooking time, cooking time end, timer, stopwatch, long-term timer Electronic boiling point detection. Capacity display for filter cartridge (if connected to GF111100 descaling system). 48 W halogen light on the side. Hygienic stainless steel cooking interior. 4 tray levels. Safety

Child lock. Safety shut-off. Cooled housing with temperature protection.

Planning notes

Door hinge not reversible. No other electrical appliances should be installed above the BS. At no point may the outlet hose be positioned higher than the bottom edge of the appliance. The outlet hose must also be at least 100 mm lower than the appliance outlet (see drawing "drainage connection"). Inlet hose can be extended once. The outlet hose must not be longer than a maximum of 5 m. The water connection (1) for the inlet

hose must always be accessible and not located directly behind the appliance.

The connection of the outlet hose to the siphon (2) must not be directly behind the appliance and should be accessible

The descaling system GF 111 100 (3) must be installed when connecting the appliance if the water hardness exceeds 7° dH.

The door panel surface of the appliance extends 47 mm from the furniture cavity.

If the handle (optional accessory) is retrofitted, the outer edge of the door handle extends 94 mm from the

furniture cavity. Consider the overhang, incl. the door

handle where applicable, when planning to open drawers next to the appliance.

When planning a corner solution, pay attention to the 90° door opening angle. To achieve the 550 mm installation depth, the water hoses and connection cable needs to follow the slanted edge on the corner of the housing.

The mains socket needs to be planned outside of the built-in niche.

Please read the installation details regarding oven combination on page 14 - 15.

Connection

Energy efficiency class A at a range of energy efficiency classes from A+++ to D. Total connected load 2.9 kW. Only cold water connection.

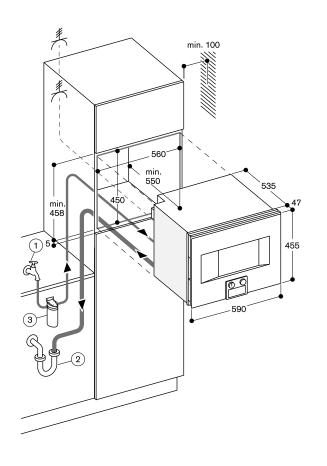

Inlet hose 3.0 m with 3/4 " (26.4 mm)

connection, extendable.

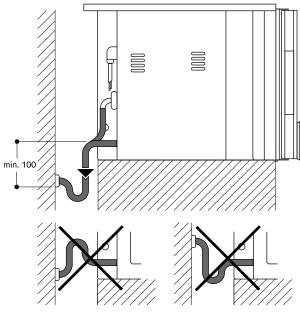

Outlet hose (ø 25 mm) 3.0 m (HT-Hose). Plan a connection cable.

CM 470 111 Stainless steel-backed full glass door

Width 60 cm CM 470 101

Full glass door in Gaggenau Anthracite Width 60 cm

Included in the price

- 1 assembly screws
- 1 scoop
- 1 test strip
- 1 milk container (insulated)
- connection hose for milk frother 1
- 1 milk tube

Fully automatic espresso machine 400 series CM 470

- Handleless door / automatic door opening
- Fixed inlet and outlet water connection
- Continuous flow heater means no waiting time and constant brewing
- temperature Aroma brewing technology for a full aroma
- Single portion cleaning _
- TFT touch display
- Panel-free appliance with surface control module
- One-touch operation
- Personalisation function _
- 7 light settings
- Electronic fill level control for milk, water and coffee to ensure a perfect result

Type of beverage

Ristretto / 2 x Ristretto. Espresso / 2 x Espresso. Espresso Macchiato / 2 x Espresso Macchiato. Coffee / 2 x Coffee. Americano / 2 x Americano. Caffe Latte / 2 x Caffe Latte. Latte Macchiato / 2 x Latte Macchiato. Cappuccino / 2 x Cappuccino. Flat White / 2 x Flat White. Milk froth / 2 x Milk froth. Warm milk / 2 x Warm milk. Hot water / 2 x Hot water.

Handling

Automatic door opening. Rotary knob and TFT touch display operation. Clear text display. Personalisation function, option to save 8 individualised beverages. 4 beverage size settings, volume can be individually adjusted to match the size of the cup. 8 coffee strength levels from very mild to extra strong. 3 coffee temperature levels. 10 hot water temperature levels. 4 coffee-milk ratio levels. Adjustable grinding level. Height-adjustable coffee dispenser 7 cm to 15 cm Easy access to water tank, milk and coffee bean container behind the door. Features

Maintenance-free grinding unit with ceramic discs Separate drawer for second ground coffee type. Water pump with 19 bar pressure. Double grinding and brewing cycles for extra intensity for single beverage order. For double beverage order, two grinding and brewing cycles. Beverage dispenser with integrated milk system. Insulated stainless steel milk container for up to 0.5 litres. Integrated lightning with LEDs. Removable bean container with aroma protecting lid for 500 g allows for an effortless exchange of different types of coffee beans. Automatic adjustment of ground coffee quantity. Removable 2.4 litre water tank. Electronic water filter exchange indicator.

Fresh water-function to refill the water tank with fresh water. Electronic fill level control for drip trav and container for coffee residue.

Safetv

Child lock. Aqua stop with guarantee.

Cleaning

Fully automatic rinse programme when machine is turned on/off. Automatic steam cleaning of the milk system after every beverage. Automatic cleaning and descaling programme. Emptying programme to prepare the appliance for holiday or transportation. Empty-grinding function to remove coffee residues from the system when switching bean types. Removable brewing unit. Dishwasher-safe coffee residue container and drip trav. Dishwasher-safe beverage dispenser.

Planning notes

Ideal installation height 95 – 145 cm (top edge of niche bottom). The door panel surface of the appliance extends 47 mm from the furniture cavity When installing in a corner a side clearance is required. Door opening angle appr. 110° (delivery status) - mounting distance to the wall has to be at least 350 mm. Door opening angle appr. 155° - mounting distance to the wall has to be at least 650 mm. Door opening angle appr. 92° - mounting distance to the wall has to be at least 100 mm (spare part No. 00636455). Installation directly above 14 cm high warming drawer in 59 cm standardised

niche. At no point may the outlet hose be positioned higher than the bottom edge of the appliance. The outlet hose must also be at least 150 mm lower

than the appliance outlet (see drawing "drainage connection"). If the appliance is placed too far from

the main siphon, the drain system has to be adjusted on-site (building installation).

The water connection (1) for the inlet hose must always be accessible and not located directly behind the appliance.

The connection of the outlet hose to the siphon (2) must not be directly behind the appliance and should be accessible.

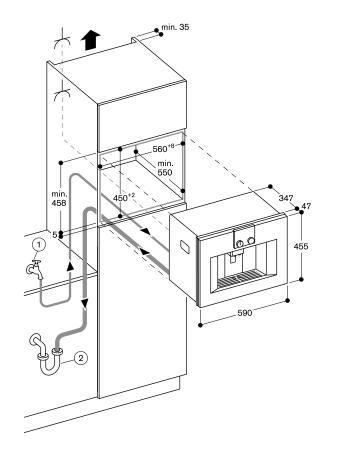

Special accessories (order as spare parts):

- meals, and for keeping meals warm

Heating methods

Defrosting of meals/proving of yeast dough. Preheating of small beverage containers. Keeping meals warm/slow cooking meals.

Warming ovenware.

Handling

Rotary knob operation. Recessed grip at the front bottom of the drawer.

Features

Net volume 51 litres. Volume capacity: Dinner service for 12 people including ø24 cm plates and soup bowls, additional bowls and a serving dish depending on size. Max. load 25 kg. Usable interior dimensions W 475 x H 236 x D 458 mm.

Heating under glass bottom for easy cleaning.

Fan for even heat distribution for fast warming ovenware.

Status display, visible in the glass front. Glass bottom made of safety glass.

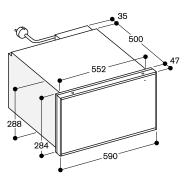

Planning notes

The panel surface of the appliance extends 47 mm from the furniture cavity. The socket can be planned behind the appliance.

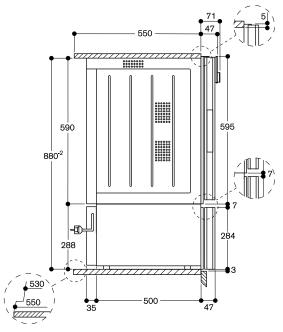

Please read the installation details regarding oven combination on page 14 – 15.

Connection

Total connected load 0.81 kW. Connection cable 1.5 m, pluggable.

Side view of WS 462 below BO

Accessories and special accessories 400 series

Advice: Not every illustrated accessory fits to every oven. For exact allocation see page 40 - 43.

BA 016 105

Pull-out system Fully extendable telescopic rails and enamelled cast iron frame.

BA 018 105 Pull-out system Fully extendable telescopic rails and enamelled cast iron frame.

BA 026 115

Baking tray, enamelled 15 mm deep. BA 028 115 Baking tray, enamelled 30 mm deep.

BA 036 105 Wire rack, chromium-plated Without opening, with feet. BA 038 105 Wire rack, chromium-plated Without opening, with feet.

BA 046 115

Glass tray 24 mm deep

BA 026 105

Grill tray, enamelled 30 mm deep.

BA 226 105 Grill tray, enamelled 30 mm deep.

BA 056 115 Heating element for baking stone and Gastronorm roaster

BA 058 115

Heating element for baking stone and Gastronorm roaster

BA 056 133

Baking stone Incl. baking stone support and pizza paddle (heating element must be ordered separately). Not in combination with pull-out system.

BA 058 133 Baking stone

Incl. baking stone support and pizza paddle (heating element must be ordered separately). Not in combination with pull-out system.

	BA 018 105	Pull-out system with fully extendable telescopic pull-out rack and pyrolysis-safe cast frame
Baking stone		
	BA 056 133	incl. baking stone support and pizza paddle (heating element must be ordered separately)
	BA 058 133	incl. baking stone support and pizza paddle (heating element must be ordered separately)
Gastronorm insert, stai	inless steel	
	GN 114 130	GN 1/3, unperforated, 40 mm deep, 1.5 I
	GN 114 230	GN 2/3, unperforated, 40 mm deep, 3 l
	GN 124 130	GN 1/3, perforated, 40 mm deep, 1.5 l
	GN 124 230	GN 2/3, perforated, 40 mm deep, 3 l
	GN 144 130	GN 1/3, non-stick, unperforated, 40 mm deep, 1.5 l.
	GN 144 230	GN 2/3, non-stick, unperforated, 40 mm deep, 3 l.
	GN 154 130	GN 1/3, non-stick, perforated, 40 mm deep, 1.5 l.
	GN 154 230	GN 2/3, non-stick, perforated, 40 mm deep, 3 l.
	GN 410 130	Gastronorm lid for insert, stainless steel, GN 1/3
	GN 410 230	Gastronorm lid for insert, stainless steel, GN 2/3
Gastronorm roaster, ca		
	GN 340 230	GN 2/2, height 165 mm, non-stick
		For ovens with heating element BA 056 115 or BA 058 115 and pull-out system BA 016 or BA 018 (both to be ordered separately) and Combi-steam and steam ovens (See also page 422)
Glass tray		
	BA 046 115	24 mm deep
Wire rack		
	BA 036 105	no opening, with feet
	BA 038 105	no opening, with feet
	GR 220 046	no opening, no feet
	Part No. 672921	for grill trays BA 026 105 / BA 226 105, with opening, and feet
	Part No. 706321	for grill tray ET-Nr. 687055, with opening and feet
Grill tray, enamelled		
	BA 026 105	with feet and rotisserie spit attachment, 30 mm deep
	BA 226 105	30 mm deep
	Part No. 687055	with feet and rotisserie spit attachment, 30 mm deep
Heating element		
	BA 056 115	Necessary accessory for baking stone BA 056 133
	BA 058 115	Necessary accessory for baking stone BA 058 133
Pizza paddle		
	BS 020 002	Set of 2
Cleaning and care		
	CL S10 040	Cleaning cartridges, set of 4
		Descaling cartridges, set of 4
	Part No. 17000705	Water filter cartridge
	Part No. 00311819	
	Part No. 00311769	Cleaning tablets
Vacuuming bags		
	BA 080 670	Vacuuming bags, small, 180 x 280 mm, 100 pcs.
	BA 080 680	Vacuuming bags, large, 240 x 350 mm, 100 pcs.
Water connection		
	GF 111 100	Descaling and neutralising filter, for first installation
	GF 121 110	Filter cartridge for GF 111 100
	GZ 010 011	Extension for water inlet and outlet hose

Checklist for appliance combinations 200 series

This checklist provides the most relevant parameters for the perfect combination and ordering of ovens, Combi-steam ovens, steam ovens, Combi-microwave ovens, microwaves, fully automatic espresso machines, warming drawers and dishwashers.

When several appliances are listed (BSP/BMP), the first appliance is shown.

Vertical combinations

When planning and ordering please note that

- The door hinges of the appliances must be on the same side.
- The door hinge (right-/left-hinged) is not reversible.
- □ No further appliances may be fitted above the BSP.
- Only appliances with controls at the top can be installed above a dishwasher. The niche for appliances that are installed above it must be 56 cm wide. The dishwasher is 60 cm wide.

Horizontal combinations

When planning and ordering please note that

- ☐ The door hinges can be located on either the inside or outside, without the full door opening angle being restricted.
- The door hinge (right-/left-hinged) cannot be reversed retrospectively.
- A minimum clearance of 10 mm between the two doors must be observed.
- Combi-steam ovens, steam ovens, Combi-microwave ovens, microwaves and fully automatic espresso machines in combination with a warming drawer (14 cm in height) have the same total height as a 60 cm wide ovens.
- BOP Ovens
- BSP Combi-steam ovens/steam ovens BMP Combi-microwave ovens/
- microwaves
- CMP Fully automatic espresso machine
- WSP Warming drawers
- DF Dishwashers

Incl. baking stone support and pizza paddle (heating element must be ordered separately). Not in combination with pull-out

svstem BA 226 105

Grill tray, enamelled 30 mm deep.

BS 020 002

Pizza paddle, set of 2. GN 340 230

Gastronorm roaster in cast aluminium. GN 2/3, height 165 mm, non-stick.

Oven 200 series BOP 250/BOP 251

- Flush installation
- Pyrolytic system
- 13 heating methods with core temperature probe and baking stone function
- Automatic programmes
- Core temperature probe with
- estimation of cooking time TFT touch display
- _ Panel-free appliance with surface control module
- Electronic temperature control from 30 °C to 300 °C
- Net volume 76 litres

Heating methods

Hot air Eco hot air. Top + bottom heat. Top heat. Bottom heat. Hot air + bottom heat. Full surface grill + circulated air. Full surface grill. Compact grill. Baking stone function. Roaster function. Dough proofing. Defrosting.

Handling

Rotary knob and TFT touch display operation. . Clear text display. Option to save individual recipes (incl. core temperature probe). Personalisation of automatic programmes. Information key with use indicators. Side-opening door opens up to 110° angle.

Features

Three-point core temperature probe with automatic shut-off and estimation of cooking time. Automatic programmes. Baking stone socket. Actual temperature display. Rapid heating. Timer functions: cooking time, cooking time end, timer, stopwatch, long-term timer. 60 W halogen light on the top. Enamelled side shelf supports with 4 tray levels, pyrolysis-safe. Home network integration for digital services (Home Connect) either via

cable connection LAN (recommended) or wireless via WiFi. The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Safetv

Thermally insulated door with quintuple glazing. Child lock Safety shut-off. Cooled housing with temperature protection.

Cleaning

Pyrolytic system. Gaggenau enamel. Heated catalyser to clean the oven air.

Planning notes

Door hinge not reversible. The door panel surface of the appliance extends 21 mm from the furniture cavity.

The outer edge of the door handle extends 72 mm from the furniture cavity. Necessary lateral gap between appliance door and furniture panel of

min. 5 mm. Consider the overhang, incl. the door handle, when planning to open drawers next to the appliance. When planning a corner solution, pay

attention to the 110° door opening angle. For installation underneath cooktops: Distance between the underside of the cooktop and the top edge of the oven cavity: min. 15 mm. The planning notes

for the cooktops (particularly regarding ventilation, gas/electric connection) must be taken into account.

To achieve the 550 mm installation depth, the connection cable needs to follow the slanted edge on the corner

of the housing. The mains socket needs to be planned

outside the built-in niche. The LAN port can be found at the back

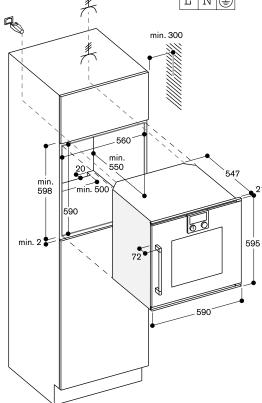

on the upper right side.

Please read the installation details regarding oven combination on page 14 - 15.

Connection

Energy efficiency class A at a range of energy efficiency classes from A+++ to D. Total connected load 3.7 kW. Plan a connection cable. Plan a LAN cable

Microwave oven 200 series BMP 224/BMP 225

- Flush installation

_

- Handleless door / automatic door opening
- Single operation and combination of microwave and grill
- Sequential operation of up to 5 modes incl. programming of
- combined operation and rest time - TFT touch display
- Electronic temperature control
- Interior volume 21 litres

Programmes

Microwave operation with 5 output levels: 900, 600, 360, 180, 90 W. Full surface grill with 3 levels of intensity, maximum output 1300 W. Full surface grill with microwave output levels 360, 180 and 90 W combinable. 10 automatic programmes with weight indication: 3 defrosting programmes 4 cooking programmes 3 combination programmes Option to save individual recipes.

Handling

Automatic door opening. Rotary knob and TFT touch display operation. Clear text display. Information key with use indicators. Side-opening door opens up to 110° angle.

Features

Innowave. Actual temperature display. 25 W interior light. Hygienic stainless steel interior with glass ceramic base.

Safety

Thermally insulated door with double glazing. Triple door lock. Child lock. Safety shut-off. Cooled housing with temperature protection.

Planning notes

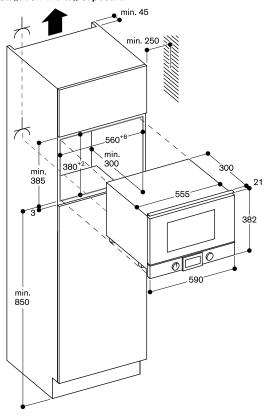

Door hinge not reversible. Minimum installation height 85 cm (top edge of niche bottom). Height-adjustable feet. Installation of BMP above BOP with intermediate shelf. Necessary lateral gap between appliance door and furniture panel of min. 5 mm. The door panel surface of the appliance extends 21 mm from the furniture cavity. When planning a corner solution, pay attention to the 90° door opening angle.

Please read the installation details regarding oven combination on page 14 – 15.

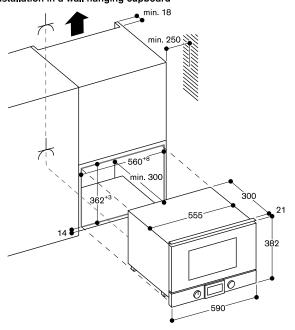

Connection

Total connected load 2.0 kW. Connection cable 1.7 m pluggable.

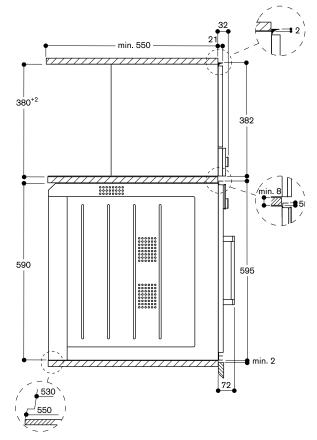

Installation in a wall-hanging cupboard

Included in the price

- 1 assembly screws
- 1 scoop
- 1 test strip
- 1 milk container (insulated)
- 1 connection hose for milk frother
- 1 milk tube

Fully automatic espresso machine 200 series CMP 270

- Handless door / cushioned door closing system
- Fixed inlet and outlet water connection
- Continuous flow heater means no waiting time and constant brewing
- temperature – Aroma brewing technology for a full aroma
- Single portion cleaning
- TFT touch display
- Panel-free appliance with surface control module
- One-touch operation
- Personalisation function
- 7 light settings
- Electronic fill level control for milk, water and coffee to ensure a perfect result

Type of beverage

Ristretto / 2 x Ristretto. Espresso / 2 x Espresso. Espresso Macchiato / 2 x Espresso Macchiato. Coffee / 2 x Coffee. Americano / 2 x Americano. Caffe Latte / 2 x Caffe Latte. Latte Macchiato / 2 x Latte Macchiato. Cappuccino / 2 x Cappuccino. Flat White / 2 x Flat White. Milk froth / 2 x Milk froth. Warm milk / 2 x Warm milk. Hot water / 2 x Hot water.

Handling

Door with cushioned door closing system. Rotary knob and TFT touch display operation. Clear text display. Personalisation function, option to save 8 individualised beverages 4 beverage size settings, volume can be individually adjusted to match the size of the cup. 8 coffee strength levels from very mild to extra strong. 3 coffee temperature levels. 10 hot water temperature levels. 4 coffee-milk ratio levels. Adjustable grinding level. Height-adjustable coffee dispenser 7 cm to 15 cm. Easy access to water tank, milk and coffee bean container behind the door. Features Maintenance-free grinding unit with ceramic discs. Separate drawer for second ground coffee type. Water pump with 19 bar pressure. Double grinding and brewing cycles for extra intensity for single beverage order. For double beverage order, two grinding and brewing cycles. Beverage dispenser with integrated milk system.

Insulated stainless steel milk container for up to 0.5 litres.

Integrated lightning with LEDs. Removable bean container with aroma protecting lid for 500 g allows for an effortless exchange of different types of coffee beans. Automatic adjustment of ground coffee quantity. Removable 2.4 litre water tank. Electronic water filter exchange indicator. Fresh water-function to refill the water tank with fresh water. Electronic fill level control for drip tray and container for coffee residue.

Safety

Child lock. Aqua stop with guarantee.

Cleaning

Fully automatic rinse programme when machine is turned on/off. Automatic steam cleaning of the milk system after every beverage. Automatic cleaning and descaling programme. Emptying programme to prepare the appliance for holiday or transportation. Empty-grinding function to remove coffee residues from the system when switching bean types. Removable brewing unit. Dishwasher-safe coffee residue container and drip tray. Dishwasher-safe beverage dispenser.

Planning notes

Ideal installation height 95 - 145 cm (top edge of niche bottom). Necessary lateral gap between appliance front and furniture panel of min. 5 mm. The door panel surface of the appliance extends 21 mm from the furniture cavity When installing in a corner a side clearance is required. Door opening angle appr. $110\,^\circ$ (delivery status) - mounting distance to the wall has to be at least 350 mm. Door opening angle appr. 155° - mounting distance to the wall has to be at least 650 mm. Door opening angle appr. 92 $^{\circ}$ - mounting distance to the wall has to be at least 100 mm (spare part No. 00636455) Installation directly above 14 cm high warming drawer in 59 cm standardised niche.

At no point may the outlet hose be positioned higher than the bottom edge of the appliance. The outlet hose must also be at least 150 mm lower than the appliance outlet (see drawing "drainage connection").

If the appliance is placed too far from the main siphon, the drain system has to be adjusted on-site (building installation).

The water connection (1) for the inlet hose must always be accessible and not located directly behind the appliance.

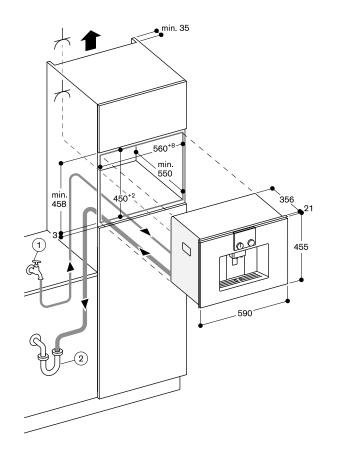

The connection of the outlet hose to the siphon (2) must not be directly behind the appliance and should be accessible.

Special accessories (order as spare parts):

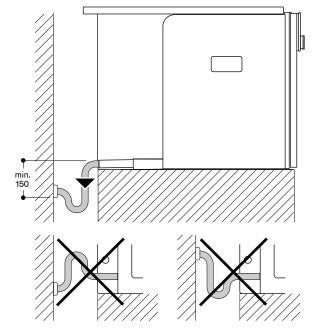

Part No. 17000705 Water filter Part No. 00311819 Descaling tablets Part No. 00311769 Cleaning tablets Part No. 00636455 Door hinge restrictor (92° opening angle) Part No. 11015223 Bean container with lid Please read the installation details regarding combination with ovens on the page 14 – 15.

Connection

Total connected load 1.6 kW. Connection cable 1.7 m pluggable. Only cold water connection. Inlet hose 165 cm with 3/4 " (26.4 mm) connection. Outlet hose (ø 18 mm) 170 cm (HT-Hose).

Drainage connection

(4) Water outlet (5) Coldwater connection (6) Electric terminal box

- 80 mm 3 vacuuming levels for vacuuming in
- the chamber, max. 99%
- 3 vacuuming levels for vacuuming outside the chamber, max. 90%
- Automatic connection recognition for vacuuming outside the chamber
- Flush installation _ Handleless drawer
- Push-to-open system

Application

Vacuuming for sous-vide cooking. Vacuuming for fast marinating and flavouring. Vacuuming for extended storage. Vacuuming of vacuuming containers outside the chamber. Vacuuming of liquids in bottles outside the chamber.

Handling

Touch key operation.

Features

Net volume 7 litres. Capacity load max. 10 kg. Maximum size of vacuuming bags W 240 mm x L 350 mm. 3 heat-sealing levels for different strengths of bag material. Sealing bar, non-stick coating, removable. Safety glass cover, opens automatically after vacuuming. Raised vacuuming platform, 44 mm, deployable. Utility space in vacuuming chamber, W 210 mm x L 275 mm. Membrane for avoiding reflow of liquids during vacuuming outside the chamber. Drying programme for vacuuming pump. Warning function.

Planning notes

Necessary lateral gap between appliance front and furniture panel of min. 5 mm.

The panel surface of the appliance extends 21 mm from the furniture cavity. Installation of BS/BM/CM directly above DV in 59 cm niche without

intermediate floor. Built-in under worktop or in single

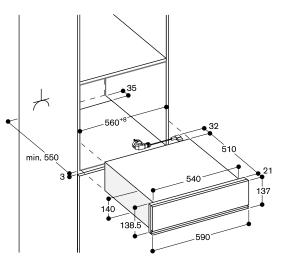

niche.

The socket can be planned behind the appliance.

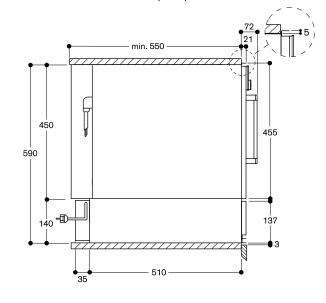

Please read the installation details regarding oven combination on page 14 - 15.

Connection

Total connected load 0.32 kW. Connecting cable 1.5 m pluggable.

Wok attachment for wok pan

Only for Vario induction cooktops.

Vario flex induction cooktop 400 series VI 492

- Flex function for combining the rectangular cooking areas
- Free positioning of cookware inside combined cooking areas
- Frying sensor function for temperature control in pans
- Large cooking zone for pots up to ø 32 cm
- Ideal for the original wok pan with round bottom, with wok ring
- Easy control of all functions with bicoloured display
- Solid stainless steel control knob - Precision crafted 3 mm stainless steel
- For surface mounting with a visible edge or for flush mounting
- Can be combined perfectly with other Vario appliances of the 400 series

Cooking zones

2 flex induction cooking areas 19x23 cm (2200 W, with booster 3700 W), linked together 38x23 cm (3300 W, with booster 3700 W). 2 flex induction cooking areas 19x23 cm (2200 W, with booster 3700 W), linked together 38x23 cm (3300 W. with booster 3700 W). 1 induction cooking zone ø21 cm (2200 W. with booster 3700 W). automatically switches to ø 26 cm (2600 W, with booster 3700 W) and to ø32 cm (3300 W, with booster 3700 W).

Control knobs with illuminated ring. cooking zone and output level markings. display (white / orange).

Features

Flex function for rectangular cooking areas. Frving sensor function. Booster function. Stopwatch. Short-term timer. Options menu.

Safety

Individual residual heat indicators. Safety shut-off.

- Depending on the type of installation (surface-mounted or flush-mounted), the specific location of the cut-out and the knob positions may vary. The horizontal positioning of the knobs may be aligned with the specific cooking areas and zones. The drawing "Installation of the control knob" must be observed if the panel is more than 23 mm thick (there must be a recess at the rear). If installing filler strip VA 450 take into
- account the additional space required for the depth.

If combining several appliances with at least one appliance cover, the filler strip VA 450 is required to compensate for the depth of the appliance without the appliance cover.

If combining several Vario appliances of the 400 series, a connection strip VA 420 must be placed between the appliances. Depending on the type of installation, the corresponding connection strip must be provided. In the cut-out, the installation system requires the side edge to be at least 10 mm for surface mounting and at least 13 mm for flush mounting. Ensure a continuous cut surface of 90° The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Additional instructions for flush mountina:

Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. The joint width may vary due to size tolerances of the combinations and of the worktop cut-out.

Please read additional planning notes on page 118 - 123.

If installing several appliances in individual cut-outs allow for a division bar of minimum 50 mm between the individual cut-outs.

Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. Appliance can be snapped into the worktop from above. Appliance weight: approx. 25 kg.

Please read the installation details regarding air ducting on page 188.

Connection

Total connected load 11.1 kW Connecting cable 1.5 m without plug.

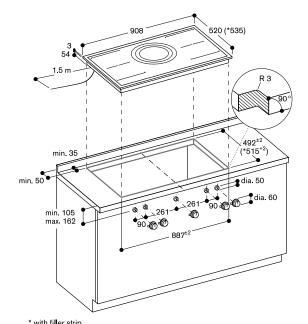

Handling

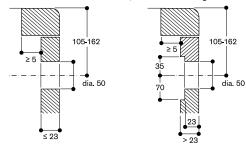

Electronic power control in 12 output levels. User friendly control with bicoloured

2 flex induction cooking areas 19x24 cm (2200 W, with booster 3700 W), linked together 38x24 cm (3300 W, with booster 3700 W).

Handling

Control knobs with illuminated ring, cooking zone and output level markings. Electronic power control in 12 output levels. User friendly control with bicoloured display (white / orange).

Features

Flex function for rectangular cooking areas.

Frying sensor function. Booster function. Stopwatch. Short-term timer. Options menu.

Safety

Individual residual heat indicators. Safety shut-off.

Planning notes

Depending on the type of installation (surface-mounted or flush-mounted), the specific location of the cut-out and the knob positions may vary. The horizontal positioning of the knobs may be aligned with the specific cooking areas. The drawing "Installation of the control locab."

knob" must be observed if the panel is more than 23 mm thick (there must be a recess at the rear). If installing filler strip VA 450 take into

account the additional space required for the depth.

If combining several appliances with at least one appliance cover, the filler strip VA 450 is required to compensate for the depth of the appliance without

the appliance cover. If combining several Vario appliances of the 400 series, a connection strip VA 420 must be placed between the appliances. Depending on the type of installation, the corresponding connection strip must be provided. In the cut-out, the installation system requires the side edge to be at least 10 mm for surface mounting and at

least 13 mm for flush mounting. Ensure a continuous cut surface of 90 $^\circ.$

The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Additional instructions for flush mounting:

Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. The joint width may vary due to size tolerances of the combinations and of the worktop cut-out.

Please read additional planning notes on page 118 – 123.

If installing several appliances in individual cut-outs allow for a division bar of minimum 50 mm between the individual cut-outs.

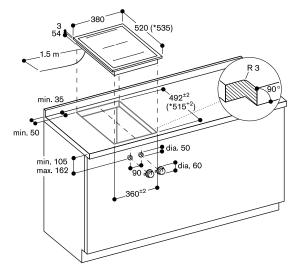

Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. Appliance can be snapped into the worktop from above. Appliance weight: approx. 10 kg.

Please read the installation details regarding air ducting on page 188.

Connection

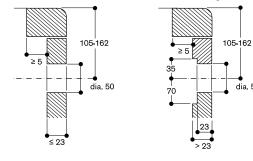

Total connected load 3.7 kW. Connecting cable 1.5 m without plug.

Vario gas cooktop 400 series VG 491

- 5 multi-ring burners, up to 18 kWFull electronic power level
- regulation on 12 levels - Precise and reproducible flame size
- Automatic fast ignition, electronic
- flame monitoring with automatic reignition Simmer function for cooking on a
- very low output level
- Solid smooth-surface cast iron pan supports
- Solid stainless steel control knob
 Precision crafted 3 mm stainless steel
- For surface mounting with a visible edge or for flush mounting
- Can be combined perfectly with other Vario appliances of the 400 series

Cooking zones

VG 491 111F 1 multi-ring wok burner (300 W – 5800 W), suitable for pots up to max. ø 32 cm. 2 two-ring high output burners (165 W – 4000 W), suitable for pots up to max. ø 28 cm. 2 two-ring standard burners (165 W – 2000 W), suitable for pots up to max. ø 24 cm.

VG 491 211

1 multi-ring wok burner (300 W - 6000 W), suitable for pots up to max. Ø 32 cm. 2 two-ring high output burners (165 W - 4000 W), suitable for pots up to max. Ø 28 cm. 2 two-ring standard burners (165 W - 2000 W), suitable for pots up to max. Ø 24 cm.

Handling

Control knobs with illuminated ring, cooking zone and output level markings. One-handed operation. Full electronic control in 12 output levels for exact power level regulation plus simmer function. Automatic fast ignition.

Features

Simmer function. Three-part cast iron pan support with flat, continuous pot surface. Brass burner rings.

Safety

Electronic flame monitoring with automatic re-ignition. Residual heat indication. Safety shut-off.

Planning notes

Depending on the type of installation (surface-mounted or flush-mounted, with or without an appliance cover), the specific location of the cut-out and the knob positions may vary.

The horizontal positioning of the knobs may be aligned with the specific burners. The drawing "Installation of the control knob" must be observed if the panel is more than 23 mm thick (there must be a recess at the rear).

If installing with the appliance cover VA 440 or filler strip VA 450 take into account the additional space required for the depth. If combining several appliances with at least one appliance cover, the filler strip VA 450 is required to compensate for the depth of the appliance without the appliance cover.

If combining several Vario appliances of the 400 series, a connection strip VA 420 must be placed between the appliances. Depending on the type of installation, the corresponding connection strip must be provided. In the cut-out, the installation system requires the side edge to be at least 10 mm for surface mounting and at least 13 mm for flush mounting. Ensure a continuous cut surface of 90° The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Additional instructions for flush mountina:

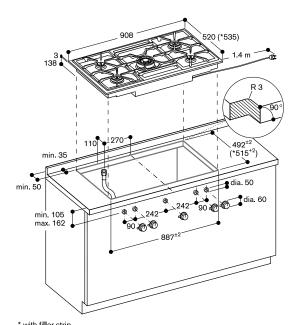

Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. The joint width may vary due to size tolerances of the combinations and of the worktop cut-out.

Please read additional planning notes on page 118 – 123.

If installing several appliances in individual cut-outs allow for a division bar of minimum 50 mm between the individual cut-outs. Special nozzles can be ordered as spare parts. Plan for an electrical connection (the appliance is not operable without power supply). Air intake from above. No intermediate shelf required. Rear panel and wall trims must be heat-resistant and consist of a non-flammable material. A minimum lateral clearance of at least 300 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted. Installation in a 90 cm wide lower cabinet is required. The combination with VL414 is not recommended, since the air extraction from the centre burner cannot be guaranteed due to the distance. With a total connected load of more than 11 kW local regulations concerning room ventilation, room size and combination of extraction or recirculation hoods must be observed. Minimum clearance between gas cooktop(s) with more than 11 kW and ventilation hood 70 cm. Appliance can be snapped into the worktop from above. Appliance weight: approx. 32 kg.

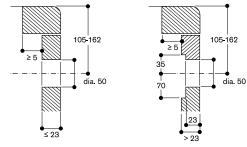

Connection

Total connected load gas up to 17.8/18.0 kW. Total connected load electric 15.0/15.0 W. Connecting cable 1.4 m with plug.

Features

Cooktop, lava stone trough and grease collecting insert from stainless steel. 2 independently controlled grilling elements (1500 W). Two-part cast grill.

Safety

Safety shut-off.

Planning notes

Depending on the type of installation (surface-mounted or flush-mounted, with or without an appliance cover), the specific location of the cut-out and the knob positions may vary.

If installing with the appliance cover VA 440 or filler strip VA 450 take into account the additional space required for the depth.

If combining several appliances with at least one appliance cover, the filler strip VA450 is required to compensate for the depth of the appliance without the appliance cover.

If combining several Vario appliances of the 400 series, a connection strip VA 420 must be placed between the appliances. Depending on the type of installation, the corresponding connection strip must be provided. In the cut-out, the installation system requires the side edge to be at least 10 mm for surface mounting and at least 13 mm for flush mounting. Ensure a continuous cut surface of 90° The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Additional instructions for flush mounting:

Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. The joint width may vary due to size tolerances of the combinations and of the worktop cut-out.

Please read additional planning notes on page 118 – 123.

If installing several appliances in individual cut-outs allow for a division bar of minimum 50 mm between the individual cut-outs.

Built-in control panel to be integrated in the bottom cabinet at drawer level. Panel thickness 16 – 26 mm.

The drawing "Installation of the control knob" must be observed if the panel is more than 26 mm thick (there must be a recess at the rear).

A minimum lateral clearance of at least 100 mm from adjacent heat-sensitive furniture or from the wall must be observed.

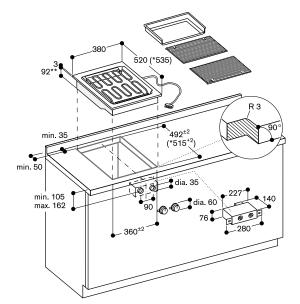

Appliance can be snapped into the worktop from above.

Appliance weight: approx. 26 kg.

- Gaggenau BLDC remote fan units

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

Manual opening of the ventilation element. Closing element made of stainless steel, dishwasher-safe. Metal grease filter, dishwasher-safe. No connecting piece included.

Consumption data

Consumption data is referred to a configuration with the remote fan unit AR 403 122. Energy efficiency class A+ at a range of energy efficiency classes from A++ to E. Energy consumption 42.7 kWh/year. Ventilation efficiency class A. Ilumination efficiency class C. Sound level min. 56 dB / max. 68 dB normal mode.

Planning notes

Refer to the table on page 289 for the matching remote fan units for air recirculation or air extraction mode. Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor. For each VL one remote fan unit is recommended.

Maximum cooktop width between two VL: 60 cm.

Appliance can be snapped into the worktop from above. Additional fixing by clamps accessible from bottom up, clamping range 30-50 mm. If installing with the appliance cover VA 440 or filler strip VA 450 take into account the additional space required

for the depth. If combining several appliances with at least one appliance cover, the filler strip VA 450 is required to compensate for the depth of the appliance without

the appliance cover. If combining several Vario appliances of the 400 series, a connection strip VA 420 must be placed between the appliances. Depending on the type of installation, the corresponding connection strip must be provided. In the cut-out, the installation system requires the side edge to be at least 10 mm for surface mounting and at least 13 mm for flush mounting. Ensure a continuous cut surface of 90°. The bearing capacity and stability, in the case of thin worktops in particular. must be supported using suitable substructures.

Take into account the appliance weight and additional loads. Additional instructions for flush mounting:

Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. The joint width may vary due to size

tolerances of the combinations and of the worktop cut-out.

If installing several appliances in individual cut-outs allow for a division bar of minimum 50 mm between the individual cut-outs.

If operated next to gas appliances, the ventilation moulding AA414010 is recommended to ensure maximum

performance of the cooktop. If installed next to gas appliances, flat ducts must not be used for the piping

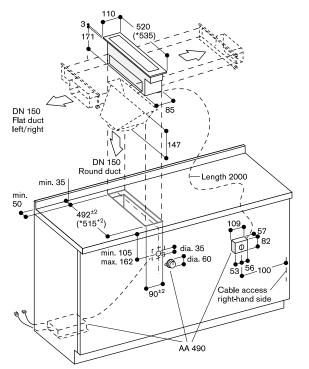

up to the fan unit. If installed next to VP 414, the flat duct must not be positioned underneath the VP 414.

Please read the installation details regarding air ducting on page 118 – 123.

Please read additional planning notes on page 218 – 221.

Connection

Connection cable 2.0 m between ventilation element VL414 and control knob AA490.

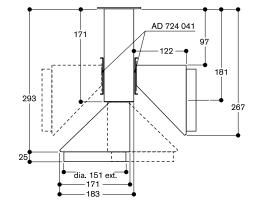

* with filler strip

- Solid stainless steel control knob
- Can be combined perfectly with other Vario appliances of the
 - 400 series Motorless, can be combined with
 - Gaggenau BLDC remote fan units

Handling

_

Control knob with illuminated ring and output marking.

Features

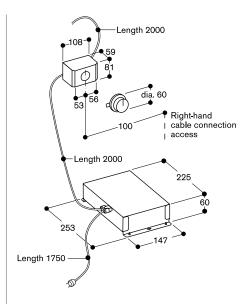

3 electronically controlled power levels and 1 intensive mode. Run-on function, 6 min.

Planning notes

The separate electronics housing is to be installed so that it is accessible. Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Connection

Total connected load 10 W. Connecting cable 1.8 m, pluggable.

Table ventilation 400 series AL 400

- Extendable table ventilation, when _ not in use can be completely lowered into the worktop
- Can be combined perfectly with other Vario appliances of the
- 400 series Dimmable, neutral white surface
- LED light for ideal illumination of the whole cooktop Precision crafted 3 mm stainless
- steel
- For surface mounting with a visible edge or for flush mounting
- Motorless, can be combined with Gaggenau BLDC remote fan units

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

3 electronically controlled power levels and 1 intensive mode. Interval ventilation, 6 min. Run-on function 6 min. Grease filter saturation indicator. Cartridge-type filter, dishwasher-safe. Neutral white surface LED light (3600 K), continuously dimmable. Lamp output 4x5W Illuminance 191 lx. Spare covers for closing air outlets. No connecting piece included.

Consumption data

Consumption data is referred to a configuration AL 400 121/AL 400 191 with the remote fan unit AR 400 142. Energy efficiency class A+/A at a range of energy efficiency classes from A++ to E. Energy consumption 45.1/49 kWh/year. Ventilation efficiency class A/A. Ilumination efficiency class E/E. Grease filter efficiency class C/C. Sound level min. 44/45 dB / max. 59/61 dB normal mode.

Planning notes

Refer to the table on page 288 for the matching remote fan units for air recirculation or air extraction mode. Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor. Connection to the respective appliances via network cable. AL 400 121 (AL 400 191) For operation with 4 (3) Vario 200 series cooktops, 3 (2) Vario 400 series cooktops or a cooktop configuration of up to 120 cm (92 cm) wide. Operation of Vario cooking appliances only possible without appliance cover. Max. output of cooktops 18 kW. In combination with the cooktop CI 290, installation in 60 cm deep worktops is possible. Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight

sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The remaining surface of the worktop (min. 50 mm) between the cut-outs must be reinforced with a support. It is recommended to use furniture support AA 409 401/431.

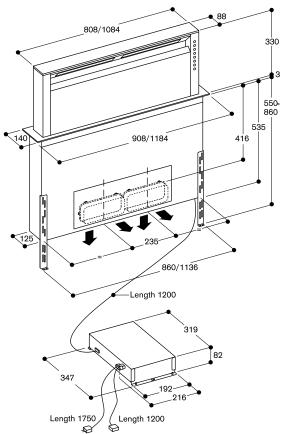

Ovens that do not exceed the maximum allowed cabinet temperature can be combined with the table ventilation if built-in situation permits.

To avoid smoke when frying/grilling refer to the manuals of VR/VP. When installing a ventilation hood with air extraction mode and a chimney vented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Please read additional planning notes on page 210 - 212.

Cut-out dimensions for appliance combinations in the 400 series. Surface mounting.

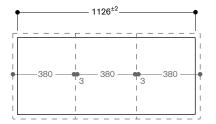

The drawings listed below show the cut-out dimensions for appliance combinations in the 400 series for a surface mounting. While taking into consideration the previous page and the drawings specified below, the installer can define the suitable cut-out dimensions. The combinations listed here are only sample combinations.

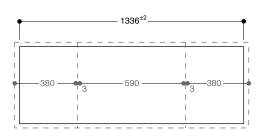

Depending on the installation situation (with or without cover/filler strip), the following connection strips must be provided: VA 420 010 for a surface mounting without appliance cover/filler strip. VA 420 011 for a surface mounting with appliance cover/filler strip.

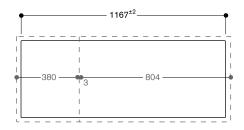

If installing with the VA 440 appliance cover or VA 450 filler strip, take into account the additional space required for the depth.

Cut-out dimensions for appliance combinations in the 400 series. Flush mounting.

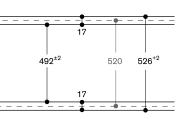

The drawings listed below show the cut-out dimensions for appliance combinations in the 400 series for a flush mounting. While taking into consideration the previous page and the drawings specified below, the installer can define the suitable cut-out dimensions. The combinations listed here are only sample combinations.

Depending on the installation situation (with or without cover/filler strip), the following connection strips must be provided: VA 420 000 for a flush mounting **without** appliance cover/filler strip. VA 420 001 for a flush mounting **with** appliance cover/filler strip.

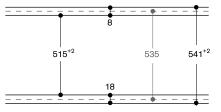

If installing with the VA 440 appliance cover or VA 450 filler strip, take into account the additional space required for the depth. Furthermore, you must ensure that there is an asymmetrical alignment in the cut-out depth.

Vario cooktops

Cut-out dimensions for appliance combinations in the 400 series. Calculator for calculating the width of the cut-out.

Calculation of the width of the cut-out for a surface mounting

Example using a combination of VI 414, VI 422, VP 414 and 2 VL 414.

		Example		Your combination
Total width of all appliances	in mm	(3x 380) + (2x 110)	1.360	
+ Number of connection strips	x 3 mm	4 x 3	+ 12	
- Lateral appliance projection	(10 mm / side)	20	- 20	- 20
(A) Total width of the cut-out	(in mm)		1.352 +/- 2	+/- 2

 $\label{eq:cut-out-depth-based} Cut-out \ depth-based \ on the installation situation with \ or \ without \ appliance \ cover/filler \ strip.$

Calculation of the width of the cut-out for a flush mounting

Example using a combination of VI 414, VI 422, VP 414 and 2 VL 414.

		Example		Your combination		
Total width of all appliances	in mm	(3x 380) + (2x 110)	1.360			
+ Number of connection strips	x 3 mm	4 x 3	+ 12			
- Lateral appliance projection	(10 mm / side)	20	- 20	- 20		
(A) Total width of the cut-out	(in mm)		1.352 +/- 2	+/- 2		
+ Lateral appliance projection	(10 mm / side)	20	+ 20	+ 20		
+ Silicone joint (3 mm circumferen	ce)	2 x 3	+ 6	+ 6		
(B) Total width with groove	(in mm)		1.378 + 2	0/+ 2		

Cut-out depth based on the installation situation with or without appliance cover/filler strip.

lome Connect Accessories

All appliances with a width of 38 cm can be equipped with a stainless steel appliance cover.

If combining several appliances with at least one appliance cover, the VA 450 filler strip is required to compensate for the depth of the appliance without the appliance cover and to have a continuous cut-out.

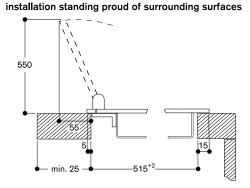

When installing with appliance cover or filler strip, depending on the mounting situation (surface or flush), the following connecting strips must be provided:

VA 420 011 for a surface mounting with appliance cover/filler strip.

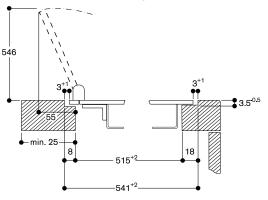

VA 420 001 for a **flush mounting** with appliance cover/filler strip.

If installing with the VA 440 appliance cover or VA 450 filler strip, take into account the additional space required for the depth. Furthermore, you must ensure that there is an asymmetrical alignment in the cut-out depth.

VG 232 120F Special nozzles for natural gas 20 mbar can be ordered as spare parts.

VG 232 220

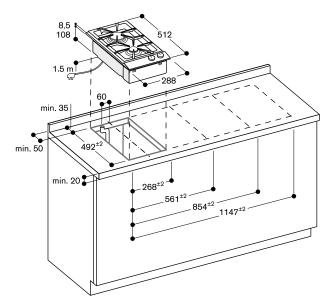

Special nozzles for liquid gas 28-30/37 mbar can be ordered as spare parts.

Special nozzles for natural gas 20 mbar can be ordered as spare parts. Appliance can be snapped into the worktop from above. A minimum clearance of at least 150 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted. With a total connected load of more than 11 kW local regulations concerning room ventilation, room size and combination of extraction or recirculation hoods must be observed. Minimum clearance between gas cooktop(s) with more than 11 kW and ventilation hood 70 cm. Appliance weight: approx. 9 kg.

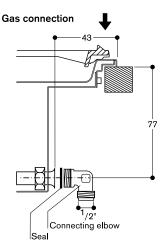

Please read additional planning notes on page 132.

Connection

Total connected load gas 4.9 kW. Total connected load electric 2.0 W. Connecting cable 1.5 m with plug.

Minimum distance from the appliance cut-out to the side wall 150 mm.

VP 230 120 Black control panel

Width 28 cm

Included in the price

1 spatula Installation accessories

VV 200 010

Stainless steel connection strip for combination with other Vario appliances of the 200 series

VV 200 020

Black connection strip for combination with other Vario appliances of the 200 series

Special accessories

VD 200 020 Black appliance cover

Vario Teppan Yaki 200 series VP 230

- Can be combined with the cooktops of the Vario 200 series to a harmonic unity
- Control panel for comfortable and secure operation
- Cooking directly on the metal surface, without any pots or pans
- Exact temperature control up to 240 °C
- Keeping warm setting

Cooking zones

Useable area: 844 cm². Handling

Control knobs with illuminated ring. Integrated control panel. Electronic temperature control from 140 °C to 240 °C.

Features

Heating element with 1800 W. Keeping warm setting. Cleaning stage. Stainless steel frame seamlessly welded with the stainless steel surface.

Safety

Pre-heat and residual heat indicator. Operation indicator. Safety shut-off.

Planning notes

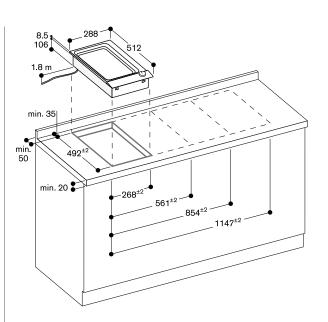

The distance from the upper edge of the work surface to the upper edge of the intermediate shelf must be at least 150 mm.

Appliance can be snapped into the worktop from above. A minimum lateral clearance of at least 30 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted. Intermediate shelf required; after installation, this shelf must only be removed using tools to guarantee the touch protection from below. Appliance weight: approx. 10 kg.

Please read additional planning notes on page 132.

Connection

Total connected load 1.8 kW. Connecting cable 1.8 m without plug.

VR 230 120

Black control panel Width 28 cm

Included in the price

- 1 grease collecting insert
- 1 cast grill
- 1 lava stone
- 1 cleaning brush

Installation accessories VV 200 010

Stainless steel connection strip for combination with other Vario

appliances of the 200 series VV 200 020

Black connection strip for combination with other Vario appliances of the 200 series

Special accessories

LV 030 000 Lava stones for refilling VD 200 020

Black appliance cover

Vario electric grill 200 series VR 230

- Can be combined with the cooktops of the Vario 200 series to a harmonic unity
- Control panel for comfortable and secure operation
- 2 zones, separately controlledOpen cast grill, lava stones

Handling

Control knobs with illuminated ring. Integrated control panel. 9 switching levels.

Features

2 separately controllable swing-out grilling elements (1500 W). Join function. Cast grill. Stainless steel lavastone container and grease collecting insert, dishwasher-safe.

Safety

Pre-heat and residual heat indicator. Operation indicator. Safety shut-off.

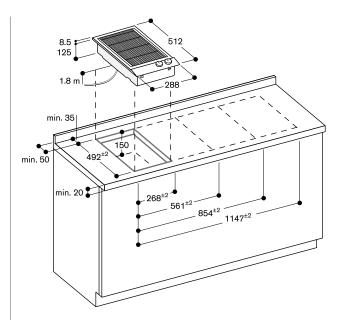

Planning notes

Appliance can be snapped into the worktop from above. A minimum clearance of at least 200 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted. Appliance weight: approx. 15 kg.

Please read additional planning notes on page 132.

Connection

Total connected load 3.0 kW. Connecting cable 1.8 m without plug.

VL 200 120

Black control panel Width 15 cm Air extraction / Air recirculation Motorless

Installation accessories

AD 410 040 Flexibel connecting piece for VL 200 DN 150 flat

AD 851 041

Connecting piece VL 200 for extension with flat duct DN 150 for extra deep worktop

VV 200 010

Stainless steel connection strip for combination with other Vario appliances of the 200 series

VV 200 020

Black connection strip for combination with other Vario appliances of the 200 series

Special accessories

LS 041 001 Ventilation moulding for VL200 next to gas appliance Stainless steel

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Vario downdraft ventilation 200 series VL 200

- Can be combined with the
- cooktops of the Vario 200 series to a harmonic unity
- Highly efficient ventilation system at the cooktop integrated in the worktop
- Function for automatic, sensorcontrolled power adjustment depending on the build-up of cooking vapours
- Minimal planning and easy installation
- Low-noise system with the motor AR410110
- Air extraction or air recirculation system

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

Control knobs with illuminated ring. 3 electronically controlled power levels and 1 intensive mode. Automatic function with sensor-controlled run-on function. Large-scale metal grease filter with high grease absorption. Grease filter, dishwasher-safe.

Grease filter and activated charcoal filter saturation indicator. Airflow-optimised interior for efficient

air circulation. Interval ventilation, 6 min. Enamelled ventilation grille,

dishwasher-safe. Air exhaust bend included in delivery. Overflow 250 ml capacity.

Consumption data

Consumption data is referred to a configuration with the remote fan unit AR 403 122.

Energy efficiency class A+ at a range of energy efficiency classes from A++ to E.

Energy consumption 39.7 kWh/year. Ventilation efficiency class A. Ilumination efficiency class -.

Grease filter efficiency class B. Sound level min. 58 dB / max. 73 dB normal mode.

Planning notes

Air recirculation mode in combination with remote fan unit with AR 410 110 or AR 413 122.

Air extraction in combination with remote fan unit AR 403 122. Please refer to page 297 for recommended configurations of downdraft ventilations and remote fan units and the needed ducting elements.

For each VL one remote fan unit is recommended.

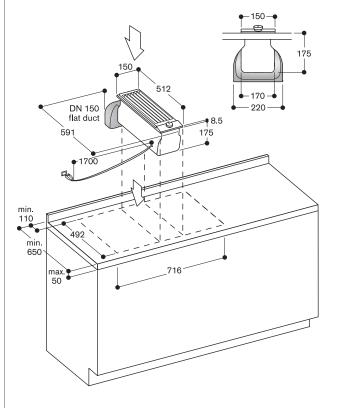

Maximum cooktop width between 2 VL: 60 cm. If installed next to gas appliances, the ventilation moulding LS 041 001 is recommended to ensure maximum performance of the cooktop. When having installed the ventilation moulding LS 041 001 the wok pan WP 400 001 can not be used. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Please read additional planning notes on page 132.

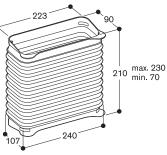

Please read the installation details regarding air ducting on page 244 – 246.

Connection

Connecting cable 1.7 m between VL and remote fan unit.

AD 410 040: Flexibel connecting piece for VL 200, DN 150 flat

AD 851 041: Connecting piece VL 200 for extension with flat duct DN 150 for extra deep worktop

30

Cut-out dimensions for cooktop combinations in the 200 series

The drawings below show the cut-out dimensions for cooktop combinations of the 200 series. The technician can find the suitable cut-out dimensions for the combinations most frequently used by referring to the previous pages and the drawings below.

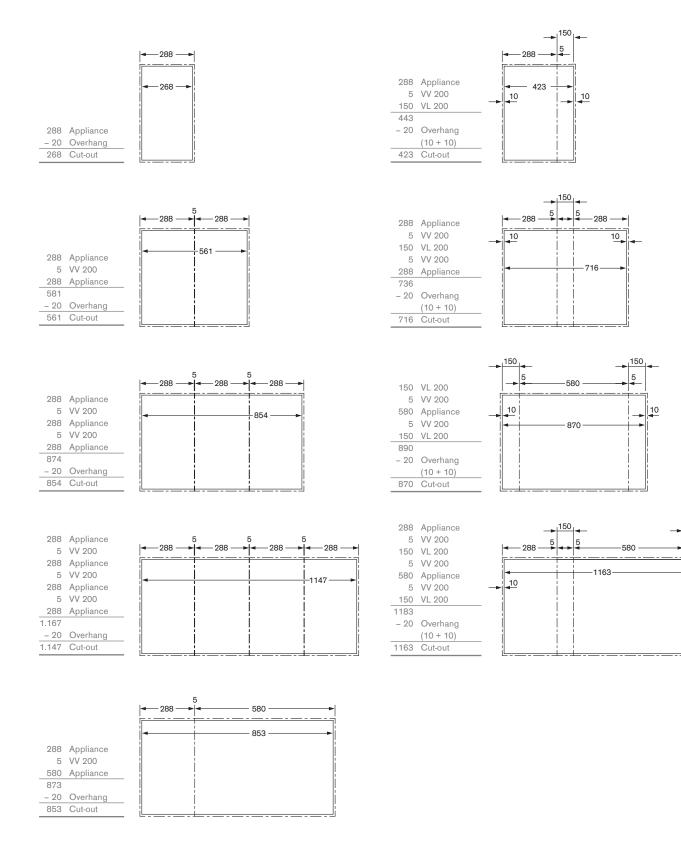

Cut-out dimensions for the Vario 200 series

Cut-out dimensions for the Vario 200 series with downdraft

5

10

Accessories and special accessories for Vario cooktops 400 series

LV 030 000

Lava stone for refilling

VA 440 010

Stainless steel appliance cover with mounting strip

VA 461 000

Cast pan, enamelled, half size For Vario electric grill 400 series. For simultaneous frying and grilling on two separate surfaces.

VA 461 001

Cast pan, enamelled, full size For Vario electric grill 400 series For large quantities on one surface.

WP 400 001

Wok pan made of multiple-layer material With round bottom and handle. ø36 cm, 6 litres, height 10 cm.

WZ 400 001 Wok attachment for wok pan

VA 420 000

Connection strip for combination with other Vario appliances of the 400 series for flush mounting

VA 420 001

Connection strip for combination with other Vario appliances of the 400 series for flush mounting with appliance cover/filler strip

VA 420 010

Connection strip for combination with other Vario appliances of the 400 series for surface mounting

VA 420 011

Connection strip for combination with other Vario appliances of the 400 series for surface mounting with appliance cover/filler strip

VV 401 000

25 mm connecting strip for use in combination with other Vario cooking appliances in the 400 series in sections of the previous Vario 400 cooking series Not suitable for appliance combinations with the VL 414 downdraft ventilation. For surface mounting, without appliance cover.

VA 450 400

Stainless steel filler strip 38 cm Necessary accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.

VA 450 401

Stainless steel filler strip 38 cm Necessary accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.

VA 450 600

Stainless steel filler strip 60 cm Necessary accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.

VA 450 800

Stainless steel filler strip 80 cm Necessary accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.

VA 450 900

Stainless steel filler strip 90 cm Necessary accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.

AD 724 042

Connection piece for round pipe DN 150 For VL414 For installation to left or right side of VL additional adapter AD 724 041 is necessary.

AD 724 041

Round duct connection additional adaptor for VL 414 on the side Metal zinc plated DN 150 round One piece needed for each VL 414 to be connected to round ducts DN 150 to the left/right.

AD 854 046

Flat duct system with conducting fins Connection piece VL 414 for DN 150 flat rectangular Allows for long duct runs with highest

efficiency due to soft duct shape and conducting fins within the duct bends Compact installation height even with DN 150 allows integration in floor constructions

LV 030 000 Lava stone for refilling

VD 200 020 Black appliance cover

LS 041 001 Air baffle for VL 200 next to gas appliance

VV 200 010

Stainless steel connection strip for combination with other Vario appliances of the 200 series.

VV 200 020

Black connection strip for combination with other Vario appliances of the 200 series.

The cooktops

Gas cooktops	146
Induction cooktops	152
Planning notes for induction cooktops	188
Glass ceramic cooktops	189
Accessories special accessories	192
Technical specifications	194

CG 492 111F

Stainless steel Width 100.2 cm Liquid gas 28 – 37 mbar Wok burner with up to 5.8 kW CG 492 211 Stainless steel Width 100.2 cm Natural gas 20 mbar Wok burner with up to 6 kW

Included in the price

Necessary installation accessories CA 429 410 Frame set including decorative frame (to be welded in) and holding frame

Special accessories

WP 400 001 Wok pan made of multiple-layer material With round bottom and handle, ø 36 cm, 6 litres, height 10 cm.

Gas cooktop 400 series CG 492

- 5 multi-ring burners, up to 18 kWFull electronic power level
- regulation on 12 levels - Precise and reproducible flame size
- Automatic fast ignition, electronic
- flame monitoring with automatic re-ignition Simmer function for cooking on a
- very low output level
- Solid smooth-surface cast iron pan supports on the same level as the worktop
- Solid stainless steel control knob

Cooking zones

CG 492 111F 1 multi-ring wok burner (300 W – 5800 W), suitable for pots up to max. ø 32 cm. 2 two-ring high output burners (165 W – 4000 W), suitable for pots up to max. ø 28 cm. 2 two-ring standard burners (165 W – 2000 W), suitable for pots up to max. ø 24 cm.

CG 492 211

1 multi-ring wok burner (300 W - 6000 W), suitable for pots up to max. Ø 32 cm. 2 two-ring high output burners (165 W - 4000 W), suitable for pots up to max. Ø 28 cm. 2 two-ring standard burners (165 W - 2000 W), suitable for pots up to max. Ø 24 cm.

Handling

Control knobs with illuminated ring, cooking zone and output level markings. One-handed operation. Full electronic control in 12 output levels for exact power level regulation plus simmer function. Automatic fast ignition.

Features

Simmer function. Three-part cast iron pan support with flat, continuous pot surface, on the same level as the worktop. Brass burner rings.

Safety

Electronic flame monitoring with automatic re-ignition. Residual heat indication. Safety shut-off.

Planning notes

The frame set (necessary installation accessory) can be sent in advance to the manufacturer of the stainless steel or granite worktop for fitting. Special nozzles can be ordered as spare parts. Plan for an electrical connection (the appliance is not operable without power supply). The horizontal positioning of the knobs may be aligned with the specific burners. The drawing "Installation of the control knob" must be observed if the panel is more than 23 mm thick (there must be a recess at the rear).

Minimum worktop depth 70 cm.

Air intake from above.

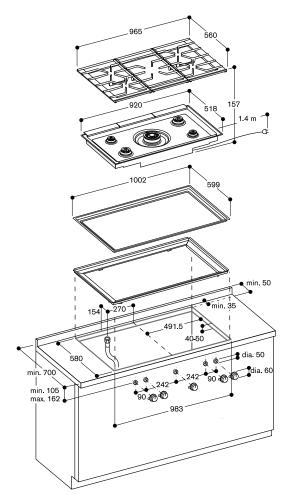

No intermediate shelf required. Due to the separate frame welded into the worktop, all parts remain fully accessible.

Rear panel and wall trims must be heat-resistant and consist of a non-flammable material.

The appliance can be fixed from above. A minimum lateral clearance of at least 300 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted. With a total connected load of more than 11 kW local regulations concerning room ventilation, room size and combination of extraction or recirculation hoods must be observed. Minimum clearance between gas cooktop(s) with more than 11 kW and ventilation hood 70 cm. The combination with VL414 is not recommended, since the air extraction from the centre burner cannot be guaranteed due to the distance. Appliance weight: approx. 35 kg.

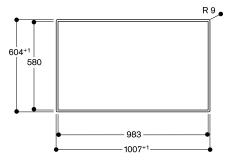

Connection

Total connected load gas 17.8/18.0 kW. Total connected load electric 15.0/15.0 W. Connecting cable 1.4 m with plug.

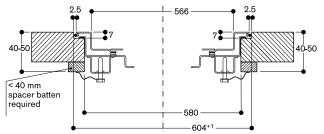

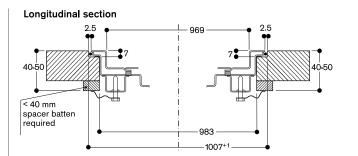

For further installation options, see the installation instructions

View from above

G 295

_

- Control panel for comfortable and secure operation
- Mechanical power level regulation for 9 power levels, with exact setting and reproduction of
- flame size - Multi-ring burner of solid,
- heat-resistant brass as used in professional kitchen
- Solid smooth-surface cast iron pan supports
- Up to 18 kW on 5 burners

Cooking zones

VG 295 120F 1 multi-ring wok burner (300 W – 5800 W), suitable for pots up to max. ø32 cm. 2 two-ring high output burners (170 W – 4000 W), suitable for pots up to max. ø28 cm. 2 two-ring standard burners (170 W – 2000 W), suitable for pots up to max. ø24 cm.

VG 295 220

1 multi-ring wok burner (300 W - 6000 W), suitable for pots up to max. ø 32 cm. 2 two-ring high output burners (170 W - 4000 W), suitable for pots up to max. ø 28 cm. 2 two-ring standard burners (170 W - 2000 W), suitable for pots up to max. ø 24 cm.

Handling

Control knobs with illuminated ring. Integrated control panel. One-handed operation. Electric ignition.

Features

Three-part cast iron pan support with flat, continuous pot surface. Brass burner rings.

Safety

Thermoelectric safety pilot. Residual heat indication. Operation indicator.

Planning notes

VG 295 120F Special nozzles for natural gas 20 mbar can be ordered as spare parts.

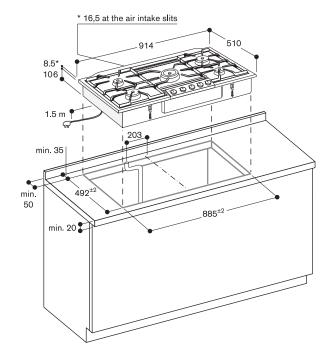

VG 295 220 Special nozzles for liquid gas 28-30/37 mbar can be ordered as spare parts.

No intermediate shelf required. Appliance can be snapped into the worktop from above. Rear panel and wall trims must be heat-resistant and consist of a non-flammable material. Installation in a 90 cm wide lower cabinet is required. A minimum lateral clearance of at least 300 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted. With a total connected load of more than 11 kW local regulations concerning room ventilation, room size and combination of extraction or recirculation hoods must be observed.

Minimum clearance between gas cooktop(s) with more than 11 kW and ventilation hood 70 cm. Appliance weight: approx. 31 kg.

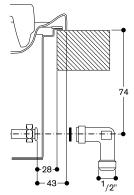

Connection

Total connected load gas 17.8/18 kW. Total connected load electric 5.0 W. Connecting cable 1.5 m with plug.

Minimum distance from the appliance cut-out to the side wall 300 mm.

Gas connection

CG 291 210

Stainless steel Width 90 cm Natural gas 20 mbar Nozzles for liquid gas 28-30/37 mbar included

Included in the price

cross support for espresso
 wok attachment ring

Special accessories

WP 400 001 Wok pan made of multiple-layer material With round bottom and handle, ø36 cm, 6 litres, height 10 cm.

Gas cooktop 200 series CG 291

- Mechanical power level regulation for 9 power levels, with exact setting and reproduction of flame size
- Multi-ring burner with up to 5 kW

Cooking zones

1 multi-ring wok burner (300 W – 5000 W).

1 high output burner (500 W - 3000 W), suitable for pots up to max. ø 26 cm. 2 standard burners (350 W - 1750 W), suitable for pots up to max. ø 20 cm. 1 economy burner (330 W - 1000 W), suitable for pots up to max. ø 14 cm.

Handling

Control knobs with cooking zone and output level markings for 9 levels. One-handed operation. Electric ignition.

Features

Three-part cast iron pan support with continuous pot surface. Enamelled burner cover.

Safety

Thermoelectric safety pilot.

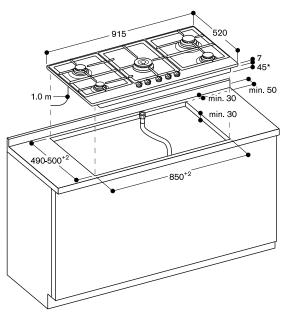

Planning notes

The cooktop can be surface-mounted. Special nozzles can be ordered as spare parts. Installation in a 85 cm niche or a 88 cm niche with the included spacers. Air intake from above. Intermediate shelf is required. Appliance must be fixed from underneath. A minimum clearance of at least 150 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted. With a total connected load of more

than 11 kW local regulations concerning room ventilation, room size and combination of extraction or recirculation hoods must be observed. Minimum clearance between gas cooktop(s) with more than 11 kW and ventilation hood 70 cm. Appliance weight: approx. 19 kg.

Connection

Total connected load gas 12.5 kW. Connecting cable 1.0 m without plug.

* 61 mm in the area of the gas connection at the back right

CG 261 210

Included in the price

cross support for espresso
 wok attachment ring

Special accessories

WP 400 001 Wok pan made of multiple-layer material With round bottom and handle, ø 36 cm, 6 litres, height 10 cm.

Gas cooktop 200 series CG 261

- ____
- Mechanical power level regulation for 9 power levels, with exact setting and reproduction of flame size
- Up to 9.75 kW with burners in a diamond-shaped arrangement

Cooking zones

1 multi-ring wok burner (1550 W - 4000 W). 1 high output burner (500 W - 3000 W), suitable for pots up to max. Ø26 cm. 1 standard burner (290 W - 1750 W), suitable for pots up to max. Ø20 cm. 1 economy burner (330 W - 1000 W), suitable for pots up to max. Ø16 cm.

Handling

Control knobs with cooking zone and output level markings for 9 levels. One-handed operation. Electric ignition.

Features

Two-part cast iron pan support with continuous pot surface. Enamelled burner cover.

Safety

Thermoelectric safety pilot.

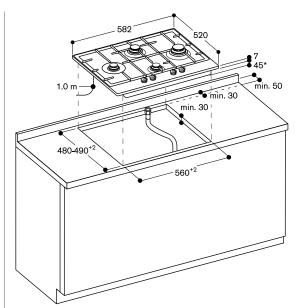

Planning notes

The cooktop can be surface-mounted. Special nozzles can be ordered as spare parts. Installation in a 56 cm standard niche. Air intake from above. Intermediate shelf is recommended. Allow for a gas connection when planning drawer depth. Appliance must be fixed from underneath. A minimum clearance of at least

100 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted. Appliance weight: approx. 18 kg.

Connection

Total connected load gas 9.75 kW. Connecting cable 1.0 m without plug.

* 56 mm in the area of the gas connection at the back right

CX 492 100

Frameless Width 90 cm

Included in the price 1 Cooking sensor for temperature

regulation

Special accessories

CA 060 300 Cooking sensor for temperature regulation within pots For flex induction cooktop.

GN 232 110

Teppan Yaki plate made of multi ply material,

GN 1/1

For full surface induction cooktops.

Teppan Yaki plate made of multi ply

material, GN 2/3

For full surface induction cooktops.

Full surface induction cooktop 400 series CX 492

- One single big cooking surface
- Free positioning of cookware
- All sizes and formats of cookware can be used
- TFT touch display for an intuitive control of all functions
- Cooking sensor function for temperature control in pots
- Professional cooking functions
- Max. power output for big cookware of up to 5.5 kW
- Frameless for flush mounting

Cooking zones

One unique cooking surface of 3200 cm². Up to 6 items of cookware can be placed simultaneously on the cooktop.

Handling

Easy to use colour graphic TFT touch display with use indications. Electronic power control in 17 output levels.

Features

Cooking sensor function. Professional cooking function. Dynamic cooking function. Teppan Yaki function. Booster function for pots. Booster function for pans. Keep warm function. Individual pot detection. Cooking timer for each cooking position. Stopwatch. Short-term timer. Information key with use indicators. Power management. Cooktop-based ventilation control (with suitable hood).

Home network integration for digital services (Home Connect) wireless via WiFi. The use of the Home Connect

functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Safety

Main switch. Residual heat indication. Child lock. Safety shut-off. Pause function.

Planning notes

Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. The wok pan WP 400 001 cannot be used with this appliance. Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. Intermediate shelf is recommended. Appliance must be fixed from underneath.

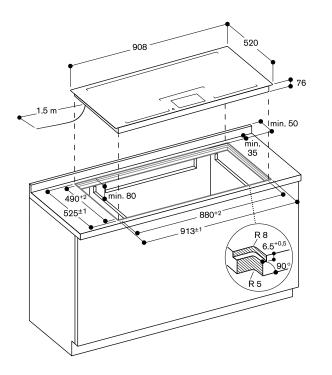

Joint width may vary due to dimensional tolerances of the glass ceramic cooktop and the worktop cut-out. Appliance weight: approx. 31 kg.

Please read the installation details regarding air ducting on page 188.

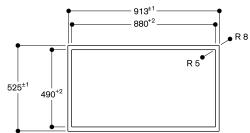

Connection

Total connected load 7.4 kW. Connecting cable 1.5 m without plug.

functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect com

Please read additional information on Home Connect on page 420.

Safety

Main switch. Residual heat indication. Child lock. Safety shut-off. Pause function.

Planning notes

Depending on the type of installation (surface-mounted or flush-mounted), the specific definition of the cut-out must be observed. If combining several appliances with at least one appliance cover, the filler strip VA 450 is required to compensate for the depth of the appliance without the appliance cover.

If combining several Vario appliances of the 400 series, a connection strip VA 420 must be placed between the appliances. Depending on the type of installation, the corresponding connection strip must be provided. In the cut-out, the installation system requires the side edge to be at least 10 mm for surface mounting and at least 13 mm for flush mounting. Ensure a continuous cut surface of 90° The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Additional instructions for flush mountina:

Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. The joint width may vary due to size tolerances of the combinations and of the worktop cut-out.

Please read additional planning notes on page 118 – 123.

If installing several appliances in individual cut-outs allow for a division bar of minimum 50 mm between the individual cut-outs. Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich

bottom cookware is recommended. The wok pan WP 400001 cannot be used with this appliance. Intermediate shelf is recommended. Appliance can be snapped into the worktop from above.

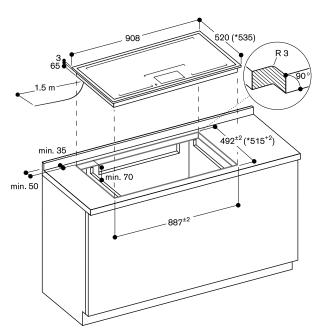

Appliance weight: approx. 31 kg.

Please read the installation details regarding air ducting on page 188.

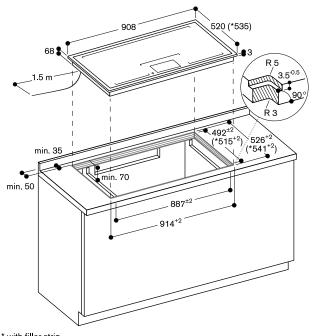

Connection

Total connected load 7.4 kW. Connecting cable 1.5 m without plug.

CVL 410 100

For flush mounting Width 87.7 cm Air extraction / Air recirculation Delivery without motor and without ducting

Consists of:

Induction wok 400 series CI 414 101 Flex induction cooktop 400 series CI 422 101 Downdraft ventilation 400 series VL 410 111 Vario control knob ventilation 400 series AA 490 111 2 Connection strips for combination within SETs 2x VA 422 000

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Flex induction cooktop with downdraft ventilation 400 series CVL 410

- For flush mounting
- Flex function for combining the rectangular cooking areas
- Free positioning of cookware inside combined cooking areas
- Large cooking zone for pots up to ø 32 cm
- Ideal for the original wok pan with round bottom, with wok ring
- Solid stainless steel control knob
- Easy control of cooktop functions with bicoloured display
- Highly efficient ventilation system at the cooktop
- Motorless, can be combined with Gaggenau BLDC remote fan units
- Air extraction or air recirculation system

Cooking zones

2 flex induction cooking areas 19x24 cm (2200 W, with booster 3700 W), linked together 38x24 cm (3300 W, with booster 3700 W). 1 induction cooking zone ø 21 cm (2200 W, with booster 3700 W), automatically switches to ø 26 cm (2600 W, with booster 3700 W) and to ø 32 cm (3300 W, with booster 3700 W).

Performance of ventilation system

Power levels depend on the remote fan unit, see table on page 294 - 295.

Handling

Control knobs with illuminated ring, cooking zone and output level markings. Electronic power control of the cooking zone in 12 output levels. User friendly control of cooktop functions with bicoloured display (white / orange). Control of ventilation system with 3 electronically controlled power levels and 1 intensive mode.

Features

Flex function for rectangular cooking areas. 32 cm cooking zone. Wok function. Frying sensor function. Booster function. Stopwatch. Short-term timer. Options menu. Run-on function, 6 min. Manual opening of the ventilation element. Closing element made of stainless steel, dishwasher-safe. Metal grease filter, dishwasher-safe.

Consumption data of downdraft ventilation

Consumption data is referred to a configuration with the remote fan unit AR 403 122. Energy efficiency class A+ at a range of energy efficiency classes from A++ to E. Energy consumption 42.7 kWh/year. Ventilation efficiency class A. Ilumination efficiency class -. Grease filter efficiency class C. Sound level min. 56 dB / max. 68 dB normal mode.

Safety

Operation indicator. Pot detection. Individual residual heat indicators. Safety shut-off.

Planning notes

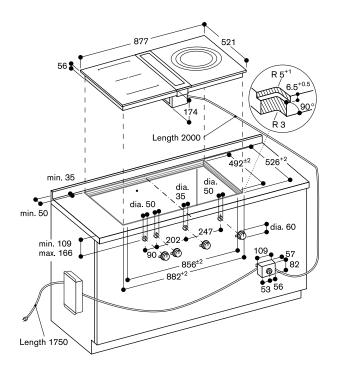

Refer to the table on page 290 for the matching remote fan units for air recirculation or air extraction mode. When installing a ventilation hood with air extraction mode and a chimney-vented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch. The horizontal positioning of the knobs may be aligned with the specific cooking areas and downdraft ventilation. The drawing "Installation of the control knob" must be observed if the panel is more than 23 mm thick (there must be

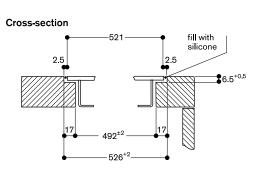

a recess at the rear). In the cut-out, the installation system requires the side edge to be at least 13 mm for flush mounting. Ensure a continuous cut surface of 90° The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. Joint width may vary due to dimensional tolerances of the glass ceramic cooktop and the worktop cut-out. Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. Immersion depth 174 mm. Appliance can be snapped into the worktop from above.

Please read the installation details regarding air ducting on page 226 – 227.

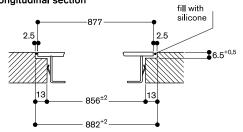

Connection

Total connected load 7.41 kW (2 x 3.7 kW cooktops and 0.01 kW control knob ventilation). Connecting cable cooktops 1.5 m without plug. Connecting cable downdraft ventilation 1.8 m, pluggable. Connection cable 2.0 m between ventilation element VL 410 and control knob A4 490.

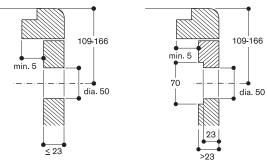

Longitudinal section

VL 410 downdraft ventilation

CVL 420 100

For flush mounting Width 87.7 cm Air extraction / Air recirculation Delivery without motor and without ducting

Consists of:

Flex Induction cooktop 400 series CI 422 101 Flex induction cooktop 400 series CI 422 101 Downdraft ventilation 400 series VL 410 111 Vario control knob ventilation 400 series AA 490 111 2 Connection strips for combination within SETs 2x VA 422 000

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Flex induction cooktop with downdraft ventilation 400 series CVL 420

- For flush mounting
- Flex function for combining the rectangular cooking areas
- Free positioning of cookware inside combined cooking areas
- Solid stainless steel control knobEasy control of cooktop functions
- with bicoloured displayHighly efficient ventilation system at the cooktop
- Motorless, can be combined with
- Gaggenau BLDC remote fan units - Air extraction or air recirculation system

Cooking zones

2 flex induction cooking areas 19x24 cm (2200 W, with booster 3700 W), linked together 38x24 cm (3300 W, with booster 3700 W). 2 flex induction cooking areas 19x24 cm (2200 W, with booster 3700 W), linked together 38x24 cm (3300 W, with booster 3700 W).

Performance of ventilation system

Power levels depend on the remote fan unit, see table on page 294 – 295.

Handling

Control knobs with illuminated ring, cooking zone and output level markings. Electronic power control of the cooking zone in 12 output levels. User friendly control of cooktop functions with bicoloured display (white / orange). Control of ventilation system with 3 electronically controlled power levels and 1 intensive mode.

Features

Flex function for rectangular cooking areas. Frying sensor function. Booster function. Stopwatch. Short-term timer. Options menu. Run-on function, 6 min. Manual opening of the ventilation element. Closing element made of stainless steel, dishwasher-safe. Metal grease filter, dishwasher-safe.

Consumption data of downdraft ventilation

Consumption data is referred to a configuration with the remote fan unit AR 403 122. Energy efficiency class A+ at a range of energy efficiency classes from A++ to E. Energy consumption 42.7 kWh/year. Ventilation efficiency class A. Ilumination efficiency class -. Grease filter efficiency class C. Sound level min. 56 dB / max. 68 dB normal mode.

Safety

Operation indicator. Pot detection. Individual residual heat indicators. Safety shut-off.

Planning notes

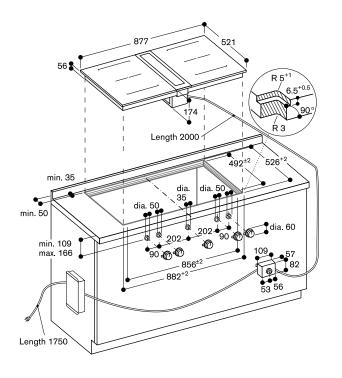

Refer to the table on page 290 for the matching remote fan units for air recirculation or air extraction mode. When installing a ventilation hood with air extraction mode and a chimney-vented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch. The horizontal positioning of the knobs may be aligned with the specific cooking areas and downdraft ventilation. The drawing "Installation of the control knob" must be observed if the panel is

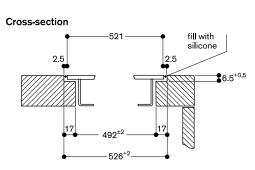

more than 23 mm thick (there must be a recess at the rear). In the cut-out, the installation system requires the side edge to be at least 13 mm for flush mounting. Ensure a continuous cut surface of 90° The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. Joint width may vary due to dimensional tolerances of the glass ceramic cooktop and the worktop cut-out. Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. Immersion depth 174 mm. Appliance can be snapped into the worktop from above.

Please read the installation details regarding air ducting on page 226 – 227.

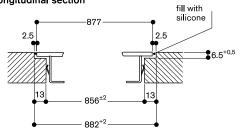

Connection

Total connected load 7.41 kW (2 x 3.7 kW cooktops and 0.01 kW control knob ventilation). Connecting cable cooktops 1.5 m without plug. Connecting cable downdraft ventilation 1.8 m, pluggable. Connection cable 2.0 m between ventilation element VL 410 and control knob AA 490

Flex induction cooktop with integrated ventilation system 200 series CV 282

- Flex function for combining the rectangular cooking areas
- Free positioning of cookware inside combined cooking areas
- Highly efficient ventilation system integrated in the cooktop
- Fully automatic ventilation system functions
- Large-scale metal grease filter with high grease absorption
- Energy-saving, low-noise fan
- Air extraction or air recirculation system
- Air recirculation module with activated charcoal filters: space-saving ducting integrated in the lower cabinet as well as easy filter replacement
- Twist-Pad control with removable magnetic knob
- Easy control of all functions with bicoloured display

Cooking zones

2 flex induction cooking areas 19x23 cm (2200 W, with booster 3700 W), linked together 38x23 cm (3300 W, with booster 3700 W). 2 flex induction cooking areas 19x23 cm (2200 W, with booster 3700 W), linked together 38x23 cm (3300 W, with booster 3700 W).

Performance of ventilation system

Performance and noise level, output level 3/Intensive: Air output according to EN 61591. Sound power level according to EN 60704-3 Sound pressure level according to EN 60704-2-13. Odour reduction for air recirculation in accordance with EN 61591. Air extraction: 530 / 690 m³/h. 69 / 75 dB (A) re 1 pW. 57 / 63 dB (A) re 20 µPa. Air recirculation: 505 / 620 m³/h. 71 / 75 dB (A) re 1 pW. 59 / 63 dB (A) re 20 µPa. Odour reduction air recirculation 89 %.

Handling

Twist-Pad control with removable magnetic knob. User friendly control with bicoloured display (white / orange). Cooking zone and cooking area marking. Electronic power control of the cooking zone in 17 output levels. Control of ventilation system with 3 electronically controlled power levels and 1 intensive mode.

Features

Flex function for rectangular cooking areas. Automatic pot detection when the cooktop is switched on. Professional cooking function. Cooking sensor function (in use with cooking sensor function (in use with cooking sensor function. Frying sensor function. Booster function for pots. Booster function for pans. Keep warm function. Automatic sensor-controlled performance adjustment of the ventilation system. Automatic activation of the ventilation system when a cooking zone is used. Interval ventilation, 6 min. Sensor-controlled run-on function. Grease filter and air recirculation filter saturation indicator. Removable, dishwasher-safe grease filter unit. Enamelled, dishwasher-safe cover for ventilation system. Fan technology with highly efficient, brushless DC motor (BLDC). Airflow-optimised interior for efficient air circulation. Stonwatch Cooking timer for up to 99 minutes. Short-term timer. Memory function. Options menu.

Power management.

Consumption data

Energy efficiency class A at a range of energy efficiency classes from A++ to E. Energy consumption 49.5 kWh/year. Ventilation efficiency class A. Ilumination efficiency class A. Grease filter efficiency class B. Sound level min. 61 dB / max. 69 dB normal mode.

Safety

Main switch. Operation indicator. Pot detection. 2-stage residual heat indication. Child lock. Safety shut-off. Detachable, dishwasher-safe two-stage overflow protection. Removable overflow container, 2-litre capacity, dishwasher-safe. Grease filter detection.

Planning notes

Bottom cabinet width: min. 80 cm. Worktop depth: min. 60 cm, with shortened drawers. Full drawer depth can be used from 70 cm. Immersion depth 205 mm. Ducting system for air extraction or air recirculation must be ordered separately as a special accessory. Connection piece for air extraction: flat duct DN 150. In air extraction a one-way flap with a maximum opening pressure of 65 Pa should be installed. For optimum performance in air recirculation we recommend an outflow surface area of at least 720 cm². Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. Appliance must be fixed from underneath. Appliance weight: approx. 29 kg. The appliance must be freely accessible from below.

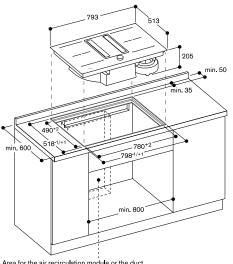

accessible from below. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch. The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. Joint width may vary due to dimensional tolerances of the glass ceramic cooktop and the worktop cut-out.

Please read the installation details regarding air ducting on page 256 – 257.

Stainless steel frying sensor pan Non-stick coating, ø 19 cm.

GP 900 003 Stainless steel frying sensor pan

Non-stick coating, ø 21 cm.

Flex induction cooktop 200 series CI 283

- Sturdy stainless steel frame
- Flex function for combining the rectangular cooking areas
- Free positioning of cookware inside combined cooking areas
- Professional cooking function for splitting the cooktop into
- predefined heat areas Cooking sensor function for
- temperature control in pots Frying sensor function for
- temperature control in pans Twist-Pad control with removable
- magnetic knob Easy control of all functions with
- bicoloured display

Cooking zones

2 flex induction cooking areas 19x21 cm (2200 W, with booster 3700 W), linked together 38x21 cm (3300 W, with booster 3700 W). 1 induction cooking zone ø24 cm (2200 W, with booster 3700 W). 1 induction cooking zone ø18 cm (1800 W, with booster 3100 W). 1 induction cooking zone ø 15 cm (1400 W, with booster 2200 W).

Handling

Twist-Pad control with removable magnetic knob. User friendly control with bicoloured display (white / orange). Cooking zone and cooking area marking. Electronic power control in 17 output levels.

Features

Flex function for rectangular cooking areas Professional cooking function. Cooking sensor function (in use with cooking sensor CA 060 300). Frying sensor function. Booster function for pots. Booster function for pans. Keep warm function. Stopwatch. Cooking timer for up to 99 minutes. Short-term timer. Options menu. Power management. Cooktop-based ventilation control (with suitable hood).

Home network integration for digital services (Home Connect) wireless via WiFi. The use of the Home Connect functionality depends on the Home

Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Safetv

Main switch. Operation indicator. Pot detection. 2-stage residual heat indication. Child lock. Safety shut-off.

Planning notes

Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. The wok pan WP400001 cannot be used with this appliance. Intermediate shelf is recommended. Appliance must be fixed from underneath.

Appliance weight: approx. 18 kg.

Please read additional planning notes on page 188.

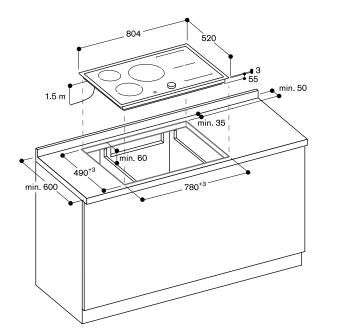

Connection

Total connected load 7.4 kW. Connecting cable 1.5 m without plug. Power consumption standby/display off 0.5 W.

Power consumption standby/network 2.0 W.

Please check the user manual for how to switch off the WiFi module.

Connection

Total connected load 7.4 kW. Connecting cable 1.5 m without plug.

Installation notes for induction cooktops and glass ceramic

Applies to CI 26./27./28./29., CX 492/482, VI 414/422/462/482/492, VI 232/242/262 and CE 261/291.

Intake air ducting

Induction cooktops have a cooling fan to protect the appliance's electronics from overheating. In the case of insufficient air circulation in the cabinet, the appliance's output will be reduced to prevent electronic damage.

A Air duct behind a cabinet or built-in oven An open cross-section of a minimum of 20 mm is needed across the full width and full height of the cabinet. Cabinets with a closed bottom also need a respective cross-section in the air duct area.

B Intake through the cabinet's back wall

In the cabinet's back wall, plan a recess of at least 45 mm in height from the worktop's bottom edge.

The minimum width is

- 300 mm for a 30 cm induction cooktop
- 350 mm for a 40 cm induction cooktop
- 550 mm for a Vario cooktop or a 60 cm to 80 cm induction cooktop
- 820 mm for a 90 cm induction cooktop

To prevent the content of drawers underneath the cooktop from heating up, the use of an intermediate shelf is recommended for glass ceramic cooktops, except for cooktops with 90 cm width.

- Width of cut-out at least100 mm for a 60 to 80 cm induction cooktop
- * does not apply to 90 cm cooktops ** min. 65 mm for cooktops

with frame as well as VI 462/482/492 for surface mounting and min. 70 mm for cooktops without frame, for CX 482/492 with frame as well as for VI 462/482/492 for flush mounting.

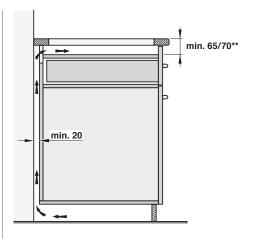

Installation above dishwasher or washing machine is not permitted.

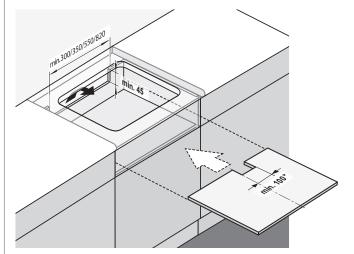

In addition to the measures mentioned above, the following unobstructed cross sections must be planned between the cabinet and the AL 400 to allow for proper intake and exhaust air circulation for the induction cooktop.

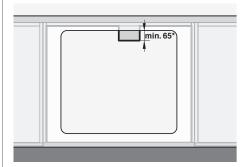

20 mm distance between the back side of drawers, an oven or the cabinet's interior wall.

The resulting gap between the air duct and the cabinet's side wall needs to remain open.

The resulting cross section between the housing and the wall, as well as between the housing and the floor, must remain open.

Intermediate shelf

Combination with other appliances

Combination with AL 400

A In front of the air duct

B Adjacent to the air duct

C At the housing's rear edge

CE 291 101 Frameless Width 90 cm

Included in the price 1 glass scraper

Special accessories

GP 900 003 Stainless steel frying sensor pan Non-stick coating, ø21 cm.

Glass ceramic cooktop 200 series CE 291

- Frameless for flush mounting _
- -Frying sensor function
- Three-ring cooking zone up to 27 cm Large roasting zone
- _
- Sensor control with direct selection of output level

Cooking zones

2 Super-Quick cooking zones ø 18 cm (1800 W); together they convert to 18x41.5 cm (4400 W) roasting zone. 1 Super-Quick cooking zone ø12 cm (750 W), converts to ø 21 cm (2100 W, with booster 2600 W) cooking zone. 1 Super-Quick cooking zone ø14.5 cm (1050 W), converts to ø21 cm (2200 W) or ø 27 cm (3080 W) cooking zone. 1 Super-Quick cooking zone ø14.5 cm (1200 W, with booster 1600 W).

Handling

Sensor control with direct selection of ouput level. Cooking zone marking. Electronic power control in 17 output levels.

Features

Frying sensor function for ø21 cm cooking zone. Booster function. Cooking timer for up to 99 minutes. Short-term timer. Options menu.

Safety

Main switch. Operation indicator. 2-stage residual heat indication. Child lock. Safety shut-off.

Planning notes

Immersion depth 51 mm, depth at plug socket 51 mm.

The cooktop must not be installed lower than the top edge of the worktop. Under the plug socket, a 10 mm clearance must be observed from side panels or from intermediate shelf. The cooktop must be freely accessible from underneath to be able to detach the cooktop's base in a downward direction.

Installation possible in a 60 cm wide lower cabinet.

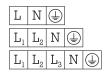

Appliance must be fixed from underneath.

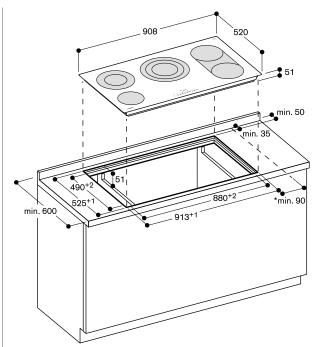

Joint width may vary due to dimensional tolerances of the glass ceramic cooktop and the worktop cut-out. Appliance weight: approx. 13 kg.

Please read additional planning notes on page 188.

Connection

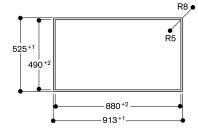

Total connected load 11.1 kW. Plan a connection cable.

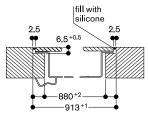

Recessed depth in the vicinity of the electrical connection box, 65 mm. * Minimum distance from the hob cut-out to the wall.

Included in the price

Glass ceramic cooktop 200 series CE 261

- Sturdy stainless steel frame
- Sensor control with direct selection of output level

Cooking zones

1 Super-Quick cooking zone Ø17 cm (1800 W), switches to 17 x 26.5 cm (2600 W) roasting zone. 1 Super-Quick cooking zone Ø14.5 cm (1200 W), converts to Ø21 cm (2100 W, with booster function 3000 W) cooking zone. 1 Super-Quick cooking zone Ø18 cm (2000 W). 1 Super-Quick cooking zone Ø14.5 cm (1200 W).

Handling

Sensor control with direct selection of ouput level. Cooking zone marking. Electronic power control in 17 output levels.

Features

Booster function. Cooking timer for up to 99 minutes. Short-term timer. Options menu.

Safety

Main switch. Operation indicator. 2-stage residual heat indication. Child lock. Safety shut-off.

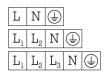

Planning notes

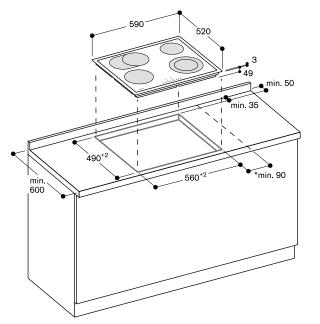

Immersion depth 49 mm, depth at plug socket 50 mm. Under the plug socket, a 10 mm clearance must be observed from side panels or from intermediate shelf. The cooktop must be freely accessible from underneath to be able to detach the cooktop 's base in a downward direction. Installation possible in a 60 cm wide lower cabinet. Appliance must be fixed from underneath. Appliance weight: approx. 8 kg.

Please read additional planning notes on page 188.

Connection

Total connected load 8.3 kW. Plan a connection cable.

Recessed depth in the vicinity of the electrical connection box, 60 mm. * Minimum distance from the hob cut-out to the wall.

Accessories and special accessories for cooktops

GN 232 110

Teppan Yaki plate made of multi ply material, GN 1/1 For full surface induction cooktop.

GN 232 230 Teppan Yaki plate made of multi ply material, GN 2/3 For full surface induction cooktop.

CA 051 300

Teppan Yaki plate made of multi ply material For flex induction cooktops.

CA 052 300

Griddle plate in cast aluminium Non-stick. For flex induction cooktops.

GP 900 001

Stainless steel frying sensor pan Non-stick coating, ø 15 cm. GP 900 002 Stainless steel frying sensor pan Non-stick coating, ø 19 cm. GP 900 003

Stainless steel frying sensor pan Non-stick coating, ø 21 cm. GP 900 004

Stainless steel frying sensor pan Non-stick coating, ø 28 cm.

WP 400 001

Wok pan made of multiple-layer material With round bottom and handle, ø 36 cm, 6 litres, height 10 cm.

WZ 400 001 Wok attachment for wok pan

CA 060 300 Cooking sensor for temperature regulation within pots.

CA 230 100

Black magnetic knob for induction cooktop 200 series. Stainless steel knob with black coating.

CA 429 410

Frame set including decorative frame (to be welded in) and holding frame

VA 420 000

Connection strip for combination with other Vario appliances of the 400 series for flush mounting

VA 420 001

Connection strip for combination with other Vario appliances of the 400 series for flush mounting with appliance cover/filler strip

VA 420 010

Connection strip for combination with other Vario appliances of the 400 series for surface mounting

VA 420 011

Connection strip for combination with other Vario appliances of the 400 series for surface mounting with appliance cover/filler strip

VA 450 800

Stainless steel filler strip 80 cm Necessary accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.

VA 450 900

Stainless steel filler strip 90 cm Necessary accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.

AC 402 181

Stainless steel Filter module Air extraction / Air recirculation Motorless

Installation accessories AD 754 048

Air collector box DN 150 round pipe Metal zinc plated 2 x DN 150 round duct air intake. 1 x DN 150 cylindrical duct air outlet.

AD 854 048

Air collector box DN 150 flat duct Metal zinc plated with plastic 2 x DN 150 flat duct air intake. 1 x DN 150 flat duct air outlet.

Special accessories

Air recirculation module inclusive 1 activated charcoal filter. For air recirculation. Stainless steel.

AA 012 811

Air recirculation module inclusive 1 activated charcoal filter. For air recirculation. White.

AA 200 110

1 activated charcoal filter with high efficient odour reduction due to increased surface. For air recirculation module

AA 200 812/816 and AA 010 811/ AA 012 811.

AA 200 112

1 regenerable activated charcoal filter For air recirculation module AA 200 812/816 and AA 010 811/ AA 012 811.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285. Vario ceiling ventilation 400 series AC 402

- Discreet integration into the architecture of the kitchen
- Flexible by dimension, performance and ventilation mode
- Room ventilation
 Modular ceiling ventilation
- Modular ceiling ventilation which can be configurated individually by separate components such as filter module, control modules and light module
- Motorless, can be combined with Gaggenau BLDC remote fan units
 Highly efficient patented rim
- extraction - Planed and easy to clean underside
- with covered filters

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

Rim extraction filter, dishwasher-safe. Installation frame for thread rods (threaded rods included in delivery). Connecting pipe DN 150 round.

Consumption data

Consumption data is referred to a configuration with the remote fan unit AR 400 142. Energy efficiency class B at a range of energy efficiency classes from A++ to E. Energy consumption 52.5 kWh/year. Ventilation efficiency class A. Ilumination efficiency class E. Grease filter efficiency class B. Sound level min. 50 dB / max. 65 dB normal mode.

Planning notes

The ceiling ventilation has to be handled as a room ventilation when distance to cooktop is larger than 120 cm since the direct capture of vapours will be limited. The needed airflow is given by an air exchange rate of 10 to 12 times the room volume. Please refer to page 206 - 207 for recommended configurations of ceiling ventilations and remote fan units and the resulting dimensions. Refer to the table on page 286 for the matching remote fan units for air recirculation or air extraction mode. For air recirculation an external filter module is required. Max. 3 filter modules to be connected to remote fan unit AR 400 142. When installing remote fan unit within the ceiling or furniture block it must remain accessible through the ceiling cutout or another maintenance access. Please ensure when installing the exhaust air ducting that no sharp bends are caused and that the cross-section of the ducting is not constricted in any way. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the hood's power supply line needs a suitable safety switch.

AC 482 181

Stainless steel Control module with light AC 462 181 Stainless steel

Control module without light

Special accessories AA 400 510 Window contact switch Can be combined with motorless appliances 400 series. Vario ceiling ventilation 400 series AC 482/AC 462

- Control module of ceiling ventilation with light
- Individual integration of light elements into the configuration of the ceiling ventilation

Output

Power levels depend on the remote fan unit, see table on page 294 – 295.

Features

7-key infrared remote control, backup keys for operation also on the control module. 3 electronically controlled power levels and 1 intensive mode. Interval ventilation, 6 min. Run-on function, 6 min. Grease filter saturation indicator.

Planning notes

Connection to the respective appliances via network cable. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch. Fixing at the filter module.

Connection

Total connected load 355 – 1160 W. Connecting cable 1.75 m, pluggable. AC 472 181

Stainless steel

For completing control module with

Light module

light

- Light module of ceiling ventilation Individual integration of light elements into the configuration of the ceiling ventilation

Features

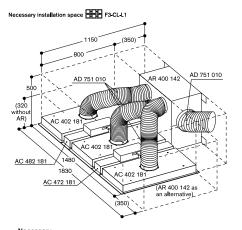

Connection to the respective appliances via network cable.

Planning notes

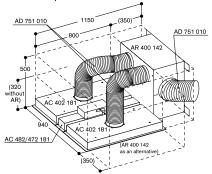

Please refer to page 206 - 207 for recommended configurations of ceiling ventilations and remote fan units and the resulting dimensions. Fixing at the filter module.

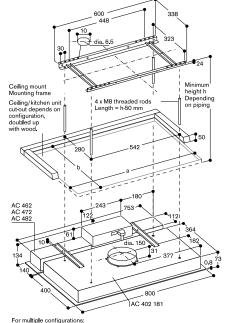

Connection

Total connected load 50 W. Connecting cable 1.75 m, pluggable. Network cable 2 m.

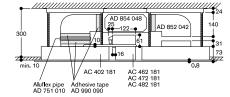

Necessary installation space F2-CL

For multiple configurations: Gelling deflection around cutout: max + 3 mm. Support is required in the middle to prevent deflection upwards when fastening the modules. The required threaded rods, nuts and celling bolts are supplied as standard.

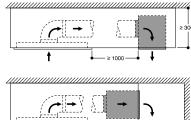

Minimum installation height including flat duct DN 150

Special accessories

AA 400 510 Window contact switch Can be combined with motorless

appliances 400 series.

Installation accessories for the air recirculation ducts you will find at the pages 272 - 285.

Table ventilation 400 series AL 400

- Extendable table ventilation, when _ not in use can be completely lowered into the worktop
- Can be combined perfectly with other Vario appliances of the
- 400 series Dimmable, neutral white surface
- LED light for ideal illumination of the whole cooktop Precision crafted 3 mm stainless
- steel
- For surface mounting with a visible edge or for flush mounting
- Motorless, can be combined with Gaggenau BLDC remote fan units

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

3 electronically controlled power levels and 1 intensive mode. Interval ventilation, 6 min. Run-on function 6 min. Grease filter saturation indicator. Cartridge-type filter, dishwasher-safe. Neutral white surface LED light (3600 K), continuously dimmable. Lamp output 4x5W Illuminance 191 lx. Spare covers for closing air outlets. No connecting piece included.

Consumption data

Consumption data is referred to a configuration AL 400 121/AL 400 191 with the remote fan unit AR 400 142. Energy efficiency class A+/A at a range of energy efficiency classes from A++ to E. Energy consumption 45.1/49 kWh/year. Ventilation efficiency class A/A. Ilumination efficiency class E/E. Grease filter efficiency class C/C. Sound level min. 44/45 dB / max. 59/61 dB normal mode.

Planning notes

Refer to the table on page 288 for the matching remote fan units for air recirculation or air extraction mode. Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor. Connection to the respective appliances via network cable. AL 400 121 (AL 400 191) For operation with 4 (3) Vario 200 series cooktops, 3 (2) Vario 400 series cooktops or a cooktop configuration of up to 120 cm (92 cm) wide. Operation of Vario cooking appliances only possible without appliance cover. Max. output of cooktops 18 kW. In combination with the cooktop CI 290, installation in 60 cm deep worktops is possible. Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight

sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The remaining surface of the worktop (min. 50 mm) between the cut-outs must be reinforced with a support. It is recommended to use furniture support AA 409 401/431.

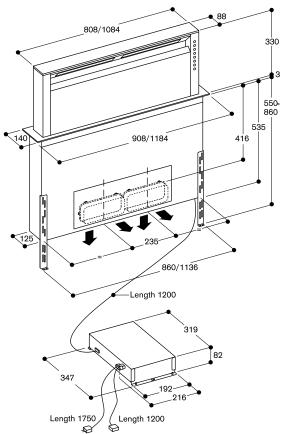

Ovens that do not exceed the maximum allowed cabinet temperature can be combined with the table ventilation if built-in situation permits.

To avoid smoke when frying/grilling refer to the manuals of VR/VP. When installing a ventilation hood with air extraction mode and a chimney vented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Please read additional planning notes on page 210 - 212.

Connection

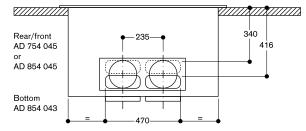

Total connected load 65/65 W Connecting cable 1.7 m, pluggable. Network cable 1.2 m.

Extractors

Good to know - for correct planning and installation

- The ducting can essentially be connected to the front, rear or below with the AL 400 table ventilation. The respective connecting pieces are available for this purpose.
- Plastic ducts can be used for installation behind a gas appliance. The maximum permitted performance of the cooktops is 18 kW.
- We recommend ducts with DN 150 for optimal air circulation.
- 2 flat ducts and 2 round ducts must be connected using a pipe connector.
- 2 bends (e.g. 90° horizontal with 90° vertical) require one flat duct pipe for connection, which can be shortened to the required length by cutting.
- It is equally important to ensure proper sealing of the ducting to avoid air leakages, for example with adhesive tape AD 990 090 (UV and heat resistant).
- If the AL 400 121 is installed in air recirculation mode and intensive cooking (e.g. Vario Teppan Yaki) is involved, we recommend to use a second remote fan unit AR 413 122 to support the vapour catch behaviour, see planning example 6.
- Vario cooktops with intensive vapour formation like Vario Teppan Yaki or Vario electric grill should be placed central in front of the ventilation appliance; in case of Vario electric grill air recirculation is not recommended.
- Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor.

Planning example 1

1 x AL 400 with AR 403 122 (air extraction) / AR 413 122 (air recirculation)

Connection to the front with flat duct or aluflex pipe, DN 150; cabinet installation

Combination

1 x AL 400 table ventilation combined with 1 x AR 403 122 / AR 413 122 remote fan unit

Good to know

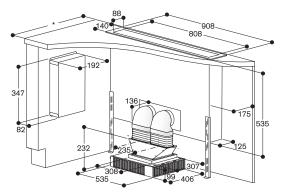

- The air collector box can be screwed directly to the remote fan unit. The reducing piece supplied is not needed in this case.
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm² for each remote fan unit).

List of accessories 1

- 1 x AD 754 045 (connection pieces for round duct, 2 x DN 150)
- 2 x AD 852 042 (Flat duct adapter round 90°)
- 1 x AD 704 049 (Air collector box DN 150 flat duct)
- 1 x AD 853 010 (Flat duct system flex pipe)
- 1 x AD 990 090 (adhesive tape for bonding the ducts)

* All cooktops with cut-out depth 492: min. 750

Planning example 2

1 x AL 400 with AR 400 142

Connection to the front with flat or aluflex pipe, DN 150; cabinet installation

Combination

1 x AL 400 table ventilation combined with 1 x AR 400 142 remote fan unit

Good to know

- The remote fan unit can be connected alternately to the front or rear.
- Depending on the ducting type selected, connecting pieces are available for flat ducts or round ducts.
- A round duct or aluflex pipe is required additionally in configuration 1 depending on the cabinet height.

List of accessories 1

- 1 x AD 854 045 (connecting pieces for flat duct, 2 x DN 150)
- 2 x AD 852 042 (flat duct transition round 90°)
- If necessary 1 x AD 752 010 (round duct, DN 150), depending on cabinet height
- 1 x AD 990 090 (adhesive tape for bonding the ducts)

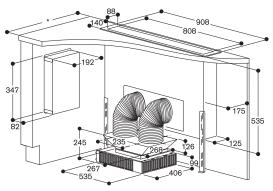

Order as set (appliances and accessories) Width 90 cm: SET1AL4401 Width 120 cm: SET2AL4401

List of accessories 2

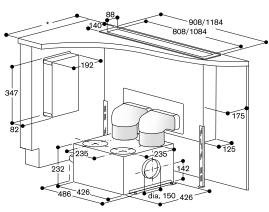

- 1 x AD 754 045 (connecting pieces for round duct, 2 x DN 150)
- 2 x AD 751 010 (aluflex pipe round, DN 150)
- 1 x AD 704 048 (air collector box for AL 400)

Order as set (appliances and accessories)

Width 90 cm: SET1AL4102 (air recirculation), SET1AL4202 (air extraction) Width 120 cm: SET2AL4202 (air extraction)

Planning example 3

1 x AL 400 with AR 403 122 (air extraction) / AR 413 122 (air recirculation) Connection downward with flex duct, DN 150, cabinet installation

Combination

1 AL 400 table ventilation combined with 1 x AR 403 122 / AR 413 122 remote fan unit

Good to know

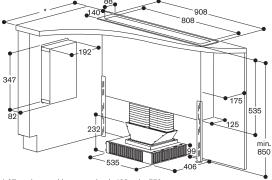

- The air collector box can be screwed directly on the remote fan unit. The reducing piece supplied is not needed in this case.
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm² for each remote fan unit).

List of accessories 1

- 1 x AD 854 043 (connecting pieces for flat duct downward, 2 x DN 150)
- 1 x AD 704 049 (air collector box for AL 400)
- 1 x AD 853 010 (Flat duct Flexduct, DN 150)
- 1 x AD 990 090 (Adhesive tape for bonding the ducts)

Order as set (appliances and accessories)

Width 90 cm: SET1AL4103 (air recirculation), SET1AL4203 (air extraction) Width 120 cm: SET2AL4203 (air extraction)

* All cooktops with cut-out depth 492: min. 750

Planning example 4

1 x AL 400 with AR 400 142 Connection downward with flat and round duct, DN 150; cellar installation

Combination

1 x AL 400 table ventilation combined with 1 x AR 400 142 remote fan unit

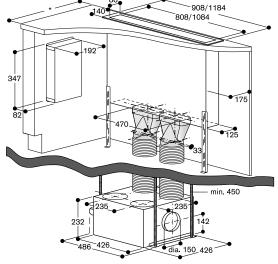

Good to know

- The AR 400 142 remote fan unit can also be installed in an adjoining room, for example a cellar, as an alternative to cabinet installation
- Suitable threaded rods or suspension elements must be used for this configuration on the customer side; these can be attached to the retaining brackets, which are included ex works with the remote fan unit.

List of accessories 1

- 1 x AD 854 043 (connecting pieces for flat duct downward, 2 x DN 150)
- 2 x AD 852 041 (flat duct transition round)
- 2 x AD 751 010 (aluflex pipe round, DN 150)
- 1 x AD 990 090 (adhesive tape for bonding the ducts)
- 4 x threaded rods or suspension elements

Order as set (appliances and accessories) Width 90 cm: SET1AL4403 Width 120 cm: SET2AL4403

* All cooktops with cut-out depth 492: min. 750

Planning example 5

1 x AL 400 with AR 401 142

Connection downward with flat and round duct, DN 150; installation on outside wall

Combination

1 x AL 400 table ventilation combined with 1 x AR 401 142 remote fan unit

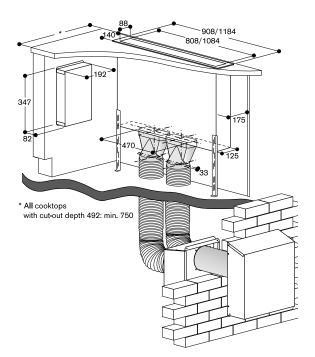

Good to know

- The AR 401 142 remote fan unit for installation on the outside wall is the ideal solution for compact air extraction.
- The ducting can be directed to outside via the cellar in this case. A minimum distance must simply be maintained for the air exhaust downwards on the AR 401 142 (100 cm). Distance ground to central line of the pipe: 60 cm.
- Local building regulations must be observed for the cellar breakout (especially with respect to the topic of fire safety).
- The ducting can of course also be implemented in the plinth area of the kitchen cabinets.

List of accessories 1

- 1 x AD 854 043 (connecting pieces for flat duct downwards, 2 x DN 150)
- 2 x AD 852 041 (flat duct transition round 90°)
- 2 x AD 751 010 (aluflex pipe round, DN 150); possibly additional ducts depending on the exhaust air ducting (aluflex or Naber round duct, DN 150)
- 1 x AD 704 048 (air collector box for AL 400)
- 1 x AD 702 052 (telescopic wall duct, DN 200)

Order as set (appliances and accessories) Width 90 cm: SET1AL4801 Width 120 cm: SET2AL4801

Planning example 6

1 x AL 400 121 with 2 x AR 413 122 Connection to the front with flat duct

Combination

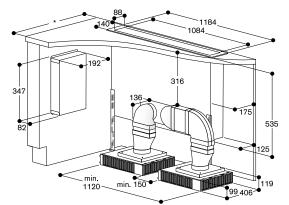

1 AL 400 121 table ventilation combined with 2 x AR 413 122 remote fan unit

- Good to know - If the AL 400 121 is installed in air recirculation mode and intensive cooking (e.g. Vario Teppan Yaki) is involved, we recommend to use a second remote fan unit AR 413 122 to support the vapour catch behaviour
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm² for each remote fan unit).

List of accessories 1

- 1 x AD 754 045 (connection pieces for round duct, 2 x DN 150)
- 2 x AD 852 042 (flat duct adapter round 90 $^\circ$)
- 1 x AD 852 010 (flat duct)
- 1 x AD 852 031 (flat duct bend 90° horizontal)
- 2 x AD 852 041 (flat duct adapter round, DN 150)
- 1 x AD 990 090 (adhesive tape for bonding the ducts)

Order as set (appliances and accessories) Width 120 cm: SET2AL4105 (air recirculation)

* All cooktops with cut-out depth 492: min. 750

Special accessories

AA 414 010 Ventilation moulding for VL414 next to

gas appliance.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285. Vario downdraft ventilation 400 series VL 414

- Highly efficient ventilation system at the cooktop
- Flexible power distribution, precise extraction of cooking vapours only at the open ventilation elements
- Can be combined perfectly with other Vario appliances of the
- 400 series - Precision crafted 3 mm stainless
- steel - For surface mounting with a visible
- doi surface mounting with a visible edge or for flush mounting
 Motorless, can be combined with
- Gaggenau BLDC remote fan units

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

Manual opening of the ventilation element. Closing element made of stainless steel, dishwasher-safe. Metal grease filter, dishwasher-safe. No connecting piece included.

Consumption data

Consumption data is referred to a configuration with the remote fan unit AR 403 122. Energy efficiency class A+ at a range of energy efficiency classes from A++ to E. Energy consumption 42.7 kWh/year. Ventilation efficiency class A. Ilumination efficiency class C. Sound level min. 56 dB / max. 68 dB normal mode.

Planning notes

Refer to the table on page 289 for the matching remote fan units for air recirculation or air extraction mode. Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor. For each VL one remote fan unit is recommended.

Maximum cooktop width between two VL: 60 cm.

Appliance can be snapped into the worktop from above. Additional fixing by clamps accessible from bottom up, clamping range 30-50 mm. If installing with the appliance cover VA 440 or filler strip VA 450 take into account the additional space required

for the depth. If combining several appliances with at least one appliance cover, the filler strip VA 450 is required to compensate for the depth of the appliance without

the appliance cover. If combining several Vario appliances of the 400 series, a connection strip VA 420 must be placed between the appliances. Depending on the type of installation, the corresponding connection strip must be provided. In the cut-out, the installation system requires the side edge to be at least 10 mm for surface mounting and at least 13 mm for flush mounting. Ensure a continuous cut surface of 90°. The bearing capacity and stability, in the case of thin worktops in particular. must be supported using suitable substructures.

Take into account the appliance weight and additional loads. Additional instructions for flush mounting:

Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. The joint width may vary due to size

tolerances of the combinations and of the worktop cut-out.

If installing several appliances in individual cut-outs allow for a division bar of minimum 50 mm between the individual cut-outs.

If operated next to gas appliances, the ventilation moulding AA414010 is recommended to ensure maximum

performance of the cooktop. If installed next to gas appliances, flat ducts must not be used for the piping

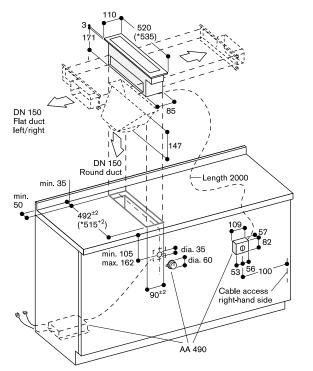

up to the fan unit. If installed next to VP 414, the flat duct must not be positioned underneath the VP 414.

Please read the installation details regarding air ducting on page 118 – 123.

Please read additional planning notes on page 218 – 221.

Connection

Connection cable 2.0 m between ventilation element VL414 and control knob AA490.

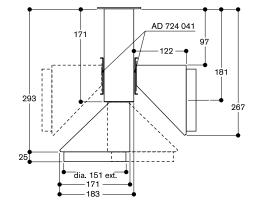

* with filler strip

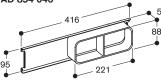

Flat duct pipe connection piece, left/right DN 150 with AD 854 046 Round duct pipe connection piece, bottom DN 150 with AD 724 042 Round duct pipe connection piece, left/right DN 150 with AD 724 042 + AD 724 041

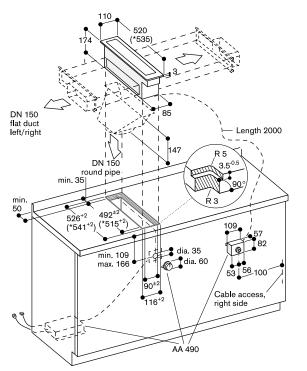

See separate planning notes for - Positioning of control knob - Configuration for flexible power distribution

VL 414 with AD 724 042/041

AD 854 046

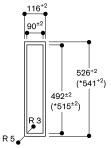

* with filler strip

Flat duct pipe connection piece, left/right DN 150 with AD 854 046 Round duct pipe connection piece, bottom DN 150 with AD 724 042 Round duct pipe connection piece, left/right DN 150 with AD 724 042 + AD 724 041

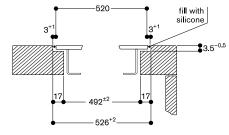

See separate planning notes for - Positioning of control knob - Configuration for flexible power distribution

View from above

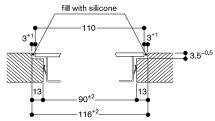

* with filler strip

Cross-section

When installing with appliance cover or filler strip, pay attention to the deeper cut-out and the front and rear groove width.

Longitudinal section

AA 490 111 Stainless steel

Special accessories

AA 400 510 Window contact switch Can be combined with motorless appliances 400 series. Vario control knob ventilation 400 series AA 490

- Solid stainless steel control knob
- Can be combined perfectly with other Vario appliances of the
 - 400 series Motorless, can be combined with
 - Gaggenau BLDC remote fan units

Handling

_

Control knob with illuminated ring and output marking.

Features

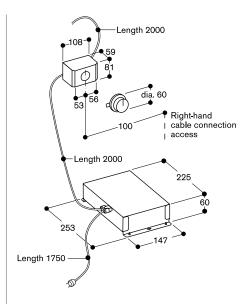

3 electronically controlled power levels and 1 intensive mode. Run-on function, 6 min.

Planning notes

The separate electronics housing is to be installed so that it is accessible. Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Connection

Total connected load 10 W. Connecting cable 1.8 m, pluggable.

Good to know - for correct planning and installation

- For depth measurements, take account of the depth of the furniture cavity and worktop overhangs of the kitchen furniture.
- With the Vario downdraft ventilation, the ducting can be connected on the right, left or downwards.
- If the system is installed next to a gas appliance, ducts made of plastic (e.g. the flat duct system) must not be used, because of heat generation. In such cases, we recommend the use of aluflex pipes of the downdraft ventilation, directed downwards (accessory AD 724 042).
- Please note that flat ducts cannot be installed on the right or left of the following appliances due to their depth: Vario Teppan Yaki, Vario electric grill, Vario deep fryer, Vario steamer. For these, we recommend connection either to the other side or in a downward direction.
- For optimum air circulation, we recommend ducts with DN 150.
- 2 flat or 2 round ducts must be connected with a pipe connector.
- To connect 2 duct bends together (e.g. a 90° horizontal duct bend and a 90° vertical duct bend), a piece of flat duct is required, which can be shortened to the required length by cutting it to size.
- It is also important that ducting is well sealed in order to prevent air leaks, e.g. by using the adhesive tape AD 990 090 (UV- and heat-resistant).
- Vario cooktops with intensive vapour formation like Vario Teppan Yaki or Vario electric grill should be placed centrally in the cooktop configuration. In case of Vario electric grill air recirculation is not recommended.
- Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor.

Planning example 1

1 x VL 414 with AR 400 142 (Air extraction)

Flat duct with 2 x 90° duct bends or flat duct with 1 x 90° duct bend

Combination

1 x downdraft ventilation VL 414 in combination with 1 x AR 400 142 remote fan unit

Good to know

Connecting to the AR 400 remote fan unit is possible at all four air intakes.

List of accessories 1

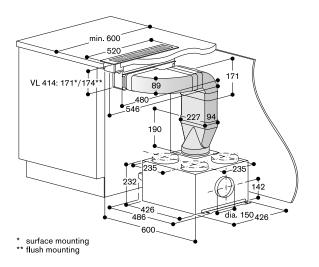

- 1 x AD 854 046 (connecting piece for VL 414, DN 150)
- 1 x AD 852 031 (flat duct with horizontal 90° duct bend)
- 1 x AD 852 030 (flat duct with vertical 90° duct bend)
- 1 x AD 852 010 (flat duct)
- 1 x AD 852 041 (flat duct adapter round)
- 1 x AA 490 111 (Vario control knob)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

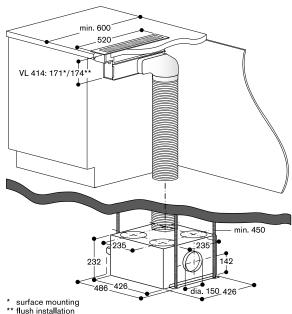

Order as set (appliances and accessories): SET1VL4401.

List of accessories 2

- 1 x AD 854 046 (connecting piece for VL 414, DN 150)
- 1 x AD 852 042 (flat duct adapter round 90°)
- 1 x AD 751 010 (aluflex pipe, DN 150)
- 1 x AA 490 111 (Vario control knob)
- 1 x AD 990 090 (adhesive tape for bonding the ducts)

Order as set (appliances and accessories): SET1VL4403 (air extraction).

Planning example 2

1 x VL 414 with AR 413 122 (Air recirculation)

Flat duct with 2 x 90° duct bends or flat duct with 1 x 90° duct bend

Combination

1 x downdraft ventilation in combination with 1 x AR 413 122 remote fan unit.

Good to know

- The remote fan unit can be turned in all directions, depending on the desired direction for the exhaust air or filter removal.
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm²). For this, we recommend the air exhaust grille AA 010 410.
- The connecting piece DN 150 is included with the remote fan unit.
- The recommended minimum distance between filter openings and cupboard wall if there is no ventilation grille directly in front: 15 cm.

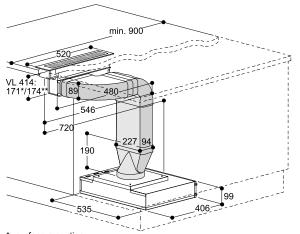

List of accessories 1

- 1 x AD 854 046 (connecting piece for VL 414, DN 150)
- 1 x AD 852 031 (flat duct with horizontal 90° duct bend)
- 1 x AD 852 030 (flat duct with vertical 90° duct bend)
- 1 x AD 852 010 (flat duct)
- 1 x AD 852 041 (flat duct adapter round)
- 1 x AA 490 111 (Vario control knob)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

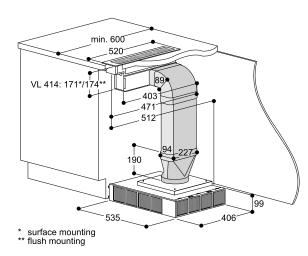

Order as set (appliances and accessories): SET1VL4101.

List of accessories 2

- 1 x AD 854 046 (connecting piece for VL 414, DN 150)
- 1 x AD 852 030 (flat duct with vertical 90° duct bend)
- 1 x AD 852 010 (flat duct)
- 1 x AD 852 041 (flat duct adapter round)
- 1 x AA 490 111 (Vario control knob)1 x AD 990 090 (adhesive tape for sealing the ducts)
- Order as set (appliances and accessories): SET1VL4102.

* surface mounting ** flush mounting

Recommended configurations of the Vario downdraft ventilation 400 series and remote fan units 400 series

Planning example 3

1 x VL 414 with AR 403 122 (Air extraction)

Flat duct with $2 \times 90^{\circ}$ duct bends or flat duct with $1 \times 90^{\circ}$ duct bend

Combination

1 x downdraft ventilation in combination with 1 x AR 403 122 remote fan unit

Good to know

The connecting piece DN 150 is included with the remote fan unit.

List of accessories 1

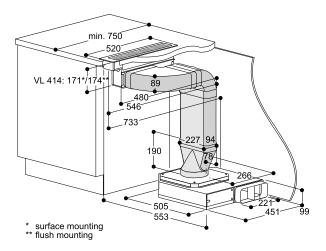

- 1 x AD 854 046 (connecting piece for VL 414, DN 150)
- 1 x AD 852 031 (flat duct with horizontal 90° duct bend)
- 1 x AD 852 030 (flat duct with vertical 90° duct bend)
- 1 x AD 852 010 (flat duct)
- 1 x AD 852 041 (flat duct adapter round)
- 1 x AA 490 111 (Vario control knob)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

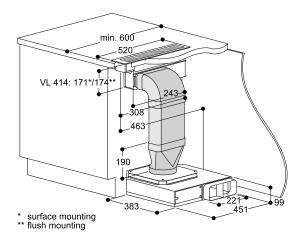

Order as set (appliances and accessories): SET1VL4201.

List of accessories 2

- 1 x AD 854 046 (connecting piece for VL 414, DN 150)
- 1 x AD 852 030 (flat duct with vertical 90° duct bend)
- 1 x AD 852 010 (flat duct)
- 1 x AD 852 041 (flat duct adapter round)
- 1 x AA 490 111 (Vario control knob)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Order as set (appliances and accessories): SET1VL4202.

Planning example 4

1 x VL with AR 410 110 (Air recirculation)

Flat duct with 2 x 90° bends

Combination

1 x downdraft ventilation in combination with 1 x AR 410 110 remote fan unit

Good to know

The charcoal filter exchange is possible from both sides.

- Allow accessibility to the charcoal filters in the lower cabinet for replacing the filter. It is possible to position the remote fan unit direct on the floor or fix it with the retaining
- brackets with a cut-out in the furniture base. For configuration 2 is depending on the depth of the island a second flat duct AD 852 010 needed.

For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm²).

List of accessories 1

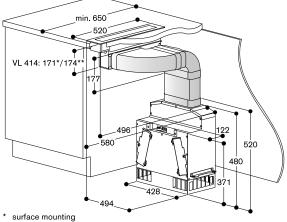

- 1 x AD 854 046 (connecting piece for VL 414, DN150)
- 1 x AD 852 031 (flat duct with horizontal 90° duct bend)
- 1 x AD 852 030 (flat duct with vertical 90° duct bend)
- 1 x AD 852 010 (flat duct)
- 1 x AD 852 040 (flat duct connecting piece)
- 1 x AA 490 111 (Vario control knob)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Order as set (appliances and accessories): SET1VL4103.

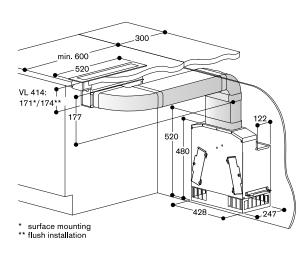

List of accessories 2

- 1 x AD 854 046 (connecting piece for VL 414, DN150)
- 1 x AD 852 031 (flat duct with horizontal 90° duct bend)
- 1 x AD 852 030 (flat duct with vertical 90 $^{\circ}$ duct bend)
- 1 x AD 852 010 (flat duct)1 x AD 852 040 (flat duct connecting piece)
- 1 x AA 490 111 (Vario control knob)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Order as set (appliances and accessories): SET1VL4103.

Washing machine

CVL 420 100

For flush mounting Width 87.7 cm Air extraction / Air recirculation Delivery without motor and without ducting

Consists of:

Flex Induction cooktop 400 series CI 422 101 Flex induction cooktop 400 series CI 422 101 Downdraft ventilation 400 series VL 410 111 Vario control knob ventilation 400 series AA 490 111 2 Connection strips for combination within SETs 2x VA 422 000

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Flex induction cooktop with downdraft ventilation 400 series CVL 420

- For flush mounting
- Flex function for combining the rectangular cooking areas
- Free positioning of cookware inside combined cooking areas
- Solid stainless steel control knobEasy control of cooktop functions
- with bicoloured displayHighly efficient ventilation system at the cooktop
- Motorless, can be combined with
- Gaggenau BLDC remote fan units - Air extraction or air recirculation system

Cooking zones

2 flex induction cooking areas 19x24 cm (2200 W, with booster 3700 W), linked together 38x24 cm (3300 W, with booster 3700 W). 2 flex induction cooking areas 19x24 cm (2200 W, with booster 3700 W), linked together 38x24 cm (3300 W, with booster 3700 W).

Performance of ventilation system

Power levels depend on the remote fan unit, see table on page 294 – 295.

Handling

Control knobs with illuminated ring, cooking zone and output level markings. Electronic power control of the cooking zone in 12 output levels. User friendly control of cooktop functions with bicoloured display (white / orange). Control of ventilation system with 3 electronically controlled power levels and 1 intensive mode.

Features

Flex function for rectangular cooking areas. Frying sensor function. Booster function. Stopwatch. Short-term timer. Options menu. Run-on function, 6 min. Manual opening of the ventilation element. Closing element made of stainless steel, dishwasher-safe. Metal grease filter, dishwasher-safe.

Consumption data of downdraft ventilation

Consumption data is referred to a configuration with the remote fan unit AR 403 122. Energy efficiency class A+ at a range of energy efficiency classes from A++ to E. Energy consumption 42.7 kWh/year. Ventilation efficiency class A. Ilumination efficiency class -. Grease filter efficiency class C. Sound level min. 56 dB / max. 68 dB normal mode.

Safety

Operation indicator. Pot detection. Individual residual heat indicators. Safety shut-off.

Planning notes

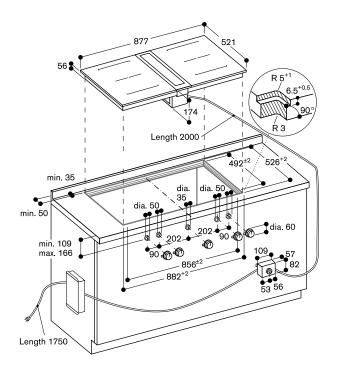

Refer to the table on page 290 for the matching remote fan units for air recirculation or air extraction mode. When installing a ventilation hood with air extraction mode and a chimney-vented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch. The horizontal positioning of the knobs may be aligned with the specific cooking areas and downdraft ventilation. The drawing "Installation of the control knob" must be observed if the panel is

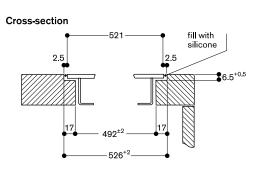

more than 23 mm thick (there must be a recess at the rear). In the cut-out, the installation system requires the side edge to be at least 13 mm for flush mounting. Ensure a continuous cut surface of 90° The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. Joint width may vary due to dimensional tolerances of the glass ceramic cooktop and the worktop cut-out. Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. Immersion depth 174 mm. Appliance can be snapped into the worktop from above.

Please read the installation details regarding air ducting on page 226 – 227.

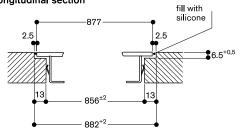

Connection

Total connected load 7.41 kW (2 x 3.7 kW cooktops and 0.01 kW control knob ventilation). Connecting cable cooktops 1.5 m without plug. Connecting cable downdraft ventilation 1.8 m, pluggable. Connection cable 2.0 m between ventilation element VL 410 and control knob AA 490

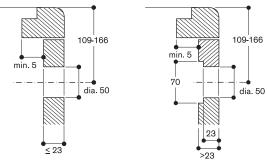

Longitudinal section

Longitudinal section

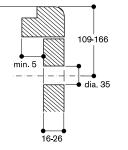

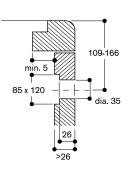

View from above

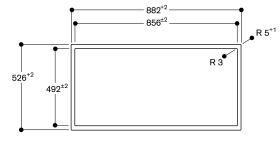

VL 410 downdraft ventilation

Good to know - for correct planning and installation

- For depth measurements, take account of the depth of the furniture cavity and worktop overhangs of the kitchen furniture.
- With the Vario downdraft ventilation, the ducting can be connected on the right, left or downwards
- For optimum air circulation, we recommend ducts with DN 150.
- 2 flat or 2 round ducts must be connected with a pipe connector.
- To connect 2 duct bends together (e.g. a 90° horizontal duct bend and a 90° vertical duct bend), a piece of flat duct is required, which can be shortened to the required length by cutting it to size.
- It is also important that ducting is well sealed in order to prevent air leaks, e.g. by using the adhesive tape for sealing the ducts AD 990 090 (UV- and heat-resistant).
- The flex induction cooktop with downdraft ventilation is not part of the SET.
- For further planning examples for the flex induction cooktop with downdraft ventilation refer to the planning examples of VL 414 (page 218 221).
- Secure the control unit to the side panel of the cabinet, not to the base of the cabinet or the kitchen floor.

Planning example 1 (air extraction) Configuration for CVL 410/420 with AR 403 122 (air extraction), min. 60 cm worktop depth

Combination

Flex induction cooktop with downdraft ventilation in combination with AR 403 122 remote fan unit (air extraction).

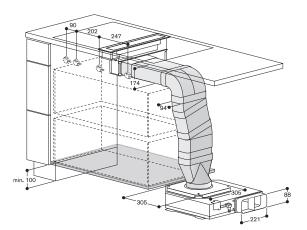

Good to know

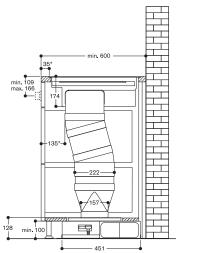

- Full drawers can be installed beneath the flex induction cooktop with downdraft ventilation 400 series.
- The connection piece DN 150 is included with the remote fan unit.

List of components

- 1 x AR 403 122 (remote fan unit plinth 400 series)
- 1 x AD 854 046 (connection piece for VL, 150)
- 2 x AD 852 040 (flat duct connecting piece 150)
- 1 x AD 852 030 (flat duct 90 vertical 150)
- 2 x AD 852 032 (flat duct 15° horizontal 150)
- 1 x AD 852 010 (flat duct 150)
- 1 x AD 852 041 (flat duct adapter round 150)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Order as set (remote fan unit and accessories): SET1ADAR40.

* Recommended measurement, can be adjusted.

Planning example 2 (air extraction) Configuration for CVL 410/420 with AR 403 122 (air extraction), min. 71cm worktop depth

Combination

Flex induction cooktop with downdraft ventilation in combination with AR 403 122 remote fan unit (air extraction).

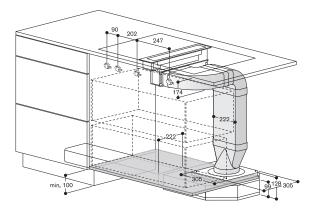

Good to know

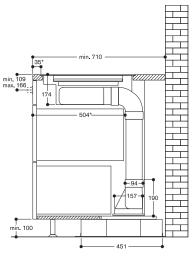

- Short drawers can be installed beneath the flex induction cooktop with downdraft ventilation 400 series.
- The connection piece DN 150 is included with the remote fan unit.

List of components

- 1 x AR 403 122 (remote fan unit plinth 400 series)
- 1 x AD 854 046 (connection piece for VL, 150)
- 1 x AD 852 031 (flat duct 90 horizontal 150)
- 1 x AD 852 010 (flat duct 150)
- 1 x AD 852 030 (flat duct 90 vertical 150)
- 1 x AD 852 041 (flat duct adapter round 150)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Order as set (remote fan unit and accessories): SET2ADAR40.

* Recommended measurement, can be adjusted.

min. 68 cm worktop depth

Combination

Flex induction cooktop with downdraft ventilation in combination with AR 413 122 remote fan unit (air recirculation).

Good to know

- Short drawers can be installed beneath the flex induction cooktop with downdraft ventilation 400 series.
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm²).
- Installation w/o ventilation grille possible. The recommended minimum distance between filter openings and cupboard wall if there is no ventilation grille directly in front: 15 cm.
- Filter can be changed from front.
- The connection piece DN 150 is included with the remote fan unit.

List of components

- 1 x AR 413 122 (femote fan unit plinth 400 series)
- 1 x AD 854 046 (connection piece for VL, 150)
- 1 x AD 852 031 (flat duct 90 horizontal 150)
- 1 x AD 852 010 (flat duct 150)
- 1 x AD 852 030 (flat duct 90 vertical 150)
- 1 x AD 852 041 (flat duct adapter round 150)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Order as set (remote fan unit and accessories): SET1ADAR41.

Planning example 2 (air recirculation)

Configuration for CVL 410/420 with AR 413 122 (air recirculation), min. 90 cm worktop depth

Combination

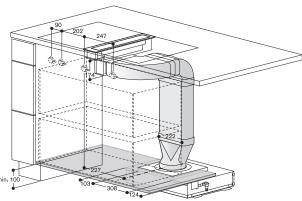

Flex induction cooktop with downdraft ventilation in combination with AR 413 122 remote fan unit (air recirculation).

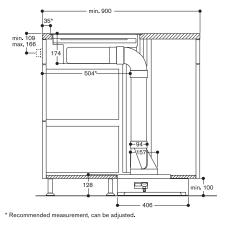

Good to know

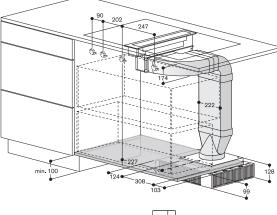

- Short drawers can be installed beneath the flex induction cooktop with downdraft ventilation 400 series
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm²).
- The ventilation grille is situated at the rear. The recommended minimum distance between filter openings and cupboard wall if there is no ventilation grille directly in front: 15 cm.
- Filter can be changed from rear.
- The connection piece DN 150 is included with the remote fan unit.

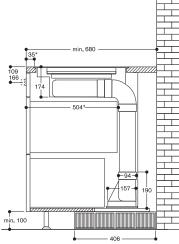

List of components

- 1 x AR 413 122 (remote fan unit plinth 400 series)
- 1 x AD 854 046 (connection piece for VL, 150)
- 1 x AD 852 031 (flat duct 90 horizontal 150)
- 1 x AD 852 010 (flat duct 150)
- 1 x AD 852 030 (flat duct 90 vertical 150)
- 1 x AD 852 041 (flat duct adapter round 150)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Ceiling collar for chimneys Stainless steel

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Island hood 400 series AI 442

- Professional technology hood combined with classic Gaggenau design
- Highly efficient extraction of cooking vapours due to large vapour collection area
- Motorless, can be combined with
- Gaggenau BLDC remote fan units - Angled baffle filter with high grease
- absorption - Function for automatic, sensor-
- controlled power adjustment depending on the build-up of cooking vapours
- Dimmable, neutral white surface LED light for ideal illumination of the whole cooktop
- Air extraction or air recirculation system
- Air recirculation module with activated charcoal filter: quiet and highly efficient air recirculation solution with odour reduction as in air extraction mode and long replacement intervals

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

3 electronically controlled power levels and 1 intensive mode. Automatic function with sensorcontrolled run-on function. Grease filter saturation indicator. Baffle filter, dishwasher-safe. Neutral white surface LED light (3500 K), continuously dimmable. Lamp output 4 x 10 W. Illuminance 1390 Ix.

Consumption data

Consumption data is referred to a configuration AI 442 160/120/100 with the remote fan unit AR 400 143. Energy efficiency class A/A/A at a range of energy efficiency classes from A++ to E. Energy consumption 49.1/49.5/51.3 kWh/year. Ventilation efficiency class A/A/A. Ilumination efficiency class A/A/A. Grease filter efficiency class B/B/B. Sound level min. 45/44/44 dB / max. 62/62/61 dB normal mode.

Planning notes

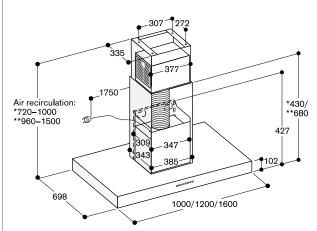

Refer to the table on page 292 for the matching remote fan units for air recirculation or air extraction mode. The two-part chimney including the mounting kit must be ordered as an installation accessory. Connection to the respective appliances via network cable. Clearance above gas appliances min. 70 cm. Clearance above electric appliances min. 60 cm.

Air recirculation module with 2 activated charcoal filters is installed in the inner chimney. Special air recirculation chimneys are available for this.

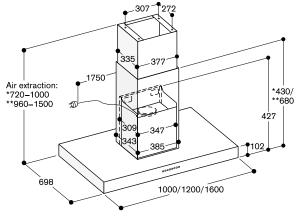

When installing a ventilation hood with air extraction mode and a chimney-vented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch. Please read the installation details regarding air ducting on page 230 – 231.

Connection

Total connected load 50/50/50 W Connecting cable 1.8 m, pluggable.

- With air recirculation chimney AD 442 116, suitable for ceiling heights from 2.35 m to 2.60 m.
 ** With air recirculation chimney AD 442 126, suitable for ceiling heights
- ** With air recirculation chimney AD 442 126, suitable for ceiling heights from 2.60 m to 3.10 m; Specifications refer to the distance of 1.60 m from the floor to the lower edge of the hood.

- * With air extraction chimney 442 016, suitable for ceiling heights from 2.35 m to 2.60 m.
 **With air extraction chimney AD 442 026, suitable for ceiling heights
- *With air extraction chimney AD 442 026, suitable for ceiling heights from 2.60 m to 3.10 m; Specifications refer to the distance of 1.60 m from the floor to the lower edge of the hood.

AW 442 160

Stainless steel Width 160 cm Air extraction / Air recirculation Motorless Delivery without chimney AW 442 120 Stainless steel Width 120 cm Air extraction / Air recirculation Motorless Delivery without chimney AW 442 190 Stainless steel Width 90 cm Air extraction / Air recirculation

Motorless Delivery without chimney

Necessary installation accessories

AD 442 012 Stainless steel chimney for air extraction Length: 620 mm AD 442 022 Stainless steel chimney for air extraction

Lenath: 860 mm AD 442 112

Stainless steel chimney for air recirculation Length: 620 mm AD 442 122 Stainless steel chimney for air recirculation Length: 860 mm

Special accessories

AA 400 510

Window contact switch Can be combined with motorless appliances 400 series.

AA 442 110

2 activated charcoal filter with high efficient adour reduction due to increased surface. For air recirculation module AA 442 810 Activated charcoal filter for air recirculation module AA442810. AA 442 810

Air recirculation module inclusive 2 activated charcoal filters with high efficient odour reduction due to increased surface For air recirculation.

Can be combined with island and wall-mounted hood AI/AW 442.

AD 442 392

Ceiling collar for chimneys Stainless steel

Installation accessories for the air recirculation ducts you will find at the pages 272 - 285.

Wall-mounted hood 400 series AW 442

- Professional technology hood combined with classic Gaggenau design
- Highly efficient extraction of cooking vapours due to large vapour collection area
- Motorless, can be combined with Gaggenau BLDC remote fan units Angled baffle filter with high grease absorption
- Function for automatic, sensorcontrolled power adjustment depending on the build-up of
- cooking vapours Dimmable, neutral white surface LED light for ideal illumination of the whole cooktop
- Air extraction or air recirculation system
- Air recirculation module with activated charcoal filter: quiet and highly efficient air recirculation solution with odour reduction as in air extraction mode and long replacement intervals

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

3 electronically controlled power levels and 1 intensive mode. Automatic function with sensorcontrolled run-on function Grease filter saturation indicator. Baffle filter, dishwasher-safe, Neutral white surface LED light (3500 K), continuously dimmable. Lamp output 4x10W. Illuminance 1010 lx. Easy mounting system for simple installation and alignment.

Consumption data

Consumption data is referred to a configuration AW 442 160/120/190 with the remote fan unit AR 400 143. Energy efficiency class A/A/A+ at a range of energy efficiency classes from A++ to E. Energy consumption

49.8/43.3/41.6 kWh/year. Ventilation efficiency class A/A/A. Ilumination efficiency class A/A/A. Grease filter efficiency class A/B/B. Sound level min. 47/47/47 dB / max. 64/64/63 dB normal mode.

Planning notes

Refer to the table on page 293 for the matching remote fan units for air recirculation or air extraction mode. The two-part chimney must be ordered as an installation accessory. Connection to the respective appliances via network cable. Clearance above gas appliances min. 70 cm Clearance above electric appliances

min. 60 cm. Air recirculation module with

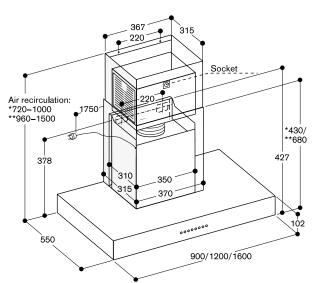

2 activated charcoal filters is installed in the inner chimney. Special air recirculation chimneys are available for this.

When installing a ventilation hood with air extraction mode and a chimnevvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

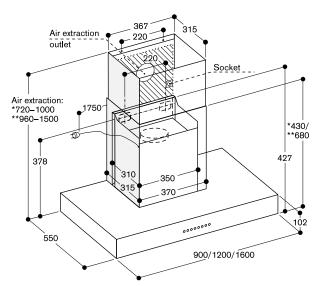

Please read the installation details regarding air ducting on page 230 - 231.

Connection

Total connected load 50/40/30 W Connecting cable 1.8 m, pluggable.

- With air recirculation chimney AD 442 112, suitable for ceiling heights from 2.35 m to 2.60 m.
- . With air recirculation chimney AD 442 122, suitable for ceiling heights from 2.60 m to 3.10 m; Specifications refer to the distance of 1.60 from the floor to the lower edge of the hood.

With air extraction chimney 442 012, suitable for ceiling heights from 2.35 m to 2.60 m. With air extraction chimney AD 442 022, suitable for ceiling heights

from 2.60 m to 3.10 m; Specifications refer to the distance of 1.60 m from the floor to the lower edge of the hood.

Recommended configurations of the island/wall-mounted hoods 400 series and remote fan units 400 series

Planning example 1

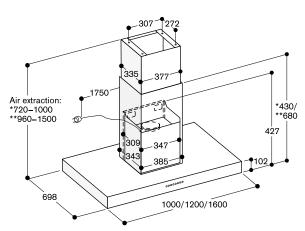

1 x AI 442 with AR 400 143 Round duct, DN 150

Good to know

- The AR 400 143 remote fan unit is ideal for space-saving installation for assembly in the AI 442.
- Two chimney lengths are available depending on the height of the room.
- The minimum distance to the cooktop is 600 mm, and 700 mm for gas appliances.
- The necessary mounting kits are included as accessories with the chimney.
- The appropriate installation accessories are available for air extraction and
- air recirculation, see the list of accessories. - The minimum height of AI 442 is increased by 2 cm with the installation of the ceiling collar.

List of accessories 1 (air extraction)

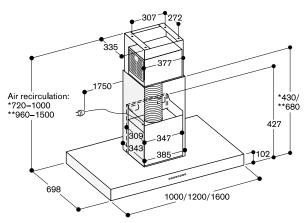

- 1 x AR 400 143 (remote fan unit for AI 442 / AW 442 chimney installation)
 1 x AD 442 016 (stainless steel chimney for air extraction for room height
- of 2.35 m to 2.60 m)
- or 1 x AD 442 026 (stainless steel chimney for air extraction for room height of 2.60 m to 3.10 m)
- 1-2 x AD 752 010 (round duct, DN 150), depending on room height
- 1 x AD 990 090 (adhesive tape for bonding the ducts)
- Optional : 1 x AD 442 396 (stainless steel ceiling collar for island hood)

- * With air extraction chimney 442 016, suitable for ceiling heights from 2.35 m to 2.60 m.
- **With air extraction chimney AD 442 026, suitable for ceiling heights from 2.60 m to 3.10 m; Specifications refer to the distance of 1.60 m from the floor to the lower edge of the hood.

List of accessories 2 (air recirculation)

- 1 x AR 400 143 (remote fan unit for AI 442 / AW 442 chimney installation)
- 1 x AA 442 810 (air recirculation module with activated charcoal filter)
- 1 x AD 442 116 (stainless steel chimney for air recirculation for room height of 2.35 m to 2.60 m) or 1 x AD 442 126 (stainless steel chimney for air extraction for room height of 2.60 m to 3.10 m)
- Optional : 1 x AD 442 396 (stainless steel ceiling collar for island hood)

- With air recirculation chimney AD 442 116, suitable for ceiling heights from 2.35 m to 2.60 m.
 ** With air recirculation chimney AD 442 126, suitable for ceiling heights
- ** With air recirculation chimney AD 442 126, suitable for ceiling heights from 2.60 m to 3.10 m; Specifications refer to the distance of 1.60 m from the floor to the lower edge of the hood.

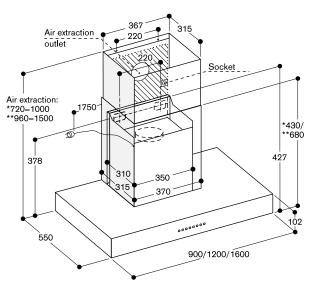

Planning example 2 1 x AW 442 with AR 400 143 Round duct, DN 150

Good to know

- The AR 400 143 remote fan unit is ideal for space-saving installation for assembly in the AW 442.
- Two chimney lengths are available depending on the height of the room.
 The minimum distance to the cooktop is 600 mm, and 700 mm for gas appliances.
- The appropriate installation accessories are available for air extraction and air recirculation, see the list of accessories.

List of accessories 1 (air extraction)

- 1 x AR 400 143 (remote fan unit for Al 442 / AW 442 chimney installation)
- 1 x AD 442 012 (stainless steel chimney for air extraction for room height of 2.35 m to 2.60 m)
- or 1 x AD 442 022 (stainless steel chimney for air extraction for room height of 2.60 m to 3.10 m)
- 1-2 x AD 752 010 (round duct, DN 150), depending on room height
- 1 x AD 990 090 (adhesive tape for bonding the ducts)
- Optional : 1 x AD 442 392 (stainless steel ceiling collar for wall-mounted hood)

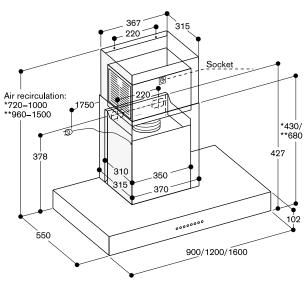

* With air extraction chimney 442 012, suitable for ceiling heights from 2.35 m to 2.60 m.

from 2.35 m to 2.60 m. ** With air extraction chimney AD 442 022, suitable for ceiling heights from 2.60 m to 3.10 m; Specifications refer to the distance of 1.60 m from the floor to the lower edge of the hood.

List of accessories 2 (air recirculation)

- 1 x AR 400 143 (remote fan unit for AI 442 / AW 442 chimney installation)
- 1 x AA 442 810 (air recirculation module with activated charcoal filter)
- 1 x AD 442 112 (stainless steel chimney for air recirculation for room height of 2.35 m to 2.60 m) or 1 x AD 442 122 (stainless steel chimney for air recirculation for room height of 2.60 m to 3.10 m)
- Optional : 1 x AD 442 392 (stainless steel ceiling collar for wall-mounted hood)

 * With air recirculation chimney AD 442 112, suitable for ceiling heights from 2.35 m to 2.60 m.
 ** With air recirculation chimney AD 442 122, suitable for ceiling heights

* With air recirculation chimney AD 442 122, suitable for ceiling heights from 2.60 m to 3.10 m; Specifications refer to the distance of 1.60 m from the floor to the lower edge of the hood.

AR 400 142

Metal housing Max. air output 830 m³/h Air extraction Inside installation

Special accessories

AA 400 510 Window contact switch Can be combined with motorless appliances 400 series.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Remote fan unit 400 series AR 400

- Powerful remote fan unit to combine with motorless appliances 400 series
- Efficient BLDC technology

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air extraction: 670 / 830 m³/h. Power levels depend on the motorless appliances, see table on page 294 – 295.

Features

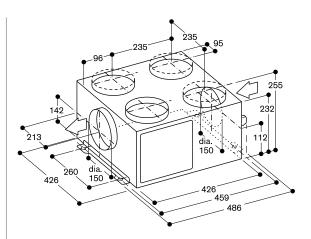

3 electronically controlled power levels and one intensive mode. Fan technology with highly efficient, brushless DC motor (BLDC). Steel housing, zinc-plated. Pipe connection pieces on intake side: 1 x DN 150 round, 4 x DN 150 round. Pipe connection pieces on output side: 1x DN 150 round. Spare cover for closing air intake. Retaining bracket for installation on the ceiling or side of a cupboard enclosed.

Planning notes

Remote fan unit in combination with motorless appliances 400 series. Connection to the respective appliances via network cable. Installation in the plinth with cut-out for the air ducting in the furniture base. Installation in a separate room allows for a reduced noise level in the kitchen For installation in the cellar or an adjoining room, please refer to the planning information on page 210 - 212. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Connection

Total connected load 240 W. Connecting cable 1.8 m, pluggable. Network cable 5 m.

AR 400 143

Metal housing Max. air output 970 m³/h Air extraction / Air recirculation Installation in the chimney of AI/AW 442

Special accessories

AA 400 510 Window contact switch Can be combined with motorless appliances 400 series.

Installation accessories for the air recirculation ducts you will find at the pages 272 - 285.

Remote fan unit 400 series AR 400

- Powerful remote fan unit to combine with motorless appliances 400 series
- Efficient BLDC technology _ _ Compact, space-saving installation in the chimney of AI/AW 442

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air extraction: 640 / 970 m³/h. Power levels depend on the motorless appliances, see table on page 294 - 295.

Features

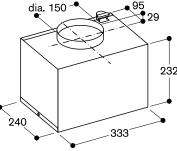

3 electronically controlled power levels and one intensive mode. Fan technology with highly efficient, brushless DC motor (BLDC). Including sound insulation to minimise the noise level. Steel housing, zinc-plated. Pipe connection pieces on output side: 1x DN 150 round.

Planning notes

Remote fan unit in combination with the motorless AI/AW 442. Connection to the respective appliances via network cable. Installation in the chimney of AI/AW 442. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Connection

Total connected load 230 W. Connecting and network cable included in delivery.

Stainless steel Max. air output 910 m³/h Air extraction Outside wall mounting

Installation accessories

AD 702 052 Telescopic wall-duct Connection piece DN 200 round

Special accessories

AA 400 510 Window contact switch Can be combined with motorless appliances 400 series.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Remote fan unit 400 series AR 401

- Powerful remote fan unit to combine with motorless appliances 400 series
- Efficient BLDC technology

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air extraction: 720 / 910 m³/h. Power levels depend on the motorless appliances, see table on page 294 – 295.

Features

3 electronically controlled power levels and one intensive mode. Fan technology with highly efficient, brushless DC motor (BLDC). Including sound insulation to minimise the noise level. Stainless steel housing. Pipe connection pieces on intake side: 1x DN 200 round. Retaining bracket for installation on an outside wall enclosed.

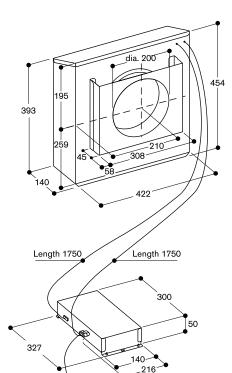

Planning notes

Remote fan unit in combination with motorless appliances 400 series. Connection to the respective appliances via network cable. Installation in an exterior area allows for a reduced noise level in the kitchen Installation on an outside wall. Control box must be installed indoors. Acceptable temperature range for installation of the control box: -25 to 60 °C. Distance for free air space from ground (or other object) to center of the pipe: min 60 cm When installing a ventilation hood with air extraction mode and a chimney-vented fireplace, the power supply line of

the ventilation appliance needs a suitable safety switch.

Connection

Total connected load 180 W. Connecting cable 1.8 m, pluggable. Network cable 5 m.

Length 1750

AR 410 110 Metal housing Max. air output 660 m³/h Air recirculation Installation in the cupboard

Special accessories

AA 410 110 2 activated charcoal filter For air recirculation. Combinable with remote fan unit AR 410 110. AA 410 112 2 regenerable activated charcoal filter

For air recirculation. Combinable with remote fan unit AR 410 110.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Remote fan unit 400 and 200 series AR 410

- Powerful remote fan unit to combine with Vario downdraft ventilation 400 and 200 series
- Efficient BLDC technologyParticularly quiet due to patented
- noise insulationCompact, space-saving installation

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air recirculation: 570 / 660 m³/h. Power levels depend on the motorless appliances, see table on page 294 – 295.

Features

3 electronically controlled power levels and 1 intensive mode.

Fan technology with highly efficient, brushless DC motor (BLDC).

Including sound insulation to minimise the noise level.

Steel housing, zinc-plated.

Pipe connection piece on intake side: 1 x DN 150 flat duct. Retaining bracket for installation at the

furniture base enclosed. 2 activated charcoal filters enclosed ex

factory. Filter is suitable for the preparation of fish and seafood due to special treatment.

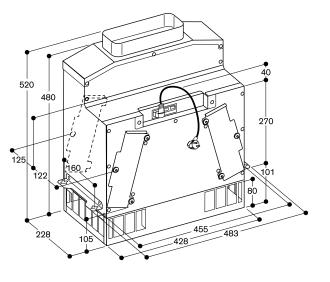

Filter replacement interval: 1 year depending on cooking frequency.

Planning notes

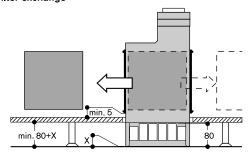

Powerful remote fan unit to combine with Vario downdraft ventilation 400 and 200 series. Connection to the respective appliances via network cable. Installation in a cupboard possible with a cut-out in the furniture base or behind the cupboard positioned on the floor. Please refer to the planning information on page 210 – 212. To replace the filter the remote fan unit must be accessible. The charcoal filter exchange is possible from both sides.

Connection

Total connected load 170 W. Connecting cable 1.8 m, pluggable. Network cable 5 m.

Filter exchange

AR 403 122

Metal housing Max. air output 890 m³/h Air extraction Plinth installation

Special accessories AA 400 510

Window contact switch Can be combined with motorless appliances 400 series and Vario downdraft ventilation 200 series.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Remote fan unit 400 and 200 series AR 403

- Powerful remote fan unit to
- combine with motorless appliances 400 series and Vario downdraft ventilation 200 series
- Efficient BLDC technologyCompact and space-saving
- installation in a 10 cm high plinth

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air extraction: 730 / 890 m³/h. Power levels depend on the motorless appliances, see table on page 294 – 295.

Features

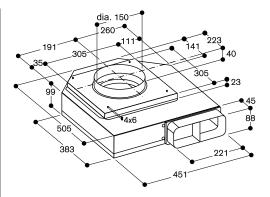

3 electronically controlled power levels and one intensive mode. Fan technology with highly efficient, brushless DC motor (BLDC). Steel housing, zinc-plated. Pipe connection pieces on intake side: 1 x DN 150 round. Pipe connection pieces on output side: 1 x DN 150 flat duct. Retaining bracket for installation on the ceiling or side of a cupboard enclosed.

Planning notes

Remote fan unit in combination with motorless appliances 400 series and Vario downdraft ventilation 200 series. Connection to the respective appliances via network cable. Installation in the plinth with cut-out for the air ducting in the furniture base. Connection of AL 400 with an air collector box (AD 704 048, AD 704 049). When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Connection

Total connected load 180 W. Connecting cable 1.8 m, pluggable. Network cable 2 m.

AR 413 122

Metal housing Max. air output 850 m³/h Air recirculation Plinth installation

AA 010 410

Air exhaust grille air recirculation Stainless steel-coloured, 90 cm, including installation fittings, height adjustable.

Special accessories

AA 413 111 2 activated charcoal filter For air recirculation. Combinable with remote fan unit AR 413 122.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Remote fan unit 400 and 200 series AR 413

- Powerful remote fan unit to combine with motorless appliances 400 series and Vario downdraft ventilation 200 series
- Efficient BLDC technologyCompact and space-saving
- installation in a 10 cm high plinth

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air recirculation: 680 / 850 m³/h. Power levels depend on the motorless appliances, see table on page 294 – 295.

Features

3 electronically controlled power levels and one intensive mode. Fan technology with highly efficient,

brushless DC motor (BLDC). Steel housing, zinc-plated.

Pipe connection pieces on intake side: 1 x DN 150 round.

Retaining bracket for installation on the ceiling or side of a cupboard enclosed. 2 activated charcoal filters enclosed ex factory. Filter is suitable for the preparation of

fish and seafood due to special treatment. Filter replacement interval: 1 year depending on cooking frequency.

Planning notes

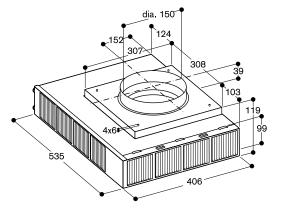

Remote fan unit in combination with motorless appliances 400 series and Vario downdraft ventilation 200 series.

Connection to the respective appliances via network cable. Installation in the plinth with cut-out for the air ducting in the furniture base. Filter replacement interval: 1-1.5 years depending on cooking frequency. It must be possible to remove the plinth to replace the filter.

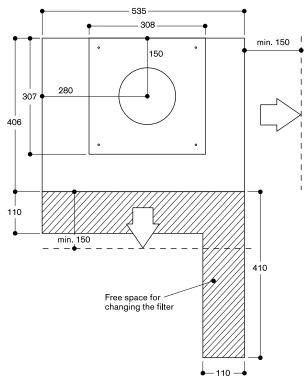

Recommended minimum gap between filter openings and cupboard wall if there is no ventilation grille directly in front: 15 cm.

Connection

Total connected load 180 W. Connecting cable 1.8 m, pluggable. Network cable 2 m.

View from above

Checklist for the modular ventilation appliances 400 series

The external remote fan units of the 400 series have a network cable that is used to connect the motorless appliances of the 400 series.

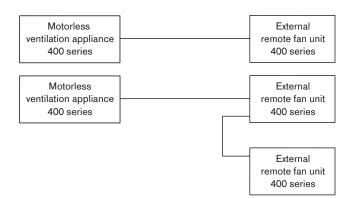

Up to two remote fan units can be connected (e.g. with ceiling ventilation), whereby an additional network cable is connected from one remote fan unit to the other remote fan unit.

Other control options

It is possible on request to connect the signal via a zero potential contact to a ventilation appliance at the site so that this appliance can respond accordingly to activity on the part of Gaggenau's 400 series ventilation appliances.

The respective ventilation planner is then responsible for the effective operation of the entire ventilation system.

The guarantee of electrical function is maintained as long as the respective specifications are observed.

The aim of good ventilation system planning is to extract cooking vapours out of the kitchen area as completely and quickly as possible. To help you plan and install your system correctly, here are a few important notes on system planning from our ventilation experts.

The planning of a ventilation system is significantly determined by the air requirement and air output. The air requirement must be contrasted with the corresponding air output that a ventilation appliance can produce, while taking account of the influence of all the ventilation components involved.

Air requirement needed:

Please observe the local applicable building regulations when configurating ventilation solutions. The air output of a complete ventilation system must be designed according to the air requirement needed. For this, the size of the kitchen and a corresponding air change rate for the volume of space are often used as the basis for planning. We recommend this method only if the distance between the ventilation system and the cooktop is greater than 1.20 m, that is to say, for ceiling ventilation.

- For air extraction operation, the air requirement for the air exchange rate is calculated using a factor of 10.
- However, the calculation is made using a factor of 12 in kitchens where special cooking appliances such as the electric grill, Teppan Yaki or wok are used.
 For air recirculation, the air requirement for the air exchange rate is generally
- For air recirculation, the air requirement for the air exchange rate is generall calculated using a factor of 12.

If the distance between the ventilation system and the cooktop is less than 1.20 metres, the factors listed below must be taken into account to ensure that most of the cooking vapours are trapped as soon as they rise from the cooktop:

- The size and architecture of the kitchen: As the size of the room increases, the movements of air in the room also increase and, as a result, the air requirement becomes greater.
- The cooking appliances: The choice of cooktop is the decisive influencing factor. Every cooktop produces different types and amounts of cooking vapours. The wider the cooktop, the higher the output of the ventilation system should be. Above all, the ventilation system must have a sufficient reserve capacity, if special Vario cooking appliances, such as a Teppan Yaki, wok or electric grill, are to be installed, because such appliances can be expected to produce a higher amount of cooking vapours. We therefore also recommend that these special cooking appliances are installed, if possible, in the centre of the cooktop configuration and not at the edge.
- The type of ventilation system: Every type of ventilation system has particular characteristics which influence the air requirement needed. Ventilation systems, such as downdraft ventilation and table ventilation, are characterised by extracting vapours directly from the cooktop. As they rise up, the cooking vapours can therefore not spread as far in the ambient air. In this case, the air output required is usually less than for those types of ventilation system that are 80 cm or further away from the cooktop.
- The operation mode: All Gaggenau ventilation systems can be operated both in exhaust air mode and air recirculation mode. It should be noted that, in air recirculation mode, the additional activated charcoal air filter leads to a reduction in air output in comparison to exhaust air mode. The larger the surface of the activated charcoal air filter, the more the ventilation system bears comparison in its extraction and noise behaviour with an exhaust air solution. In air extraction mode, the actual air output

depends not only on the fan output, but also significantly on the duct system. Important influencing factors on the air output:

- The fans: Gaggenau ventilation systems are equipped with particularly powerful fans, or they can be combined with correspondingly powerful remote fan units for exhaust air or air recirculation mode. These fans are also very pressure-stable. They overcome possible pressure losses caused by a ducting system and work highly effectively at a low noise level.
- Ducting and installation: To achieve optimum results, the following points should be observed during installation:
- 1. Install duct bends with a minimum clearance of 30 cm from the exhaust air opening.
- 2. Avoid reductions in cross sections.
- 3. For duct bends, use bends that are as wide as possible.
- 4. Only install ducts that have a smooth and flat inner surface.
- 5. Use exhaust air pipes with a diameter of at least 125 mm.
- Pay attention to the use of a short ducting paths as possible.
 Fit wall outlets that have wide fins, wide-meshed grilles and a low back-pressure.
- 8. Ensure sufficient supply air.

You are welcome to check whether your exhaust air ducting has the required air requirement by using our Rodun calculation tool on our website (www.gaggenau.com).

1 regenerable activated charcoal filter For air recirculation module AA 200 812/816 and AA 010 811/ AA 012 811.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Ceiling ventilation 200 series AC 250

- Discreet integration into the architecture of the kitchen
- Energy-saving, low-noise fan
- Rim extraction
- Function for automatic, sensorcontrolled power adjustment depending on the build-up of cooking vapours
- Easy and time saving installation directly on the ceiling
- Easy maintenance of the filters
- Air extraction / Air recirculation

Output

Performance and noise level, output level 3/Intensive: Air output according to EN 61591. Sound power level according to EN 60704-3. Sound pressure level according to EN 60704-2-13 Odour reduction for air recirculation in accordance with EN 61591. Air extraction: 450 / 900 m³/h 56 / 70 dB (A) re 1 pW. 44 / 58 dB (A) re 20 µPa. Air recirculation: 410 / 640 m³/h. 63 / 72 dB (A) re 1 pW. 51 / 60 dB (A) re 20 µPa.

Features

- 3 electronically controlled power levels and 1 intensive mode. Remote control is included in delivery. Automatic function with sensor controlled run-on function. Interval ventilation. 6 min. Grease filter saturation indicator. Activated charcoal filter saturation indicator. Metal grease filter, dishwasher-safe. Massive aluminium anodized Gaggenau Light Bronze filter cover. Fan technology with highly efficient, brushless DC motor (BLDC). Turnable blower, air outlet on all four sides possible. Connecting pipe DN 150 round. Cooktop-based ventilation control (with suitable cooktop).
- Home network integration for digital services (Home Connect) wireless via WiFi.
- The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.
- Please read additional information on Home Connect on page 420.

Consumption data

normal mode.

Energy efficiency class A+ at a range of energy efficiency classes from A++ to E. Energy consumption 30 kWh/year. Ventilation efficiency class A. Ilumination efficiency class -. Grease filter efficiency class E. Sound level min. 41 dB / max. 56 dB

Planning notes

For installation in suspended ceiling. The ceiling ventilation has to be handled as a room ventilation when distance to cooktop is larger than 120 cm since the direct capture of vapours will be limited. The needed airflow is given by an air exchange rate of 10 to 12 times the room volume. A suitable load-bearing substructure is required for securing the extractor hood. Never fit the appliance directly onto plasterboard or similar lightweight construction materials. Recommended minimum gap between appliance and external filter module:100 cm. For air recirculation an external filter module is required. Clearance above gas appliances min. 65 cm (more than total load gas 12 kW min. 70 cm). Clearance above electric appliances

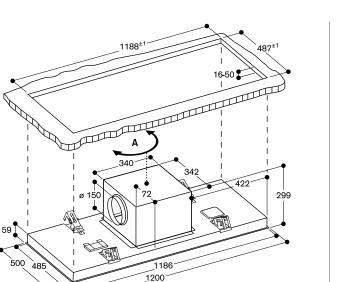

min. 65 cm.

Air recirculation is not recommended in combination with Vario electric grill. Please ensure when installing the exhaust air ducting that no sharp bends are caused and that the cross-section of the ducting is not constricted in any way. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a

suitable safety switch. Appliance weight: approx. 37 kg.

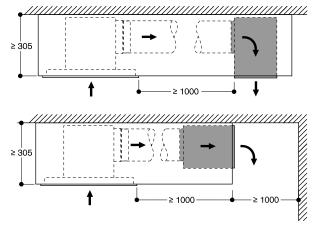

Connection

Total connected load 250 W. Connecting cable 1.3 m with plug.

A: The ventilator outlet can be turned in all four directions. measurements in mm

AC 250 with air recirculation module

measurements in mm

AC 231 120

Special accessories

AA 200 120 Activated charcoal filter For ceiling ventilation AC 231 For air recirculation. Can be combined with ceiling ventilation AC 231.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Ceiling ventilation 200 series AC 231

- Easy and time saving installation
- directly on the ceiling - Rim extraction with flat and
- easy-to-clean glass cover Dimmable, indirect LED light
- Air recirculation

Output

Performance and noise level, output level 3/Intensive: Air output according to EN 61591. Sound power level according to EN 60704-3. Sound pressure level according to EN 60704-2-13. Odour reduction for air recirculation in accordance with EN 61591. Air recirculation: 780 / 850 m³/h. 70 / 72 dB (A) re 1 pW. 56 / 58 dB (A) re 20 µPa.

Features

3 electronically controlled power levels and 1 intensive mode. Remote control is included in delivery. Interval ventilation, 10 min. Run-on function, 15 min. Grease filter saturation indicator. Metal grease filter, dishwasher-safe. Activated charcoal filter fitted in appliance ex factory. Activated charcoal filter saturation indicator. Activated charcoal filter regenerable up to four times. Stainless steel housing and glass filter cover in Gaggenau Silver. Indirect LED light (4000 K), dimmable. Lamp output 2x6W Illuminance 14 lx. 2 high-performance fans.

Consumption data

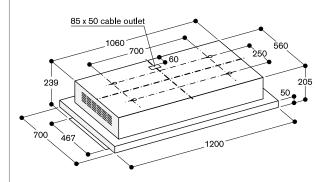

Sound level min. 57 dB / max. 70 dB normal mode.

Planning notes

Installation directly on the ceiling. A suitable load-bearing substructure is required for securing the extractor hood. Never fit the appliance directly onto plasterboard or similar lightweight construction materials. Note the position of the electrical outlet. Recommended minimum gap between filter openings and wall: 50 cm. Clearance above gas appliances min. $65\,\text{cm}$ (more than total load gas $12\,\text{kW}$ min. 70 cm). Clearance above electric appliances min. 55 cm. Maximum clearance above cooktops 150 cm The capture of vapours will be inefficient if the ceiling ventilation is positioned too high. Appliance weight: approx. 41 kg. The cooktop should be no wider than the ceiling ventilation. To achieve optimum vapour extraction, the ceiling ventilation must at least cover the hob. It should be positioned centrally over the hob. It cannot be combined with VR and VP.

Connection

Total connected load 192W. Plan a connection cable.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Vario downdraft ventilation 200 series VL 200

- Can be combined with the
- cooktops of the Vario 200 series to a harmonic unity
- Highly efficient ventilation system at the cooktop integrated in the worktop
- Function for automatic, sensorcontrolled power adjustment depending on the build-up of cooking vapours
- Minimal planning and easy installation
- Low-noise system with the motor AR 410 110
- Air extraction or air recirculation system

Output

Power levels depend on the remote fan unit, see table on page 294 - 295.

Features

Control knobs with illuminated ring. 3 electronically controlled power levels and 1 intensive mode. Automatic function with sensor-con-

trolled run-on function. Large-scale metal grease filter with

high grease absorption. Grease filter, dishwasher-safe.

Grease filter and activated charcoal filter saturation indicator. Airflow-optimised interior for efficient

air circulation. Interval ventilation, 6 min.

Enamelled ventilation grille, dishwasher-safe.

Air exhaust bend included in delivery. Overflow 250 ml capacity.

Consumption data

Consumption data is referred to a configuration with the remote fan unit AR 403 122.

Energy efficiency class A+ at a range of energy efficiency classes from A++ to E.

Energy consumption 39.7 kWh/year. Ventilation efficiency class A. Ilumination efficiency class -.

Grease filter efficiency class B. Sound level min. 58 dB / max. 73 dB normal mode.

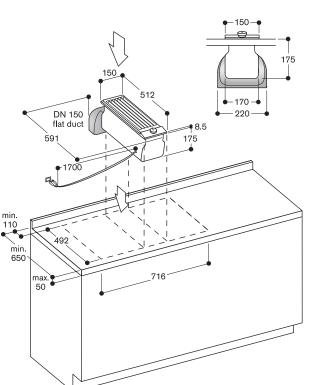

Planning notes

Air recirculation mode in combination with remote fan unit with AR 410 110 or AR 413 122.

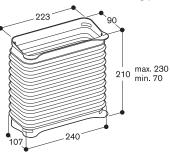

Air extraction in combination with remote fan unit AR 403 122. Please refer to page 297 for recommended configurations of downdraft ventilations and remote fan units and the needed ducting elements.

For each VL one remote fan unit is recommended. Maximum cooktop width

between 2 VL: 60 cm. If installed next to gas appliances, the ventilation moulding LS 041 001 is recommended to ensure maximum performance of the cooktop. When having installed the ventilation moulding LS 041 001 the wok pan WP 400 001 can not be used.

AD 410 040: Flexibel connecting piece for VL 200, DN 150 flat

AD 851 041: Connecting piece VL 200 for extension with flat duct DN 150 for extra deep worktop

90

When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Please read additional planning notes on page 132.

Please read the installation details regarding air ducting on page 244 – 246.

Connection

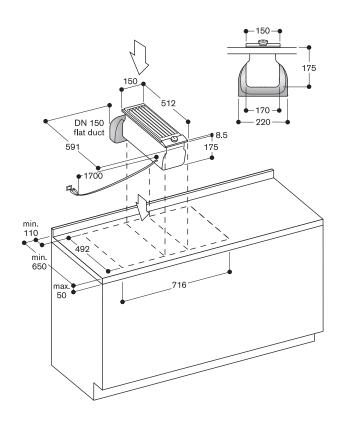

Connecting cable 1.7 m between VL and remote fan unit.

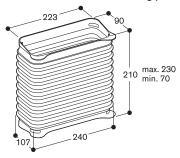

Extra

Good to know - for correct planning and installation

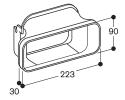

- For depth measurements, take account of the depth of the furniture cavity and worktop overhangs of the kitchen furniture.
- With the Vario downdraft ventilation, the ducting can be connected to below or to the rear (in option). The respective connecting pieces are available for this purpose.
- Maximum distance between the Vario downdraft ventilation and the remote fan unit: Cable lenght in between 1.7 m
- For optimum air circulation, we recommend ducts with DN 150.
- 2 flat or 2 round ducts must be connected with a pipe connector.
 To connect 2 duct bends together (e.g. a 90° horizontal duct bend and a 90° vertical duct bend), a piece of flat duct is required, which can be shortened to the required length by cutting it to size.
- It is also important that ducting is well sealed in order to prevent air leaks, e.g. by using the adhesive tape AD 990 090 (UV- and heat-resistant).
- Vario cooktops with intensive vapour formation like Vario Teppan Yaki, Vario electric grill should be placed central; in case of Vario electric grill air recirculation is not recommended.

AD 410 040: Flexibel connecting piece for VL 200, DN 150 flat

AD 851 041: Connecting piece VL 200 for extension with flat duct DN 150 for extra deep worktop

VL 200 with AR 410 110 remote fan unit

Wall installation, worktop depth 65 cm, access to the filters for replacement from the front.

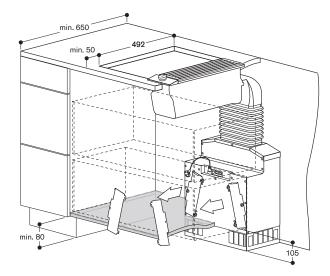

Good to know

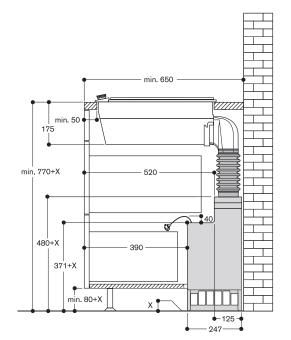

- Allow accessibility to the charcoal filters in the lower cabinet for their replacement. - Additionally, if the plinth is higher than 80 mm, the external remote fan unit has to be elevated to enable access to the filters. If the plinth is 80 mm high, the remote fan unit can be placed directly on the floor.
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm²).

List of components

- 1 x AR 410 110 (remote fan unit air recirculation)
- 1 x AD 410 040 (flexibel connecting piece for VL 200, DN 150 flat)

Order as set (appliances and accessories): SET1VL2301

Planning example 2 (air recirculation)

VL 200 with AR 410 110 remote fan unit

Island installation, access to the filter for replacement from the front or the back.

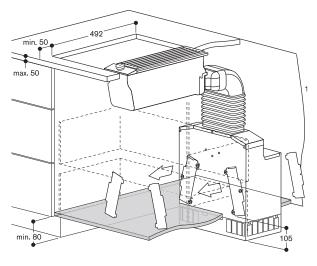

Good to know

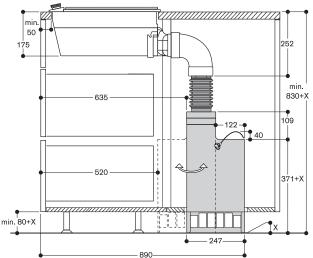

- Allow accessibility to the charcoal filters in the lower cabinet for their replacement. - Additionally, if the plinth is higher than 80 mm, the external remote fan unit has to be elevated to enable access to the filters. If the plinth is 80 mm high, the remote
- fan unit can be placed directly on the floor. - For optimum performance, the recirculated air requires sufficient space to escape
- (outflow surface area of at least 700 cm²).

List of components

- 1 x AR 410 110 (remote fan unit air recirculation)
- 1 x AD 851 041 (connecting piece for extension with flat duct for extra deep worktop) - 1 x AD 852 030 (flat duct bend 90° vertical)
- 1 x AD 852 010 (flat duct)
- 1 x AD 410 040 (flexibel connecting piece for VL 200, DN 150 flat)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Vario cooktops

Extractors

Planning examples with the downdraft ventilation 200 series

Planning example 3 (air recirculation)

VL 200 with AR 413 122 remote fan unit Island installation, access to the filter for replacement from the front

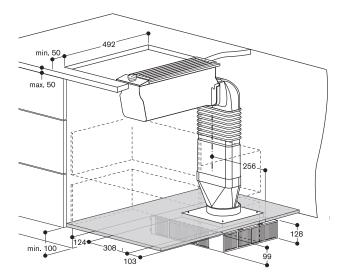

Good to know

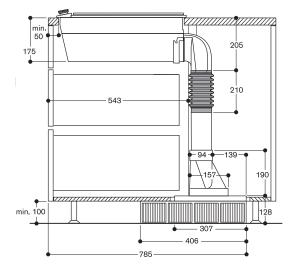

- The remote fan unit can be turned in all directions, depending on the desired direction for the exhaust air or filter removal.
- Allow accessibility to the charcoal filters in the lower cabinet for their replacement.
 The recommended minimum distance between filter openings and cupboard wall
- if there is no ventilation grille directly in front: 15 cm.
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 700 cm²).
- The connection piece DN 150 is included with the remote fan unit.

List of components wall installation

- 1 x AR 413 122 (remote fan unit plinth)
 1 x AD 410 040 (flexibel connecting piece for VL 200, DN 150 flat)
- 1 x AD 410 040 (flat duct)
- 1 x AD 852 010 (flat duct)
- 1 x AD 852 041 (flat duct adapter round)
 1 x AD 990 090 (adhesive tape for sealing the ducts)

Order as set (appliances and accessories): SET1VL2101

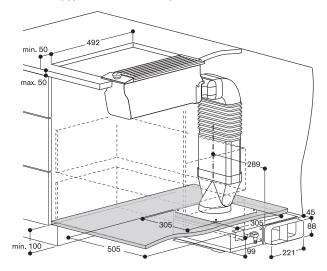

Planning example 4 (air extraction)

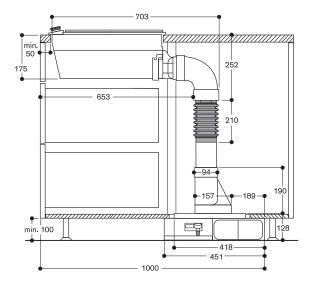

VL 200 with AR 403 122 remote fan unit Island installation, connection from the right side.

List of accessories wall installation

- 1 x AR 403 122 (remote fan unit plinth)
- 1 x AD 851 041 (connecting piece for extension with flat duct for extra deep worktop)
- 1 x AD 852 030 (Flat duct bend 90° vertical)
- 1 x AD 852 010 (flat duct)
- 1 x AD 410 040 (flexibel connecting piece for VL 200, DN 150 flat)
- 1 x AD 852 041 (flat duct adapter round)
- 1 x AD 990 090 (adhesive tape for sealing the ducts)

Order as set (appliances and accessories): SET1VL2201

AR 410 110 Metal housing Max. air output 660 m³/h Air recirculation Installation in the cupboard

Special accessories

AA 410 110 2 activated charcoal filter For air recirculation. Combinable with remote fan unit AR 410 110. AA 410 112 2 regenerable activated charcoal filter For air recirculation.

Combinable with remote fan unit AR 410 110.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Remote fan unit 400 and 200 series AR 410

- Powerful remote fan unit to combine with Vario downdraft ventilation 400 and 200 series
- Efficient BLDC technologyParticularly quiet due to patented
- noise insulation
- Compact, space-saving installation

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air recirculation: 570 / 660 m³/h. Power levels depend on the motorless appliances, see table on page 294 – 295.

Features

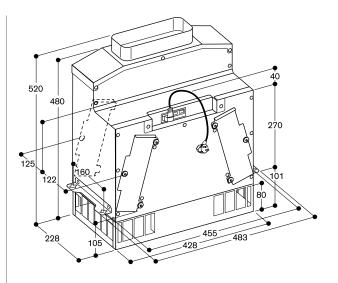

3 electronically controlled power levels and 1 intensive mode. Fan technology with highly efficient, brushless DC motor (BLDC). Including sound insulation to minimise the noise level. Steel housing, zinc-plated. Pipe connection piece on intake side: 1 x DN 150 flat duct. Retaining bracket for installation at the furniture base enclosed. 2 activated charcoal filters enclosed ex factory. Filter is suitable for the preparation of fish and seafood due to special treatment. Filter replacement interval: 1 year depending on cooking frequency.

Planning notes

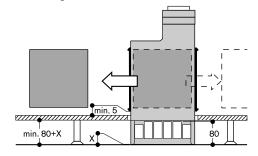

Powerful remote fan unit to combine with Vario downdraft ventilation 400 and 200 series. Connection to the respective appliances via network cable. Installation in a cupboard possible with a cut-out in the furniture base or behind the cupboard positioned on the floor. Please refer to the planning information on page 210 – 212. To replace the filter the remote fan unit must be accessible. The charcoal filter exchange is possible from both sides.

Connection

Total connected load 170 W. Connecting cable 1.8 m, pluggable. Network cable 5 m.

Filter exchange

AR 403 122

Metal housing Max. air output 890 m³/h Air extraction Plinth installation

Special accessories

AA 400 510

Window contact switch Can be combined with motorless appliances 400 series and Vario downdraft ventilation 200 series.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Remote fan unit 400 and 200 series AR 403

- Powerful remote fan unit to combine with motorless appliances 400 series and Vario downdraft ventilation 200 series
- Efficient BLDC technologyCompact and space-saving
- installation in a 10 cm high plinth

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air extraction: 730 / 890 m³/h. Power levels depend on the motorless appliances, see table on page 294 – 295.

Features

3 electronically controlled power levels and one intensive mode. Fan technology with highly efficient, brushless DC motor (BLDC). Steel housing, zinc-plated. Pipe connection pieces on intake side:

1 x DN 150 round. Pipe connection pieces on output side: 1 x DN 150 flat duct.

Retaining bracket for installation on the ceiling or side of a cupboard enclosed.

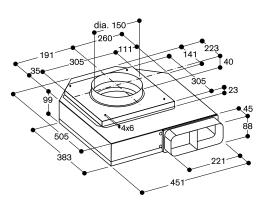

Planning notes

Remote fan unit in combination with motorless appliances 400 series and Vario downdraft ventilation 200 series. Connection to the respective appliances via network cable.

Installation in the plinth with cut-out for the air ducting in the furniture base. Connection of AL 400 with an air collector box (AD 704 048, AD 704 049). When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Connection

Total connected load 180 W. Connecting cable 1.8 m, pluggable. Network cable 2 m.

AR 413 122

Metal housing Max. air output 850 m³/h Air recirculation Plinth installation

Installation accessories AA 010 410

Air exhaust grille air recirculation Stainless steel-coloured, 90 cm, including installation fittings, height adjustable.

Special accessories

AA 413 111 2 activated charcoal filter For air recirculation. Combinable with remote fan unit AR 413 122.

Installation accessories for the air recirculation ducts you will find at the pages 272 – 285.

Remote fan unit 400 and 200 series AR 413

- Powerful remote fan unit to combine with motorless appliances 400 series and Vario downdraft ventilation 200 series
- Efficient BLDC technology Compact and space-saving _
- installation in a 10 cm high plinth

Output

Performance output level 3/Intensive: Air output according to EN 61591. Sound power and sound pressure depending on built-in situation. Air recirculation: 680 / 850 m³/h. Power levels depend on the motorless appliances, see table on page 294 - 295.

Features

3 electronically controlled power levels and one intensive mode. Fan technology with highly efficient, brushless DC motor (BLDC). Steel housing, zinc-plated.

Pipe connection pieces on intake side: 1 x DN 150 round.

Retaining bracket for installation on the ceiling or side of a cupboard enclosed. 2 activated charcoal filters enclosed ex factory.

Filter is suitable for the preparation of fish and seafood due to special treatment.

Filter replacement interval: 1 year depending on cooking frequency.

Planning notes

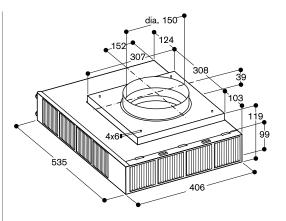

Remote fan unit in combination with motorless appliances 400 series and Vario downdraft ventilation 200 series.

Connection to the respective appliances via network cable. Installation in the plinth with cut-out for the air ducting in the furniture base. Filter replacement interval: 1-1.5 years depending on cooking frequency. It must be possible to remove the plinth to replace the filter. Recommended minimum gap between filter openings and cupboard wall if

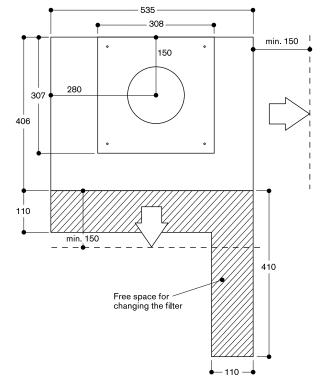

there is no ventilation grille directly in front: 15 cm.

Connection

Total connected load 180 W. Connecting cable 1.8 m, pluggable. Network cable 2 m.

Performance of ventilation system

Performance and noise level, output level 3/Intensive: Air output according to EN 61591. Sound power level according to EN 60704-3 Sound pressure level according to EN 60704-2-13. Odour reduction for air recirculation in accordance with EN 61591. Air extraction: 530 / 690 m³/h. 69 / 75 dB (A) re 1 pW. 57 / 63 dB (A) re 20 µPa. Air recirculation: 505 / 620 m³/h. 71 / 75 dB (A) re 1 pW. 59 / 63 dB (A) re 20 µPa. Odour reduction air recirculation 89 %.

Handling

Twist-Pad control with removable magnetic knob. User friendly control with bicoloured display (white / orange). Cooking zone and cooking area marking. Electronic power control of the cooking zone in 17 output levels. Control of ventilation system with 3 electronically controlled power levels and 1 intensive mode.

Features

Flex function for rectangular cooking areas. Automatic pot detection when the cooktop is switched on. Professional cooking function. Cooking sensor function (in use with cooking sensor CA060300). Frying sensor function. Booster function for pots. Booster function for pans. Keep warm function.

Automatic sensor-controlled performance adjustment of the ventilation system. Automatic activation of the ventilation system when a cooking zone is used. Interval ventilation, 6 min. Sensor-controlled run-on function. Grease filter and air recirculation filter saturation indicator. Removable, dishwasher-safe grease filter unit. Enamelled, dishwasher-safe cover for ventilation system. Fan technology with highly efficient, brushless DC motor (BLDC). Airflow-optimised interior for efficient air circulation. Stonwatch Cooking timer for up to 99 minutes. Short-term timer. Memory function. Options menu.

Power management.

Consumption data

Energy efficiency class A at a range of energy efficiency classes from A++ to F Energy consumption 49.5 kWh/year. Ventilation efficiency class A. Ilumination efficiency class -. Grease filter efficiency class B. Sound level min. 61 dB / max. 69 dB normal mode.

Safety

Main switch. Operation indicator Pot detection. 2-stage residual heat indication. Child lock. Safety shut-off. Detachable, dishwasher-safe two-stage overflow protection. Removable overflow container. 2-litre capacity, dishwasher-safe. Grease filter detection.

Planning notes

Bottom cabinet width: min. 80 cm. Worktop depth: min. 60 cm, with shortened drawers. Full drawer depth can be used from 70 cm. Immersion depth 205 mm. Ducting system for air extraction or air recirculation must be ordered separately as a special accessory. Connection piece for air extraction: flat duct DN 150. In air extraction a one-way flap with a maximum opening pressure of 65 Pa should be installed. For optimum performance in air recirculation we recommend an outflow surface area of at least 720 cm². Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. Appliance must be fixed from underneath. Appliance weight: approx. 29 kg. The appliance must be freely accessible from below.

When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

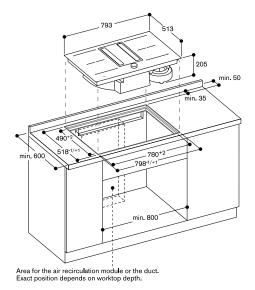

The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads. Installation is possible in worktops made of stone, synthetics or solid wood. Heat resistance and watertight sealing of the cut edges must be observed. Concerning other materials please consult the worktop manufacturer. The groove must be continuous and even, so that uniform placing of the appliance on the gasket is ensured. Do not use discontinuous lining. Joint width may vary due to dimensional tolerances of the glass ceramic cooktop and the worktop cut-out.

Please read the installation details regarding air ducting on page 256 - 257.

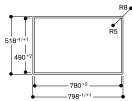

Connection

Total connected load 7.4 kW. Connecting cable 1.5 m without plug.

Keep warm function. Automatic sensor-controlled performance adjustment of the ventilation system. Automatic activation of the ventilation system when a cooking zone is used. Interval ventilation, 6 min. Sensor-controlled run-on function. Grease filter and air recirculation filter saturation indicator. Removable, dishwasher-safe grease filter unit. Enamelled, dishwasher-safe cover for ventilation system. Fan technology with highly efficient, brushless DC motor (BLDC). Airflow-optimised interior for efficient air circulation. Stopwatch. Cooking timer for up to 99 minutes. Short-term timer.

Memory function. Options menu. Power management.

Consumption data

Energy efficiency class A at a range of energy efficiency classes from A++ to E. Energy consumption 49.5 kWh/year. Ventilation efficiency class A. Ilumination efficiency class A. Grease filter efficiency class B. Sound level min. 61 dB / max. 69 dB normal mode.

Safety

Main switch. Operation indicator. Pot detection. 2-stage residual heat indication. Child lock. Safety shut-off. Detachable, dishwasher-safe two-stage overflow protection. Removable overflow container, 2-litre capacity, dishwasher-safe. Grease filter detection.

Planning notes

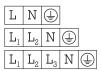

Bottom cabinet width: min. 80 cm. Worktop depth: min. 60 cm, with shortened drawers. Full drawer depth can be used from 70 cm. Immersion depth 204 mm. Ducting system for air extraction or air recirculation must be ordered separately as a special accessory. Connection piece for air extraction: flat duct DN 150. In air extraction a one-way flap with a maximum opening pressure of 65 Pa should be installed. For optimum performance in air recirculation we recommend an outflow surface area of at least 720 cm² Operates with magnetic (induction) iron pots and pans only. For an optimal heat distribution, the use of sandwich bottom cookware is recommended. Appliance must be fixed from underneath Appliance weight: approx. 31 kg. The appliance must be freely accessible from below.

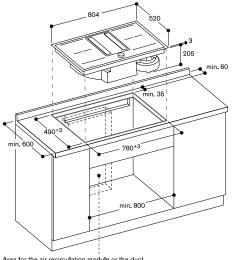

When installing a ventilation hood with air extraction mode and a chimney-vented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch. The bearing capacity and stability, in the case of thin worktops in particular, must be supported using suitable substructures. Take into account the appliance weight and additional loads.

Please read the installation details regarding air ducting on page 256 – 257.

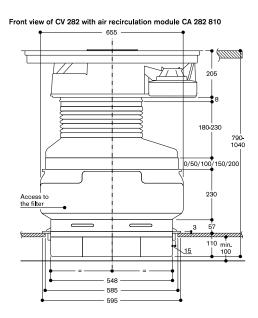

Connection

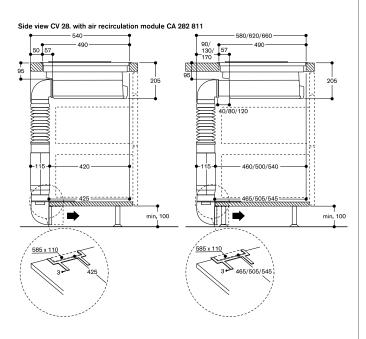

Total connected load 7.4 kW. Connecting cable 1.5 m without plug.

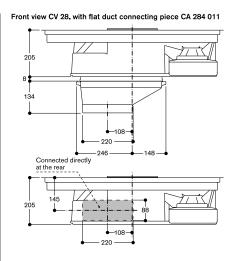

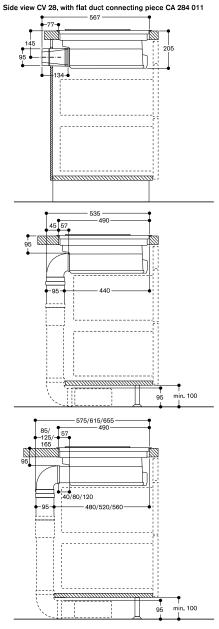

Area for the air recirculation module or the duct. Exact position depends on worktop depth.

Planning examples for flex induction cooktop with integrated ventilation system 200 series

Good to know - for correct planning and installation

- For depth measurements, take account of the depth of the furniture cavity and worktop overhangs of the kitchen furniture.
- The air extraction ducting can be connected to below or to the rear. The respective connecting pieces are available for this purpose.
- The appliance must be accessible from underneath.

Air recirculation

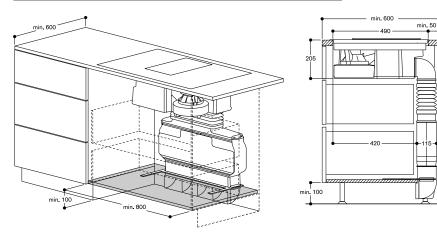

- Installation with the air recirculation module CA 282 811 (available as a special accessory).
- Filters can be replaced from the front or rear. Accessibility needs to be determined during installation already.
- Allow accessibility to air recirculation module in the lower cabinet for replacing the filter.
- For optimum performance, the recirculated air requires sufficient space to escape (outflow surface area of at least 720 cm²).
- Connection piece for air extraction: flat duct DN 150.
- The recommended minimum distance between filter openings and cupboard wall if there is no ventilation grille directly in front: 20 cm.

Planning example 1

CV 282 with air recirculation module CA 282 811

Wall installation, worktop depth 60 cm,

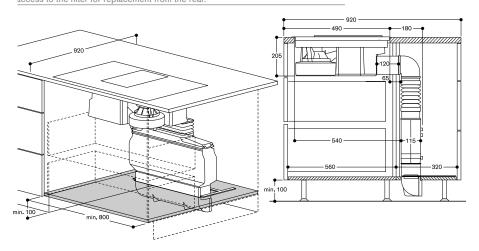

access to the filter for replacement from the front.

Planning example 2

CV 282 with air recirculation module CA 282 811

Island installation, worktop depth 92 cm, access to the filter for replacement from the rear

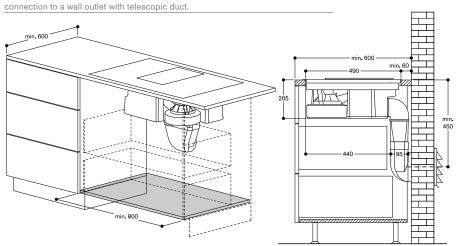

Air extraction

- Installation with the flat duct connecting piece CA 284 011 (available as a special accessory).
- Maximum length of the air extraction ducting system 6 m to assure good performance.
- For optimum air circulation, we recommend ducts with DN 150. Ducting and connection pieces are available as special accessories.
- Two flat ducts must be connected with a pipe connector.
- It is also important that ducting is well sealed in order to prevent air leaks, e.g. by using the adhesive tape AD 990 090 (UV- and heat-resistant).

Planning example 3

Odour reduction for air recirculation in accordance with EN 61591. Air extraction: 380 / 690 m³/h. 54 / 66 dB (A) re 1 pW. 50 / 54 dB (A) re 20 µPa. Air recirculation: 380 / 660 m³/h. 57 / 69 dB (A) re 1 pW. 43 / 55 dB (A) re 20 µPa. Odour reduction air recirculation 94%.

Features

Controls at front. 3 electronically controlled power levels and 1 intensive mode. Automatic function with sensorcontrolled run-on function. Grease filter saturation indicator. Stainless steel grease filter, dishwasher-safe. Neutral white LED light (3500 K), continuously dimmable. Lamp output 2x3W. Illuminance 683 lx. Light can be switched on separately. Fan technology with highly efficient, brushless DC motor (BLDC). Integrated sound insulation for guiet operation The fan is activated when the steam screen is extended. Patented technology for extension of the steam screen. Extendable steam screen 198 mm. Airflow-optimised interior for efficient air circulation and ease of cleaning. Patented easy mounting system for simple installation. The package includes an one-way flap.

Consumption data

Energy efficiency class A at a range of energy efficiency classes from A++ to E. Energy consumption 34 kWh/year. Ventilation efficiency class A.

llumination efficiency class A. Grease filter efficiency class B. Sound level min. 41 dB / max. 54 dB normal mode.

Planning notes

Patented air recirculation module with activated charcoal filter can be installed in the upper cabinet. The activated carbon filter can be changed from the front by simply pulling out the activated charcoal filter. The door of the upper cabinet must be fully open in order to change the activated charcoal filter. To be installed in an upper cabinet without base. The required cavity depth of the upper cabinet together with the lowering frame measures 335 mm. The required cavity height of the upper cabinet together with the lowering frame measures 600 mm. Clearance above gas appliances min. 65 cm (more than total load gas 12 kW min. 70 cm). Clearance above electric appliances min. 43 cm. When installing a ventilation hood with air extraction mode and a chimney-

Features

3 electronically controlled power levels and 1 intensive mode. Remote control is available as a special accessory. Interval ventilation, 6 min. Run-on function, 6 min. Grease filter saturation indicator. Metal grease filter, dishwasher-safe. Glas filter cover. Neutral white LED light (4000 K), dimmable. Lamp output 2 x 1 W. Illuminance 266 lx. Fan technology with highly efficient, brushless DC motor (BLDC).

Consumption data

Energy efficiency class A++/A++/A++ at a range of energy efficiency classes from A++ to E. Energy consumption 25.5/30.3/29.6 kWh/year. Ventilation efficiency class A/A/A. Ilumination efficiency class A/A/A. Grease filter efficiency class D/D/D. Sound level min. 41/42/44 dB / max. 64/65/67 dB normal mode.

Planning notes

Patented air recirculation module with activated charcoal filter can be installed in the upper cabinet. The activated carbon filter can be changed from the front by simply pulling out the filter drawer.

The door of the upper cabinet must be fully open in order to change the

activated charcoal filter. Can be integrated invisibly in upper cabinet.

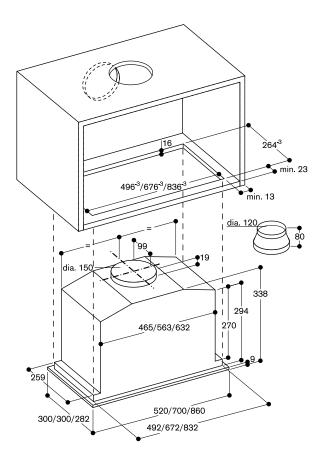

Vario cooktops with intensive production of vapours like VR/VP should be placed in the middle beneath the hood (in this case air recirculation is not recommended). Clearance above gas appliances min. 65 cm (more than total load gas 12 kW min. 70 cm).

Clearance above electric appliances min. 50 cm.

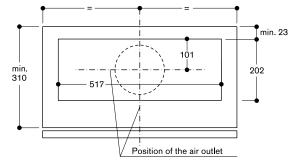

When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch.

Connection

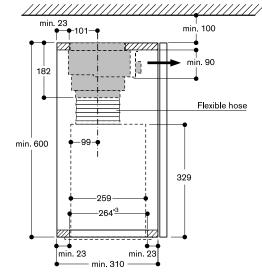

Total connected load 172/172/172 W. Connecting cable 1.0 m with plug.

Air recirculation module with activated charcoal filter

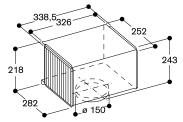

AA 442 810 Air recirculation module with activated

charcoal filter For air recirculation. Can be combined with island and wall-mounted hood AI 442/AW 442. Odour reduction comparable to air extraction mode (95%). Noise reduction of up to 3 dB when compared to conventional air recirculation filter systems. Extended change interval for the activated charcoal filter (approx. 1-1.5 years depending on cooking frequency). For installation on the inner chimney. Consisting of filter bracket, 2 activated charcoal filter, flexible hose and 2 hose clamps.

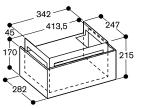

AA 200 812

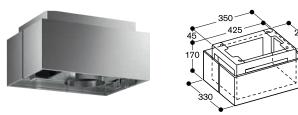

For air recirculation. Can be combined with wall-mounted hoods AW 240 Odour reduction comparable to air extraction mode (95%). Noise reduction of up to 3 dB when compared to conventional recirculation filter systems. Extended change interval for the activated charcoal filter. For installation on the external chimney or internal chimney. Includes design panel, wall fastening, activated charcoal filter, flexible hose and 2 hose clamps

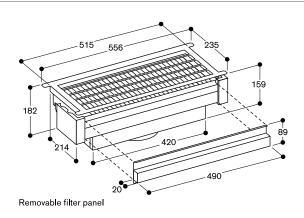

AI 240.

AA 200 816

For air recirculation.

Odour reduction comparable to air extraction mode (95%). Noise reduction of up to 3dB when compared to conventional air recirculation filter systems. Extended change interval for the activated charcoal filter. For installation on the internal chimney. Includes design panel, activated charcoal filter, flexible hose and 2 hose clamps.

Can be combined with island hoods

AA 211 812

Patented air recirculation module including 1 activated charcoal filter with high efficient odour reduction due to increased surface For air recirculation. Can be combined with flat kitchen hood series 200/canopy extractor 200 series. Odour reduction comparable to air extraction mode (95%). Noise reduction of up to $3 \, \text{dB}$ when compared to conventional air recirculation filter systems. Extended change interval for the activated charcoal filter. For assembly in the upper cabinet. Consisting of filter housing with design panel, activated charcoal filter, flexible hose and 2 hose clamps.

AA 010 811 Stainless steel AA 012 811 White

For air recirculation.

Can be combined with ceiling ventilation AC 250 and AC 402. Odour reduction comparable to air extraction mode (95%). Comprises design panel, wall mount, activated charcoal filter, flexible pipe and 2 hose clamps. Pipe connection to the front, sidewards or at the top.

Connecting pipe DN 150 round. Recommended minimum gap between filter openings and wall: 100 cm.

Air recirculation module for CV 28. CA 282 811

For air recirculation. Can be combined with the flex induction cooktop with integrated ventilation system CV 28.

For installation in the cabinet. Plinth height min. 10 cm. For optimum performance, the recirculated air requires sufficient space in the plinth to escape (outlow surface

area at least 720 cm²). Odour reduction air recirculation 89%. Extended change interval for the activated charcoal filter (approx. 1–1.5 years depending on cooking frequency). Filters can be replaced from the front or rear. Accessibility needs to be determined during installation already. Allow accessibility to air recirculation module in the lower cabinet for replac-

ing the filter. Consists of 1 x 90° bend and 3 extensions for deeper worktops, 1 activated charcoal filter, flexible hose, 4 extensions for height adjustment, 1 x 90° bend with diffuser for the plinth and 1 air recirculation module mount.

AD 442 392 for AW 442 AD 442 396 for AI 442 AD 200 392 for AW 240 AD 220 396 for AI 240 Ceiling collar for air chimneys Stainless steel/aluminium-lacquered

Covers the fixing screws of wall and island air chimneys as well as uneven gaps at not exactly horizontal ceilings. Allows the installation of customised one-piece wall chimneys and island chimneys without telescope.

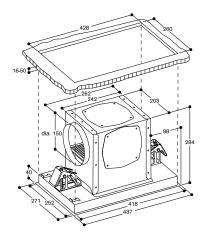

Features Ceiling fixture for duct and clip-on cover in the color of chimney.

Planning notes

Available for most of the Gaggenau chimney dimensions to fit with standard chimneys.

Ovens 400 series

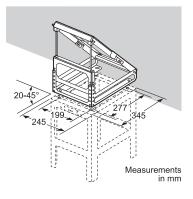

Accessories | special accessories for ventilation appliances

AD 223 356

Adapter for island hood AI 240. For installation on a slanted roof to the left or to the right. Suitable for slanted roof from 20-45 degrees.

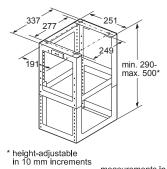

Extension for mounting kit for island hood AI 240 AD 223 346

For a chimney height of 1100–1500 mm. Appliance height is dependent on the structure (cabinet height).

measurements in mm

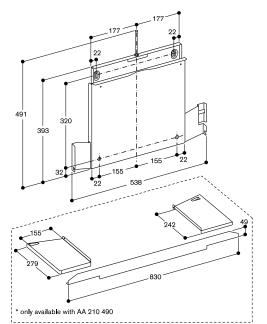

AA 210 490

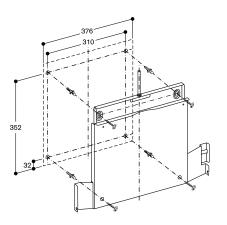

Lowering frame for 90 cm flat kitchen hood

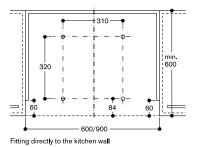

AA 210 460 Lowering frame for 60 cm flat kitchen hood

Can be combined with flat kitchen hood series 200. The patented lowering frame allows the flat kitchen hood to disappear completely into the upper cabinet. For assembly directly on the kitchen wall or reinforced upper cabinet. For assembly in the upper cabinet. The required cavity depth of the upper cabinet together with the lowering frame measures 335 mm. In combination with a back wall panel >5 mm the lowering frame needs to be lined and the cavity depths must be adapted accordingly.

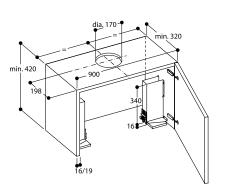

AA 210 491

Assembly kit for 90 cm upper cabinet Can be combined with the 90 cm wide flat kitchen hoods 200 series. Flat kitchen hood of 200 series For left/right assembly in upper cabinets.

For assembly in the upper cabinet. If the lowering frame AA 210 490 is used, the assembly kit is not needed

Accessories | special accessories for ventilation appliances

CA 230 100

Black magnetic knob for induction cooktop 200 series Stainless steel knob with black coating.

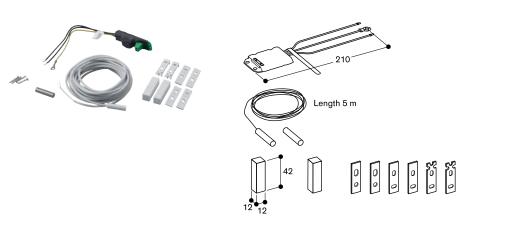

AA 400 510

Window contact switch Can be combined with motorless appliances 400 series. When installing a ventilation hood with air extraction mode and a chimneyvented fireplace, the power supply line of the ventilation appliance needs a suitable safety switch. The window contact switch is suitable

for this purpose.

The ventilation appliance only works when the window is open if a window contact switch is connected. The lighting works even if the window is closed.

AA 200 510 Remote control for canopy extractor AC 200

Wall outlet

Wall outlets are available that are suitable for providing a clean, efficient and unobtrusive method of routing ducting through outside walls. The aperture should always correspond to, or be bigger than, the nominal width of the type of pipe used.

AD 700 051

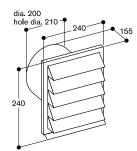

Wall outlet Stainless steel DN 200 round

Little loss of airflow due to large stainless steel outlet louvers.

Features Weatherproof stainless steel louvers. Integrated one-way flap. Connecting piece DN 200 round

Planning notes For use with telescopic wall-duct AD 702 Wall breakthrough ø 210 mm

AD 850 050 Wall outlet

Stainless steel DN 150 flat

Little loss of airflow due to large stainless steel outlet louvers. Compact dimensions by flat structure. Connecting piece flat duct DN 150.

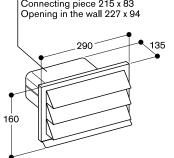

Features

Weatherproof stainless steel louvers. Integrated one-way flap.

Planning notes

Direct connection of flat duct DN 150 without pipe connector. Wall breakthrough 230 x 110 mm.

Connecting piece 215 x 83 Opening in the wall 227 x 94

300-500 Silikon

DN 200 round Features

Telescopic wall-duct

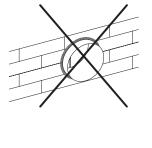

AD 702 052

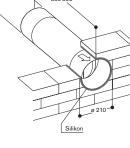

Connecting piece DN 200 round. Integrated one-way flap.

Planning notes

For use with wall outlet AD 700 051 or remote fan unit AR 401.

AD 750 053

Wall outlet with telescopic duct Stainless steel/plastic DN 150 round Optimal temperature insulation. Hermetically sealed by an optimized

built-in heat retention system. Flat stainless steel cover with minimal effect to the aesthetics of the building exterior facade.

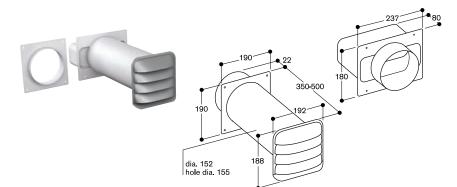

Features

Weatherproof stainless steel louvres. 3-times insulating Backflow system. Magnetic opening and closing. Defined opening pressure (65 Pa) prevents rattling. Full opening even at low flow rates.

Telescopic wall duct 350 - 500 mm for round pipe connection piece DN 150.

Planning notes

Conform to blower-door test. For connection of round pipe DN 150 or flat pipe DN 150. Wall breakthrough ø 155 mm.

Excellent performance thanks to optimal ducting and installation.

Intelligently selecting and installing the duct system not only has a very positive effect on the output of the ventilation system; it also minimises the noise generated. It is therefore decisive for the efficiency of the entire ventilation system.

The duct type.

In Gaggenau's accessories catalogue, customers can select the type of duct appropriate to their needs, whether aluflex pipe, round duct or a flat duct system. Depending on the duct type, they can choose from the nominal sizes DN 150 and DN 200. For maximum output with minimal noise, the diameter should always be as large as possible.

For straight ducting, the use of plastic or metal ducts with smooth, level inner surfaces is recommended. These enable a laminar flow of air during extraction, without air turbulence. For sections that are not straight and for bends, aluflex pipe are preferred because they make it possible to avoid hard edges.

Where space limitations are a concern, the first choice is the Gaggenau flat duct system. The remarkable design with special conducting fins in the bends and junction pieces allow for a very low hight and large nominal size, thus ensuring very efficient air circulation. This also applies in situations where there are many bends. We strongly discourage the use of other flat ducts due to the high output losses in duct bends, duct corners and junction pieces.

Spiral and corrugated ducts should definitely not be used. In addition to displaying the worst flow conditions, these types also tend to flutter and thus generate noise.

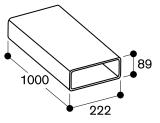

The duct diameter.

A good guideline here is: The duct diameter should be as large and constant as possible, while the ducting should be as short and straight as possible. The wall outlet must correspond to the duct diameter.

AD 852 010

Flat duct Plastic DN 150 flat Length 1000 mm

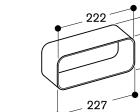

82

AD 852 040

Flat duct pipe connector Plastic DN 150 flat

Planning notes

Flat duct pipe connector necessary for: Combination of 2 flat ducts and direct connection of flat duct to AD 854 046 and AD 854 048, also direct connection remote fan AR 403.

AD 852 030

Flat duct bend 90° vertical Plastic DN 150 flat

Planning notes

For connecting 2 duct bends together (e.g. 90° horizontal duct bend and a 90° vertical duct bend), a piece of flat duct is required, which can be shortened to the required length by cutting it to size.

AD 852 031

Flat duct bend 90° horizontal Plastic DN 150 flat

Planning notes

For connecting 2 duct bends together (e.g. 90° horizontal duct bend and a 90° vertical duct bend), a piece of flat duct is required, which can be shortened to the required length by cutting it to size.

AD 852 032

Flat duct bend 15° horizontal Plastic DN 150 flat

Planning notes

Suitable for providing compensation in cases where there is a slight offset in the duct guide or for duct guides which are not seated square in cramped spaces.

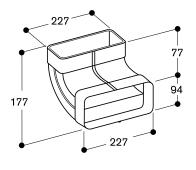

AD 853 010

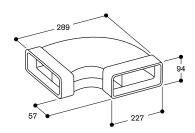

Flat duct system flex pipe Plastic DN 150 flat Length: 1000 mm

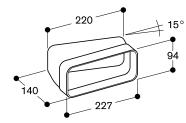

Planning notes

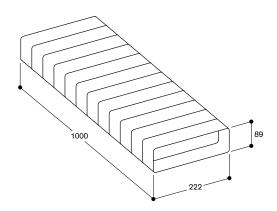

Recommended for the combination with the air collector box AD 704 049 and AL 400 downwards.

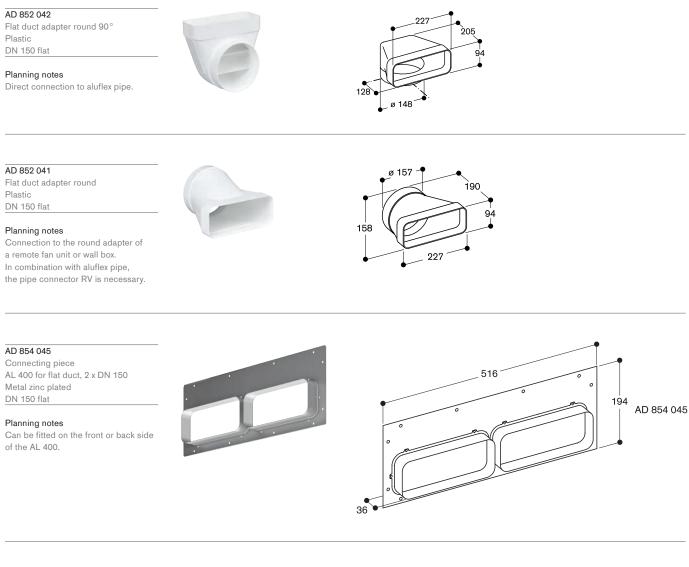

Accessories | special accessories for ventilation appliances

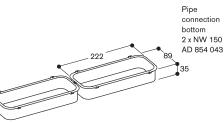

AD 854 043

Connecting piece AL 400 for flat duct, 2 x DN 150 Metal zinc plated DN 150 flat

Planning notes

Can be fitted on the underside of the AL 400. Set of two.

CA 284 011 Flat duct connecting piece for CV 28. Plastic

Planning notes

DN 150 flat

Can be combined with the flex induction cooktop with integrated ventilation system CV 28.. Consists of 1 x 90° bend and 3 extensions for deeper worktops. 1 connecting piece for flat duct DN 150

54

88

AD 854 046

Flat duct connecting piece for VL 414 Metal zinc plated with plastic DN 150 flat

Planning notes

One piece needed for each VL 414 to be connected to flat ducts. Outlet to the left/right possible.

Ventilation moulding

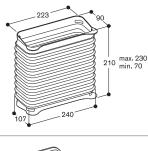

AA 414 010 Ventilation moulding for VL414 next to gas appliance.

Ventilation moulding LS 041 001 Ventilation moulding for VL 200 next to gas appliance.

AD 410 040

Flexibel connecting piece for VL 200 DN 150 flat

22:

416

221

95

AD 851 041

Connecting piece VL 200 for extension with flat duct DN 150 for extra deep worktop

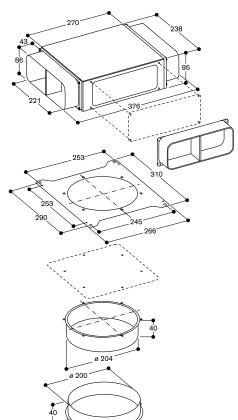

AD 854 048

Air collector box DN 150 flat duct

Planning notes

For connecting two filter modules AC 402, integrate a controle module with or without light in between: 2 x DN 150 flat duct air intake. 1 x DN 150 flat duct air outlet.

Accessories | special accessories for ventilation appliances

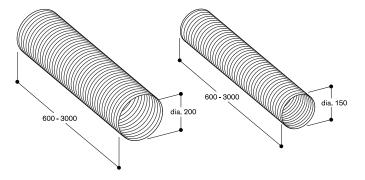

AD 751 010 Aluflex pipe Aluminium DN 150 round

Planning notes

Recommended only for routing ducting through air paths which are not in a straight line or for round wall and floor apertures. 2 hose clamps enclosed. For combination with all adapters, press the pipe wall flat at the ends. 2 aluflex pipes must be connected with a pipe connection piece for aluflex pipes.

Pipe connector for aluflex pipe Metal zinc plated DN 200 round

RV 040 150

Pipe connector for aluflex pipe Metal zinc plated DN 150 round

Planning notes

Pipe connector necessary when 2 aluflex pipes are combined.

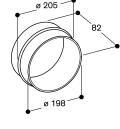

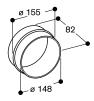

Round duct Plastic DN 150 round

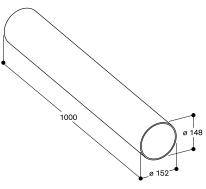

Planning notes

2 round ducts must be connected with the pipe connector AD 754 090.

Ovens 400 series

AD 754 090

Pipe connector for plastic pipe Plastic DN 150 round

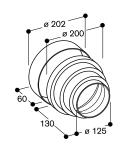

Planning notes 2 round ducts must be connected with the pipe connector AD 754 090.

AD 702 042

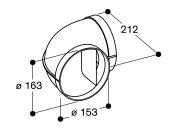

Pipe adapter for small diameter Metal zinc plated/plastic DN 200 round

AD 752 030 Duct bend 90° Plastic DN 150 round

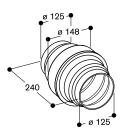

AD 752 070

Condensation trap Plastic DN 150 round

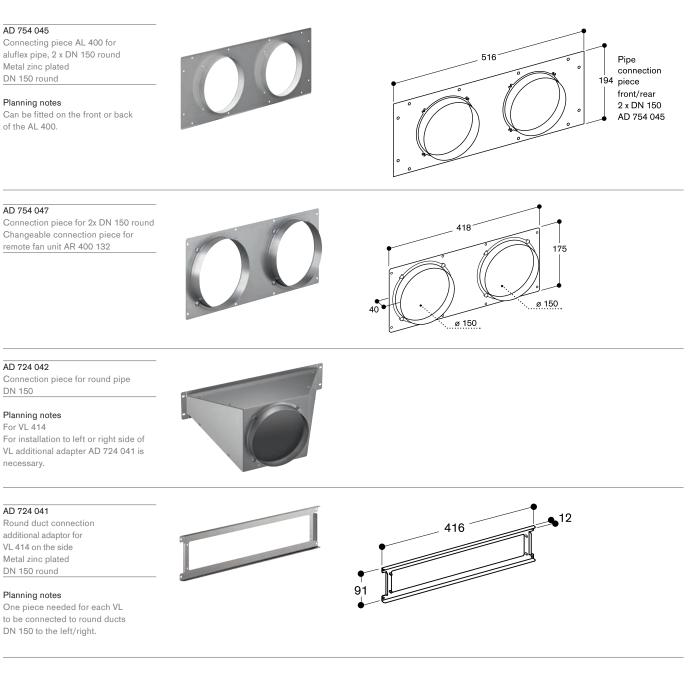

Planning notes

Recommended under vertical pipe sections. Installation on the bottom end of the pipe.

Accessories | special accessories for ventilation appliances

AD 990 090

Adhesive tape for duct components Plastic 10 m/roll

Planning notes

In order that ducting is well sealed and air leaks are consequently prevented, the adhesive tape AD 990 090 is necessary at all pipe connection piece points. The adhesive tape is heat- and UV-resistant.

SD 011 150

Silencer Aluminium DN 150 round

Planning notes

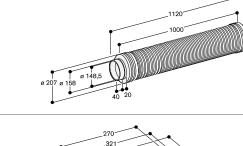

Noice reduction with straight installation approx. 2 dB(A), duct bend approx. 3-4 dB(A).

AD 754 048

Air collector box DN 150 round pipe

Planning notes

For connecting two filter modules AC 402, integrate a controle module with or without light in between: 2 x DN 150 round duct air intake. 1 x DN 150 round duct air outlet.

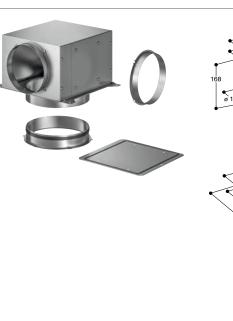

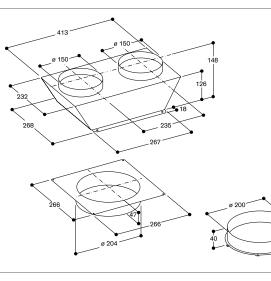

Air collector box round duct for AL 400 Metal zinc plated DN 150 round

Planning notes

2 x DN 150 round duct air intake. To connect 1 x AL 400 to AR 403/413. 1 x DN 200 air outlet.

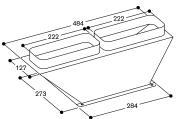

ø 150

Air collector flat duct for AL 400 Metal zinc plated DN 150 flat

Planning notes

2 x DN 150 flat duct air intake To connect 1 x AL 400 to remote fan AR 403 / AR 413 bottom side. To connect the AL 400 and the remote fan AR 403 / AR 413 the flex duct AD 853 010 is possible and can be shortened to the appropriate length. The package includes four cable straps for fixing the flex duct AD 853 010.

RY 492 304

With fresh cooling close to 0 °C Fully integrated Niche width 91.4 cm, Niche height 213.4 cm Cooling section with two doors and one fully extendable freezing drawer

Included in the price

- 1 egg holder with lid
- 1 ice cube scoop

Installation accessories RA 421 912

Stainless steel door panels with handles

For RY 492, panel thickness 19 mm. RA 423 340

Side trims, 2 pieces, for RY and RB.

RA 425 110

Handle bar, stainless steel, long With 3 mounts, length 1131 mm, drilling distance between each mount 554 mm.

RA 425 910

Handle bar, stainless steel, short For RB/RY 492, with 2 mounts, length 810 mm, drilling distance between the mounts 787 mm.

RA 428 912

Stainless steel door panels, handleless For RY 492, panel thickness 19 mm. RA 460 000

Accessory for side-by-side installation. Required if appliances are installed handle to handle. Not required if appliances are installed more than 160 mm apart from each other. Included in delivery for RF and RW.

RA 460 013

Additional side heating element 230 V. Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed more than 160 mm apart from each

other. RA 460 030

Connecting element for vertically split fronts (for fridge-freezer combination). RA 464 910

Ventilation grille stainless steel

For RB/RY 492.

Special accessories

RA 430 100 Storage container with transparent lid, anthracite. RA 450 000 Mechanical particle filter. RA 450 010

Activated charcoal filter for water filter system including saturation indicator.

Vario fridge-freezer combination 400 series RY 492

- Stainless steel interior with solid anthracite aluminium elements
- Warm white and glare-free LED light spots
- Opening assist for door with two options:
- 1. Push-to-open function for integration into handleless furniture front
- 2. Pull-to-open function to facilitate opening the door using a handle
 Flat stainless steel inner doors
- Almost invisible rail system for shelves and door racks for flexible positioning
- Solid anthracite aluminium door racks
- 1 fresh cooling drawer close to 0 °C with manually adjustable temperature and 1 fresh cooling drawer with manually adjustable humidity
- Integrated ice maker with fixed inlet water connection
- 1 asymmetricly split glass shelf, height adjustable
- Fully extendable freezer drawer with practical divider in anthracite
- TFT touch displayNet volume 518 litres

Handling TFT touch display operation. Clear text display.

Technical Features

Dynamic cold air distribution. Automatic defrosting with defrost water evaporation. Cushioned door closing system. Activated charcoal air filter. Rest mode certified by Star-K. When rest mode is active, the appliance can only be opened using a handle. Open-door and malfunction alarm.

Home network integration for digital services (Home Connect) wireless via WiFi

The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Cooling

No-Frost technology with fast cooling. Temperature adjustable from +2 °C to +8 °C. 3 safety glass shelves, white glass, 2 of which are individually adjustable in height. 1 asymmetrically split safety glass shelf, with manual height adjustment. 4 brilliant LED light spots with warm white, glare-free light within cooling area and drawers. Flat door rail system with fully flexible

positioning of door racks. 6 height-adjustable door racks, 2 of which are extra deep. Net volume 344 litres.

Fresh cooling close to 0 °C

1 fully extendable fresh cooling drawer close to 0 °C with transparent front, illuminated. Temperature can be adjusted manually. Ideal for meat, fish and poultry. Net volume 34 litres.

Fresh cooling

1 fully extendable fresh cooling drawer with transparent front, illuminated. Humidity can be adjusted manually. Ideal for fruit and vegetables.

Freezing

No-frost technology with fast freezing at -30 ° C. Temperature adjustable from -16 ° C to -24 ° C. 4-star freezer compartment. Freezing capacity 16 kg/24 h. Storage time after a malfunction 17 h. 2 fully extendable drawers. Interior lighting with 2 LED light spots, warm white light. Net volume 140 litres.

Ice maker

Integrated in the freezer compartment, with fixed inlet water connection. Particle filter for water inlet, integrated in ventilation grille area. Can be switched off. Ice cube production approx. 1.6 kg/24 h. Removable ice storage container with approx. 3 kg capacity.

Consumption data

Energy efficiency class A++ at a range of energy efficiency classes from A+++ to D. Energy consumption 346 kWh/year. Noise level 42 dB (re 1 pW).

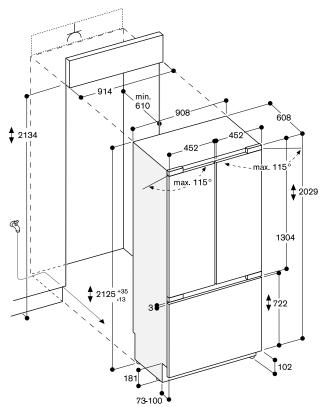

Planning notes

Flat hinge. Door opening angle of 115°, fixable at 90°. Max. door panel weight: Each door 67 kg. Drawer 10 kg. Shut-off valve for water connection must be planned next to the appliance and always be accessible. If the water pressure exceeds 0.8 MPa (8 bar), connect pressure relief valve between water tap and hose set.

Please read additional planning notes on page 326 – 333.

Connection

Total connected load 0.300 kW. Connecting cable 3.0 m, pluggable. Water inlet. Supply hose 2.0 m with 3/4 " connection. Water pressure 2 to 8 bar.

The maximum door panel dimensions are based on a clearance of 3 mm.

RB 492 304

With fresh cooling close to 0 °C Fully integrated Niche width 91.4 cm, Niche height 213.4 cm Cooling section with one door and one fully extendable freezing drawer

Cooling

- No-Frost technology with fast cooling. Temperature adjustable from +2 °C to +8 °C. 3 safety glass shelves, white glass, 2 of which are individually adjustable in height. 4 brilliant LED light spots with warm white, glare-free light within cooling area and drawers. Flat door rail system with fully flexible positioning of door racks. 3 height adjustable door racks,
- 1 of which is extra deep. Net volume 347/281 litres.

RA 460 013

Additional side heating element 230 V. Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed more than 160 mm apart from each other.

RA 460 030

Connecting element for vertically split fronts (for fridge-freezer combination).

RA 464 710 Ventilation grille stainless steel

For RB 472 with integrated water filter. RA 464 910

Ventilation grille stainless steel For RB/RY 492.

Special accessories

RA 430 100 Storage container with transparent lid, anthracite.

RA 450 000

Mechanical particle filter.

RA 450 010

Activated charcoal filter for water filter system including saturation indicator.

Fresh cooling close to 0 °C

1 fully extendable fresh cooling drawer close to 0 °C with transparent front, illuminated. Temperature can be adjusted manually. Ideal for meat, fish and poultry. Net volume 34/27 litres.

Fresh cooling

1 fully extendable fresh cooling drawer with transparent front, illuminated. Humidity can be adjusted manually. Ideal for fruit and vegetables.

Freezing

No-frost technology with fast freezing at -30 °C. Temperature adjustable from -16 °C to -24 °C. 4-star freezer compartment. Freezing capacity 16/14 kg/24 h. Storage time after a malfunction 17/17 h. 2 fully extendable inside drawers. Interior lighting with 2 LED light spots, warm white light. Net volume 140/110 litres.

Ice maker

Integrated in the freezer compartment, with fixed inlet water connection. Particle filter for water inlet, integrated in ventilation grille area. Can be switched off. Ice cube production approx. 1.6/1.7 kg/24 h. Removable ice storage container with approx. 3/3 kg capacity.

Consumption data

Energy efficiency class A++/A++ at a range of energy efficiency classes from A+++ to D. Energy consumption 347/301 kWh/year. Noise level 42/42 dB (re 1 pW).

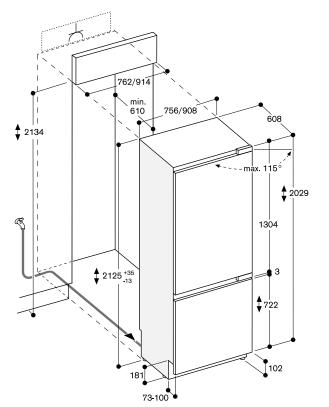

Planning notes

Flat hinge. Door hinge right, reversible. Door opening angle of 115°, fixable at 90°. Max. door panel weight: Door 47/41 kg. Drawer 10/10 kg. Shut-off valve for water connection must be planned next to the appliance and always be accessible. If the water pressure exceeds 0.8 MPa (8 bar), connect pressure relief valve between water tap and hose set.

Please read additional planning notes on page 326 – 333.

Connection

Total connected load 0.300/0.300 kW. Connecting cable 3.0 m, pluggable. Water inlet. Supply hose 2.0 m with 3/4 " connection. Water pressure 2 to 8 bar.

The maximum door panel dimensions are based on a clearance of 3 mm.

RC 492 304

With fresh cooling 0 °C Fully integrated Niche width 91.4 cm, Niche height 213.4 cm

RC 472 304 With fresh cooling 0 °C Fully integrated Niche width 76.2 cm.

With fresh cooling 0 °C Fully integrated Niche width 61 cm. Niche height 213.4 cm

Included in the price

1 egg holder with lid

Installation accessories RA 421 610

Stainless steel door panel with handle For 61 cm wide appliances, panel

thickness 19 mm. RA 421 710

Stainless steel door panel with handle For 76.2 cm wide appliances, panel thickness 19 mm.

RA 421 911

Stainless steel door panel with handle For 91.4 cm wide appliances, panel thickness 19 mm.

RA 423 140

Side trims, long

RA 425 110 Handle bar, stainless steel, long

With 3 mounts, length 1131 mm. drilling distance between each mount 554 mm.

RA 428 610

Stainless steel door panel, handleless For 61 cm wide appliances, panel thickness 19 mm.

RA 428 710

Stainless steel door panel, handleless For 76.2 cm wide appliances, panel thickness 19 mm.

RA 428 911

Stainless steel door panel, handleless For 91.4 cm wide appliances, panel thickness 19 mm.

RA 460 000

Accessory for side-by-side installation. Required if appliances are installed handle to handle. Not required if appliances are installed more than 160 mm apart from each other. Included in delivery for RF and RW.

Vario refrigerator 400 series RC 492/RC 472/RC 462

- Stainless steel interior with solid anthracite aluminium elements
- Warm white and glare-free LED light spots
- Opening assist for door with two options: 1. Push-to-open function for
- integration into handleless furniture front 2. Pull-to-open function to facilitate

opening the door using a handle The drawers in the RC and RF

- models are positioned at the same height. With side-by-side installation, the glass shelves and door racks can be aligned on the same level
- Flat stainless steel inner door, full-length
- Almost invisible rail system for shelves and door racks for flexible positioning
- Solid anthracite aluminium door racks
- 1 fresh cooling drawer 0 °C with temperature control from -1 °C to +3 °C and 1 fresh cooling drawer with manually adjustable
- humidity TFT touch display
- Net volume 567/463/356 litres

Handling

TFT touch display operation. Clear text display.

Technical Features

Dynamic cold air distribution. Automatic defrosting with defrost water evaporation. Cushioned door closing system. Activated charcoal air filter. Rest mode certified by Star-K. When rest mode is active, the appliance can only be opened using a handle. Open-door and malfunction alarm.

Home network integration for digital services (Home Connect) wireless via WiFi

The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com

Please read additional information on Home Connect on page 420.

Cooling

- No-Frost technology with fast cooling. Temperature adjustable from +2 °C to +8 °C. 4 safety glass shelves, white glass, 3 of which are individually adjustable in heiaht. 1 shallow, fully extendable drawer with transparent front.
- 4 brilliant LED light spots with warm white, glare-free light within cooling area and drawers. Flat door rail system with fully flexible
- positioning of door racks.
- 3 height adjustable door racks,
- 1 of which is extra deep.
- Net volume 509/416/321 litres.

RA 460 013

Additional side heating element 230 V. Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed more than 160 mm apart from each other.

RA 460 020

Connecting element for vertically split appliance fronts (for a flush front).

RA 464 611 Ventilation grille stainless steel

For 61 cm wide appliances.

RA 464 711

Ventilation grille stainless steel

For 76.2 cm wide appliances RA 464 911 Ventilation grille stainless steel

For 91.4 cm wide appliances.

Special accessories

RA 430 100 Storage container with transparent lid, anthracite.

Fresh cooling 0 °C

1 large, fully extendable fresh cooling 0 °C drawer with transparent front, illuminated. Temperature control via central TFT display, temperature can be adjusted from -1 °C to +3 °C. Ideal for meat, fish and poultry. Net volume 58/47/35 litres.

Fresh cooling

1 fully extendable fresh cooling drawer with transparent front illuminated Humidity can be adjusted manually. Ideal for fruit and vegetables.

Consumption data

Energy efficiency class A++/A++/A++ at a range of energy efficiency classes from A+++ to D. Energy consumption 151/141/131 kWh/year. Noise level 40/40/40 dB (re 1 pW).

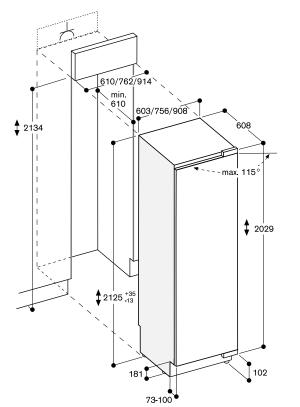

Planning notes

Flat hinge. Door hinge right, reversible. Door opening angle of 115°, fixable at 90° Max. door panel weight 43/24/41 kg.

Please read additional planning notes on page 326 - 333.

Connection

Total connected load 0.300/0.300/0.300 kW. Connecting cable 3.0 m, pluggable.

The maximum door panel dimensions are based on a clearance of 3 mm.

RF 463 304

Fully integrated Niche width 61 cm, Niche height 213.4 cm

Right-hinged RF 463 305

Fully integrated Niche width 61 cm, Niche height 213.4 cm Left-hinged

Included in the price

- 1 Accessory for side-by-side installation
- motanation

Installation accessories RA 422 610

Stainless steel door panel with handle For RF 463, panel thickness 19 mm. RA 423 140

Side trims, long RA 425 110

Handle bar, stainless steel, long

With 3 mounts, length 1131 mm, drilling distance between each mount 554 mm.

RA 428 810

Stainless steel door panel, handleless For RF 463, panel thickness 19 mm.

RA 460 013 Additional side heating element 230 V. Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed

more than 160 mm apart from each other.

RA 460 020

Connecting element for vertically split appliance fronts (for a flush front).

RA 464 613

Ventilation grille stainless steel For RF 463, with filter, right-hinged.

RA 464 614

Ventilation grille stainless steel For RF463, with filter, left-hinged.

Special accessories

RA 450 000 Mechanical particle filter.

RA 450 010

Activated charcoal filter for water filter system including saturation indicator.

Vario freezer 400 series RF 463

- Stainless steel interior with solid anthracite aluminium elements
- Warm white and glare-free LED light spots
- Opening assist for door with two options:
- Push-to-open function for integration into handleless furniture front
 Pull-to-open function to facilitate

opening the door using a handle

 The drawers in the RC and RF models are positioned at the same height. With side-by-side installation, the glass shelves and door racks can be aligned on the same level

Material and aesthetics of interior as for RC model

- Glass shelves
- Solid anthracite aluminium door racks
- Flat stainless steel inner door, full-length
- Almost invisible rail system for shelves and door racks for flexible positioning
- Ice and water dispenser in the door
- Integrated ice maker with fixed inlet water connection
- Proximity sensor for ice and water dispenser
- Illuminated dispenser for ice cubes, crushed ice and chilled water
- TFT touch display
- Net volume 300 litres

Handling

TFT touch display operation. Clear text display. Touch key operation for ice and water dispenser.

Technical Features

Dynamic cold air distribution. Automatic defrosting with defrost water evaporation.

Cushioned door closing system. Rest mode certified by Star-K. When rest mode is active, the appliance can only be opened using a handle. Open-door and malfunction alarm.

Home network integration for digital services (Home Connect) wireless via WiFi.

The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Freezing

No-frost technology with fast freezing at -30 °C. Temperature adjustable from

-16 °C to -24 °C. 4-star freezer compartment. Freezing capacity 14 kg/24 h. Storage time after a malfunction 10 h. 4 safety glass shelves, white glass, 2 of which are individually height adjustable. 2 fully extendable drawers with transparent front.

Brilliant LED light spots with warm white, glare-free light.

Ice and water dispenser

Warm white LED lighting. Proximity sensor for automatic activation of light and touch keys for ice and water dispenser. Integrated, with fixed inlet water connection. Particle filter for water inlet, integrated in ventilation grille area. Can be switched off. Ice cube production approx. 1.4 kg/24 h. Ice cubes and crushed ice. Removable ice storage container with approx. 3.2 kg capacity.

Consumption data

Energy efficiency class A+ at a range of energy efficiency classes from A+++ to D. Energy consumption 343 kWh/year. Noise level 42 dB (re 1 pW).

Ice water supply approx. 1.5 litres.

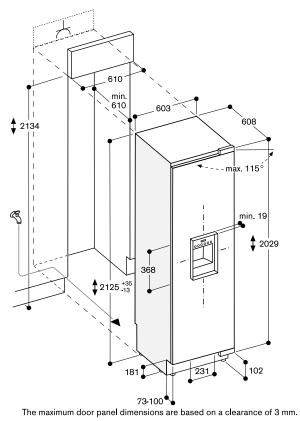

Planning notes

Flat hinge. Door opening angle of 115°, fixable at 90°. Max. door panel weight 67 kg. Shut-off valve for water connection must be planned next to the appliance and always be accessible. If the water pressure exceeds 0.8 MPa (8 bar), connect pressure relief valve between water tap and hose set.

Please read additional planning notes on page 326 – 333.

Connection

Total connected load 0.300 kW. Connecting cable 3.0 m, pluggable. Water inlet. Supply hose 2.0 m with 3/4 " connection. Water pressure 2 to 8 bar.

Energy efficiency class A/A+ at a range of energy efficiency classes from A+++ to G. Energy consumption 167/127 kWh/year. Noise level 42/42 dB (re 1 pW).

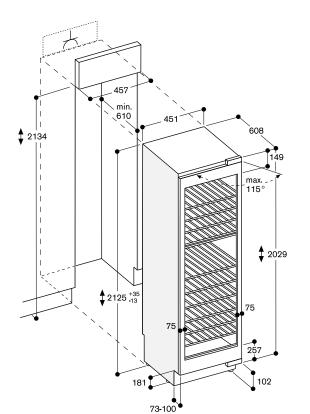

Planning notes

Flat hinge. Door hinge right, reversible. Door opening angle of 115°, fixable at 90°. Max. door panel weight 76/76 kg. The mains socket needs to be planned outside the built-in niche. No transport/operation above 1.500 m sea level.

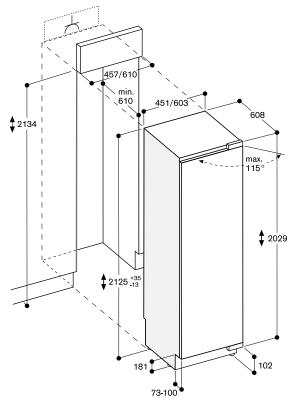

Please read additional planning notes on page 326 – 333.

Connection

Total connected load 0.300/0.300 kW. Connecting cable 3.0 m, pluggable.

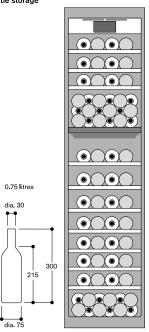

The maximum door panel dimensions are based on a clearance of 3 mm.

The maximum door panel dimensions are based on a clearance of 3 mm.

Bottle storage

The side walls of the adjacent cabinetry have to be dimensionally stable, as the Vario cooling appliances are secured in the niche with only an anti-tilt bracket on the top back and on the bottom at the side.

Vario cooling appliances can be installed handle to handle as a side-by-side combination. In this case the side-by-side installation kit RA 460 000 is required. If the distance between the appliances is greater than 16 mm or less than 160 mm or the environment very humid the additional side heating element RA 460 013 needs to be installed between the appliances to avoid condensation.

If the appliances are combined hinge to handle in a very humid environment the additional side heating element RA 460 013 is required as well. It can be omitted if the distance between the appliances is greater than 160 mm. The additional side heating element RA 460 013 does not take up any additional space. It is already included in the niche dimensions.

If the Vario cooling appliances are joined together hinge to hinge an additional stable side wall must be foreseen.

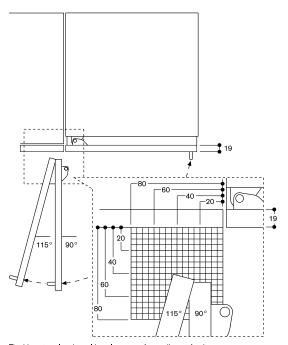

If restrictions in use are accepted (no simultaneous opening of the doors possible) the appliances can be joined together directly, using the additional side heating element RA 460 013.

When installing a Vario cooling appliance from the 400 series handleless next to a BO/BM/BS/CM from the oven 400 series, a minimum lateral distance of 30 mm is required, if the door of the Vario cooling appliance opens towards the BO/BM/BS/CM. When installing a Vario cooling appliance from the 400 series next to a BO/BM/BS from the ovens 400 series, a lateral distance of 60 mm is required, if the BO/BM/BS retrofitted handle is on the same side as the Vario cooling appliance door hinge. For the same installation next to a BOP/BMP/BSP from the ovens 200 series, a distance of 40 mm is required.

Door opening angle

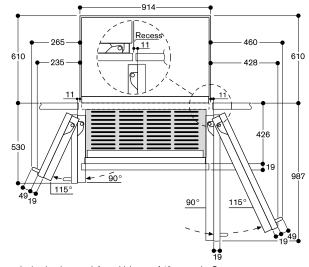

To ensure correct kitchen planning it is essential to take into account the opening angle of the appliance door (plus fitted cabinet door and handle). There should be no possibility of collision with other kitchen furnishings (worktops, handles of other cabinetry etc.) or parts of the room (walls, protrusions etc.).

The space needed for the hinge and the consequential distance to the adjacent cabinetry and its handle can, depending on the panel thickness, be seen in the following drawing. The drawing assumes a panel thickness of 19 mm. If a collision occurs, the following options are available to remedy the situation: Restrict the door opening angle to 90° (standard 115°). Pin to restrict the angle is enclosed with the appliance. Due to limitation in use, it is not recommended to install a freezer (RF 411, RF 461, RF 471) next to a wall which requires a door angle of 90°. If the restrictions in use are accepted, the ice storage container must be exchanged for the small ice storage container (RA 448 220). This must be done prior fixing the door. Fit a spacer between the appliance and the cabinetry that it would collide with. Rearrange surrounding cabinetry or appliance.

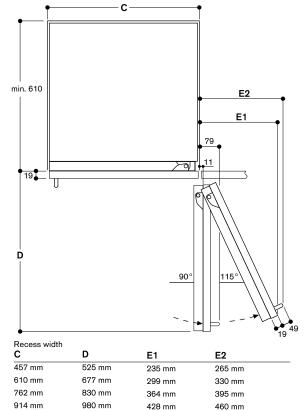

The hinge travel and resulting clearances from adjacent furniture units and handles can be found from the drawing while allowing for the thickness of the front panel. In the drawing, a furniture unit front panel thickness of 19 mm was assumed.

Wall clearance RB 492/RY 492

In the drawing, a unit front thickness of 19 mm and a Gaggenau unit handle of 49 mm were taken as a basis.

Wall clearance RB 472/RC/RF/RW

In the drawing, a unit front thickness of 19 mm and a Gaggenau unit handle of 49 mm were taken as a basis.

Notes:

- The adjustable feet have an adjustment range of +35 mm to -13 mm.
 The standard height displayed in the pictures is 0 mm.
- For proper ventilation of the appliance, the clearance between the floor and bottom edge of the cabinet front must be at least 100 mm.
- The panel thickness of customised doors can range from between 19 mm and 38 mm (in the picture 19 mm).

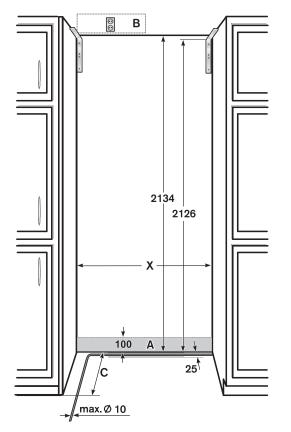

Unlike conventional built-in appliances, Vario cooling appliances stand on the floor. This means that the installation niche is a space in a line of kitchen units.

Installation niche

The specified dimensions of the installation niche must be observed to guarantee the proper installation of the appliance and the design of the cabinet front. It is particularly important that the installation niche is square. The side walls must be smooth, not have any protrusions or unevenness. Use the appropriate tools, e.g. spirit level, diagonal measurements, etc. to determine whether the installation niche is square.

The side walls and the crown of the installation niche must be at least 16 mm thick.

Installation niche for an individual appliance:

Area for installation the water connection Δ

B Area for installation the electrical connection must be outside the niche С

Depth of installation niche, depending on kitchen design. C = 610 mm minimum!

х Width of installation niche, refer to the table below for more details:

Appliance type	Width of the niche X				
451 mm	457 mm				
603 mm	610 mm				
756 mm	762 mm				
908 mm	914 mm				

Installation niche for a side-by-side solution:

In a side-by-side solution, there are many ways to combine the appliances. The width of the installation niche is calculated from the sum of the widths of the individual appliances. The height and depth of the installation niche correspond to the specifications for the individual appliances. It is important to comply with the dimensions in the area set aside for electric and water connections. For the precise dimensions, please refer to the details given for individual appliances.

Location

The appliance should be installed in a dry, well ventilated room. The location of the appliance should not be subject to direct sunlight or near a source of heat, such as a cooker, a radiator, etc.

If installation next to a heat source is unavoidable, use a suitable insulating plate or observe the following minimum distances from the heat source:

3 cm to electric or gas cookers.

30 cm to an oil-fired or solid-fuel cooker.

The floor of the installation location must not give way; if required, reinforce floor. To ensure that the ice maker functions correctly, the appliance must be upright.

Surface

To ensure that the appliance is installed securely and functions properly, the surface must be level and even.

The floor must consist of a hard, rigid material.

The floor in the installation area must have the same height as the floor in the rest of the room

Due to the heavy weight of a fully loaded appliance, the floor beneath must be stable.

If in doubt, consult an architect, structural engineer or construction expert.

Neighbouring cabinetry

The new appliance is screwed firmly in place with the neighbouring cabinet parts. Care should be taken to ensure that all cupboards onto which something is fastened, are connected firmly to the floor or the wall.

The thickness of the plinth can be a maximum 19 mm.

Base area

Important!

Poor ventilation leads to damage to the appliance!

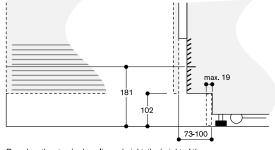

Under no circumstances is it permitted to cover the air inlets and the exhaust air outlets of the appliance in the lower base area. You must observe the minimum distance of 100 mm between the upper edge of the floor and the bottom edge of the cabinet door of the appliance. Take this into consideration also when adjusting the appliance feet.

In relation to the standard height, the maximum height of the base board is 102 mm. The plinth can be maximum 19 mm thick.

Adhesive connectors are supplied on the front panel of the appliance for fitting the base board.

The air inlets and the exhaust air outlets of the appliance are located above the base board. They must not be covered.

Base detail

Based on the standard appliance height, the height of the plinth is 102 mm. Maximum plinth thickness 19 mm.

For design reasons, it may be necessary to increase the distance between the upper edge of the floor and the bottom edge of the cabinet door of the appliance, so that it extends beyond the standard dimension of 102 mm.

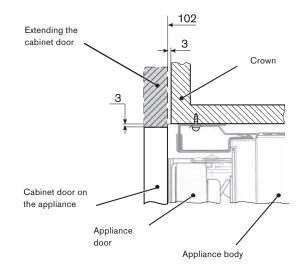

The maximum dimension is 181 mm. If this is the case, air inlets and exhaust air outlets would become visible!

Crown

- The height of the cabinet door on the appliance is dependent on:
- the overall height of the appliance,
- the distance from the bottom edge of the cabinet door to the floor,
- the appliance type (one-door or multi-door appliances).
- The overall height of the appliance is 2.029 mm.

The height can be adjusted within a range of -13 mm to +35 mm. You must observe the minimum distance of 100 mm between the upper edge of the floor and the bottom edge of the cabinet door of the appliance.

This height can vary depending on the conditions at the site. It is possible, e.g. for design reasons, to lengthen the cabinet door upwards by extending it beyond the top of the appliance.

Important!

It must be ensured that the crown of the installation niche always has a depth of at least 100 mm (measured from the front edge of the appliance). Only then can the secure installation of the appliance in the installation niche be guaranteed.

The cabinetry, the height of the base board, the overall height of the kitchen and other determining dimensions of the kitchen must be taken into account, in order to plan the exact positioning of the cabinet door so that the appliance integrates perfectly into the overall picture of the kitchen.

The following diagrams show the basic dimensions of the special accessories door fronts/door front frames for various appliances.

The dimensions of the doors shown are designed for the following basic specifications

- Height of the base board: 102 mm _
- Overall height of the installation niche: 2.134 mm
- _ Gap: 3 mm
- Panel thickness: 19 mm

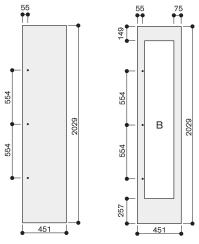

These specifications provide you with a good starting point for a variety of kitchen designs.

When designing a customised cabinet door, please ensure that the back of the cabinet door is visible to a height of 205 mm over the floor when opening the appliance door and adapt to the front design. All diagrams are also valid for doors without handle.

Important!

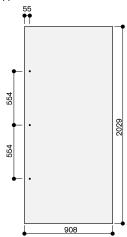

The following diagrams are not a substitute for detailed designs. Compliance with specified requirements relating to kitchen design is essential.

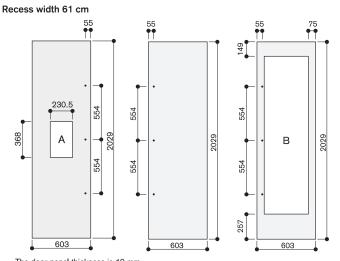

The door panel thickness is 19 mm. The maximum door panel dimensions are based on a clearance of 3 mm, B: Width of the side frame parts of the door panel can be between 65 mm and 82 mm.

The door panel thickness is 19 mm.

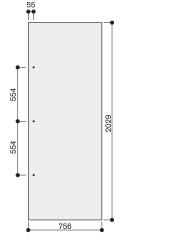

The maximum door panel dimensions are based on a clearance of 3mm, based on a single recess.

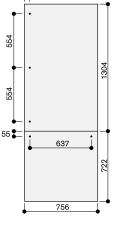

The door panel thickness is 19 mm. The maximum door panel dimensions are based on a clearance of 3 mm,

based on a single recess. A: The cut-out for the ice and water dispenser is designed so that it is horizontally and vertically centred. B: Width of the side frame parts of the door panel can be between 65 mm and 82 mm.

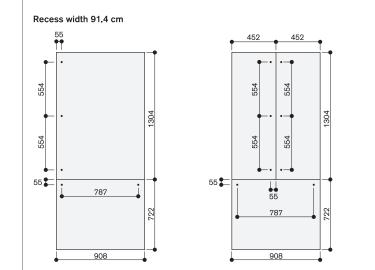

Recess width 76.2 cm

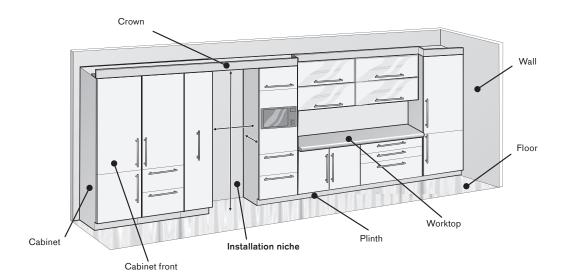

55 ∳∳

The door panel thickness is 19 mm. The maximum door panel dimensions are based on a clearance of 3 mm, based on a single recess

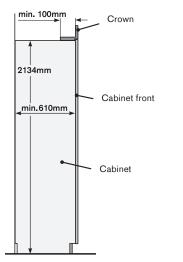

The door panel thickness is 19 mm. The maximum door panel dimensions are based on a clearance of 3 mm, based on a single recess.

Planning principle for an individual appliance

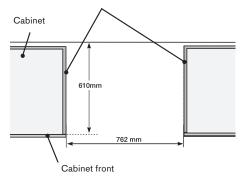

Vertical cut Installation niche

The side walls of the installation niche must be completely even and flat along their entire depth.

Horizontal cut Installation niche

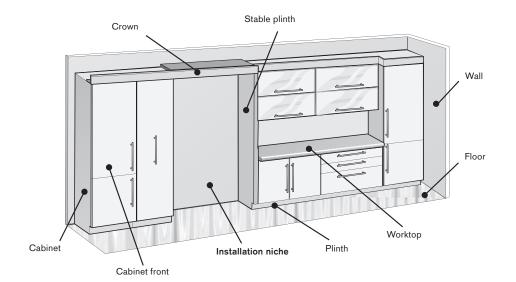

Installation niche for an individual cooling appliance (example: 762 mm wide)

In this example, the installation niche is formed by two tall cupboards (left and right) with an appropriate crown to the niche.

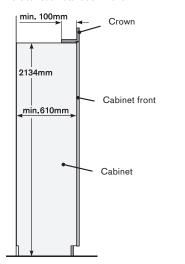

The cabinet door for the appliance comes in an identical design to the other kitchen fronts.

Requirements for the installation niche:

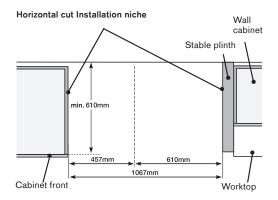

- The side walls of the installation niche must be completely even and flat along their entire depth
- Crown is at least 100 mm deep and made of a solid material (min. 16 mm thick)
- Width of the installation niche: 762 mm
- Depth of the installation niche: min. 610 mm

Vertical cut Installation niche

The side walls of the installation niche must be completely even and flat along their entire depth.

Installation niche for a side-by-side solution

- 610 mm cooling appliance (right)
- 457 mm freezer (left)

In this example, the installation niche is formed by a tall cupboard (left) and a stable plinth (right) together with an appropriate crown for the niche.

The cabinet door for both appliances comes in an identical design to the other kitchen fronts.

Requirements for the installation niche:

- The side walls of the installation niche must be completely even and flat along their entire depth
- Crown is at least 100 mm deep and made of a solid material (min. 16 mm thick)
 Width of the installation niche:
- 610 mm + 457 mm = 1.067 mm
- Depth of the installation niche: min. 610 mm

↑ SxS

₽ SxS

Side-by-side solution 1

RF 471 / RC 492

 $\label{eq:Usability limitations: No limitation.} Installation accessories: 1x RA 460 000 installation accessories for side-by-side installation (SxS)*. \\ Notes: Door hinges on the outside. \\ \end{tabular}$

Side-by-side solution 2

RW 414 / RB 472

Usability limitations: No limitation.

Installation accessories: 1x RA 460 000 installation accessories for side-by-side installation (SxS)*.

Notes: Door hinges on the outside. Change door hinge of RW.

If using the stainless steel fronts with a handle (installation accessories), select the correct door hinges for the RW.

Side-by-side solution 3

RW 414 / RY 492

Usability limitations: Not all doors can be opened at the same time. The left door of the RY may collide with the handle of the RW.

Installation accessories: 1x RA 460 000 installation accessories for side-by-side installation (SxS)*.

Notes: Fitting the left RY doors at 90° is recommended. Change door hinge of RW. If using the stainless steel fronts with a handle (installation accessories), select the correct door hinges for the RW.

Combination of 3

RF 461 / RW 466 / RC 462

Usability limitations: The doors of RW and RC cannot be opened at the same time, but one after another.

Installation accessories: 2x RA 460 000 installation accessories for side-by-side installation (SxS)*.

Notes: All three appliances must be connected to each other before installation and pushed together into the installation niche.

Maximum distance

RF 471 / RF 463 / RW 466 / RC 472

 $\label{eq:USability limitations: No limitation. All doors can be opened fully. Installation accessories: 2x RA 460 000 (SxS)*.$

Notes: Two separate installation niches. Clearance is large enough to open all doors at the same time. Change door hinge of RW 466.

If using the stainless steel fronts with a handle (installation accessories), select the correct door hinges for the RW.

Distance ≥ 160 mm

RF 471 / RF 463 / RW 466 / RC 472

Usability limitations: The middle doors cannot be opened at the same time. Installation accessories: 2x RA 460 000 (SxS)*.

Notes: Two separate installation niches. The clearance between the two installation niches is greater than 160 mm. Change door hinge of RW.

If using the stainless steel fronts with a handle (installation accessories), select the correct door hinges for the RW.

Distance ≤ 160 mm

RF 471 / RF 463 / RW 466 / RC 472

Usability limitations: It may be necessary to open the middle doors one after the other, rather than at the same time.

Installation accessories: 2x RA 460 000 (SxS)*, 1x RA 460 013 (HE)*.

Notes: Two separate installation niches with a stable plinth between them. The clearance between the two installation niches is less than 160 mm. Therefore, an additional side heating element is required. Change door hinge of RW. If using the stainless steel fronts with handle (installation accessories), select the correct door hinges for the RW.

Combination of 4

RF 471 / RF 463 / RW 466 / RC 472

Usability limitations: The middle doors cannot be opened at the same time. Installation accessories: 3x RA 460 000 installation accessories for side-by-side installation (SxS)*.

Notes: All four appliances must be connected to each other before installation and pushed together into the installation niche. Change door hinge of RF 471 and RW 466. If using the stainless steel fronts with handle (installation accessories), select the correct door hinges for the RW.

RF 471 / RF 463 / RW 466 / RC 472

Usability limitations: If the middle door is open, then neither of the outer doors can be opened.

Installation accessories: 3x RA 460 000 installation accessories for side-by-side installation (SxS)*.

Notes: The appliances in the middle are connected side-by-side. Connecting the others will require additional side heating elements. All four appliances must be connected to each other before installation and pushed together into the installation niche.

Cooling appliances

Footnote:

*SxS Accessory for side-by-side installation. In an very humid environment always use the additional side heating element instead of the accessory for side-by-side installation. *HE Additional side heating element. Always required, if the distance between the appliances is greater than 16 mm or less than 160 mm. me Cor

Storage container with transparent lid, anthracite.

Vario fridge-freezer combination 200 series RB 289

- Unique usage concept: - Maximum usage of interior: stepped shelf, full depth shelves as well as integrated fixtures for
 - various containers Easy access: fully extendable
 - shelves and drawers Optimal overview: intelligent
 - lighting concept, use of glass and transparent materials
 - Efficient preparation, cooking and storage with Gaggenau appliances: integration of Gastronorm inserts
- Enlarged interior with 245 litre net volume through compressor relocation
- 4 climate zones incl. two fresh cooling drawers close to 0 °C
- Cushioned door closing system allowing a soft and controlled door closure
- Smooth running fully extendable telescopic pull-out racks and a cushioned closing system allow a soft and controlled closure of the drawers

Handling

Electronic temperature control with temperature display. Touch keys.

Technical Features

Automatic defrosting with defrost water evaporation Cushioned door closing system from 20° door opening angle, integrated in door hinae. Open-door and malfunction alarm.

Cooling

Fast cooling. Temperature adjustable from +2 °C to +8 °C. 3 safety glass shelves, 2 of which are fully extendable and 1 height adjustable Wine and champagne rack for 4 bottles, can be completely folded away. Fixture for storing glass tray. 1 large door rack with aluminium profile for bottles with flexible bottle holder. 1 door rack with aluminium profile. Bright interior lighting with integrated glare-free side light elements. Stepped shelf in aluminium for optimum use of interior and for storing GN inserts Possible combinations: 1 x 1/3 GN 2x1/3GN 3x1/3 GN 1x2/3 GN

1x2/3 GN and 1x1/3 GN Net volume 128 litres.

No-frost technology with fast freezing. Temperature adjustable from -16 °C to -24 °C. 4-star freezer compartment. Freezing capacity 18 kg/24 h. Storage time after a malfunction 20 h. 5 freezer drawers, 1 of which extra large. 4 safety glass shelves between the freezer drawers. 2 safety glass shelves with transparent front. All freezer drawers and safety glass shelves can be removed. Net volume 210 litres.

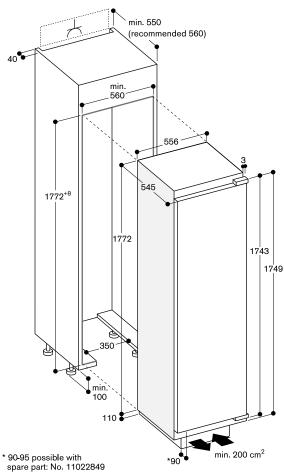

Consumption data

Energy efficiency class A++ at a range of energy efficiency classes from A+++ to D. Energy consumption 242 kWh/year. Noise level 42 dB (re 1 pW).

Planning notes

Flat hinge Door hinge left, reversible. Door opening angle of 115°, fixable at 90°. Appliance plinth recess 90 mm. Max. door panel weight 30 kg.

Connection

RS 295 355

With fresh cooling close to 0 °C Freestanding, full glass door in Gaggenau Anthracite Ice and water dispenser, black Width 91.2 cm, height 175.6 cm

Included in the price

2 ice packs

1 egg tray

Special accessories

RA 450 010

Activated charcoal filter for water filter system including saturation indicator.

Side-by-Side 200 series RS 295

- 4 climate zones incl. fresh cooling close to 0 °C and fresh cooling
 Integrated ice maker with fixed inlet
- water connection - Illuminated dispenser for ice cubes,
- crushed ice and chilled water - Net volume 541 litres

Handling

Electronic temperature control with temperature display. Touch keys.

Technical Features

Dynamic cold air distribution. Automatic defrosting with defrost water evaporation. Open-door and malfunction alarm. Child lock. Rest mode. Stainless steel coloured top and side panels.

Cooling

Fast cooling. Dynamic cold air distribution. Temperature adjustable from +2 °C to +8 °C. 4 safety glass shelves, 3 of which are height adjustable, 1 even without removing it. Wine and champagne rack for 4 bottles, removable. 2 large door racks for bottles. 1 of which is height adjustable. 4 door racks, 2 of which are height adjustable. LED lighting. 1 full width drawer. Activated charcoal air filter. Net volume 368 litres.

Fresh cooling close to 0 °C

1 full width fresh cooling drawer close to 0 °C. Ideal for meat, fish and poultry.

Fresh cooling

1 full width fresh cooling drawer. Humidity can be adjusted manually. Ideal for fruit and vegetables. Net volume 26 litres.

Freezing

No-frost technology with fast freezing. Temperature adjustable from -16 °C to -24 °C. Large 4-star freezer compartment. 2 small 2-star areas. Freezing capacity 12 kg/24 h. Storage time after a malfunction 12 h. 3 safety glass shelves, 2 of which are height adjustable. 2 large freezer drawers. All freezer drawers and safety glass shelves can be removed. 4 door racks. LED lighting. Net volume 173 litres.

Ice and water dispenser

Light can be switched on separately. Suitable also for large drinking vessels. Ice maker integrated in the freezer compartment, with fixed inlet water connection. Can be switched off.

Ice cube production approx. 1 kg/24 h. Ice cubes and crushed ice. Removable ice storage container with approx. 2.3 kg capacity. Ice water supply approx. 1 litres.

Consumption data

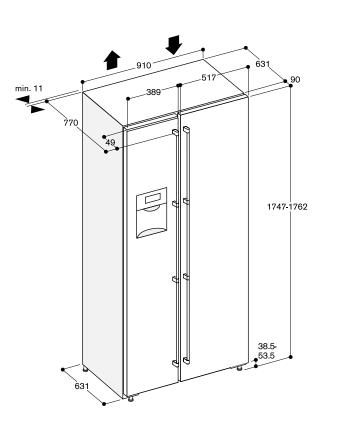

Energy efficiency class A++ at a range of energy efficiency classes from A+++ to D. Energy consumption 348 kWh/year. Noise level 42 dB (re 1 pW).

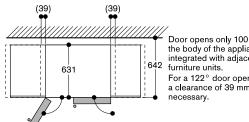

Planning notes

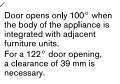

Wall recess of 11 mm necessary. Front and back casters height adjustable from the front by 15 mm. Door opening angle of both doors 122°, freezer zone useable at 90°. The socket and shut-off valve must be planned next to the appliance and always be accessible. If the water pressure exceeds 0.8 MPa (8 bar), connect pressure relief valve between water tap and hose set. Weight when empty 170 kg.

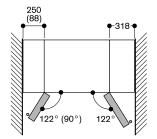

Connection

Total connected load 0.19 kW. Connecting cable 2.4 m with plug. Water inlet. Supply hose 3.0 m with 3/4 " connection. Water pressure 2 to 8 bar.

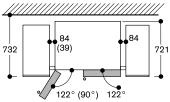

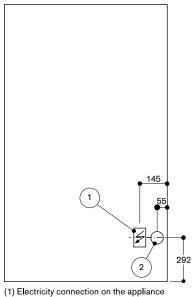

If integrated next to a side wall, there must be a clearance of 250 on the left and 318 mm on the right so that the ice maker and drawers can be removed. For a 90 $^\circ$ door opening, a clearance of 88 mm is permissible on the left. The drawers cannot be removed.

If fully integrated, side clearances of 84 mm must be provided (for a 90° door 721 opening, a clearance of 39 mm is permissible on the left). If the door is opened 90° , the ice maker can be removed. The drawers can be removed if the door is opened to 122°.

Accessory for side-by-side installation

Installation accessories

RA 420 010 Door lock for RW 414 and RW 464. RA 421 610 Stainless steel door panel with handle

For 61 cm wide appliances, panel thickness 19 mm.

RA 421 611

Stainless steel door panel frame with handle For 61 cm wide appliances, left-hinged,

panel thickness 19mm. RA 421 612

Stainless steel door panel frame with handle

For 61 cm wide appliances, right-hinged, panel thickness 19 mm. RA 423 140

Side trims, long

RA 425 110 Handle bar, stainless steel, long With 3 mounts, length 1131 mm. drilling distance between each mount

554 mm.

RA 428 610

Stainless steel door panel, handleless For 61 cm wide appliances, panel thickness 19 mm.

RA 428 611

Stainless steel door panel frame, handleless

For 61 cm wide appliances, panel thickness 19 mm.

RA 460 013

Additional side heating element 230 V. Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed more than 160 mm apart from each other.

RA 460 020

Connecting element for vertically split appliance fronts (for a flush front). RA 464 611

Ventilation grille stainless steel For 61 cm wide appliances.

Vario wine climate cabinet 400 series RW 466

- 3 independently controllable

- climate zones Consistent temperatures with exact
- control from +5 °C to +20 °C Humidity control
- Stainless steel interior _
- Fully extendable bottle trays in oak wood and solid aluminium in anthracite
- Bottle travs with hidden telescopic rails
- Warm white and glare-free LED light spots
- 5 preset lighting scenarios, selectable via TFT display
- Opening assist for door with two options:
 - 1. Push-to-open function for integration into handleless furniture front
 - 2. Pull-to-open function to facilitate
- opening the door using a handle Low-vibration operation
- TFT touch display
- Capacity 99/99 bottles

Handling

TFT touch display operation. Clear text display.

Technical Features

Dynamic cold air distribution. Automatic defrosting with defrost water evaporation. Cushioned door closing system. Activated charcoal air filter. UV-protection. Rest mode certified by Star-K. When rest mode is active, the appliance can only be opened using a handle. Open-door and malfunction alarm.

Home network integration for digital services (Home Connect) wireless via WiFi

The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Features

Capacity 99/99 bottles (based on 0.75/l standard bottles). 12 bottle trays,

- 9 fully extendable trays
- 3 suitable for storage of Magnum bottles.

Flexible interior configuration possible by adding or removing fully extendable

bottle trays. Storage of up to 12 Magnum bottles with standard tray configuration

(12 bottle trays).

Space for max. 12 bottle trays.

2 brilliant LED light spots with warm white, glare-free light in each climate zone

5 different lighting scenarios can be selected for individual wine presentation

Net volume 361/361 litres.

Special accessories RA 430 000

- Screw hole cover set. 8 pieces.
- RA 491 661

Fully extendable bottle trays with hidden telescopic rails in oak wood and solid aluminium in anthracite For 61 cm wide appliances.

RA 492 660

Removable shelf with oak wood frame Suitable for decanters and open bottles.

For 61 cm wide appliances.

RA 493 060

Presenter in oak wood and aluminium in anthracite for single bottle display 1 piece

RA 498 640

Bottle support in oak wood for convenient storage of bottles on the divison plate.

For 61 cm wide appliances.

Consumption data

Energy efficiency class A/A+ at a range of energy efficiency classes from A+++ to G Energy consumption 171/130 kWh/year. Noise level 42/42 dB (re 1 pW).

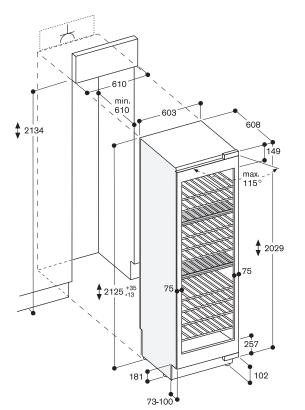

Planning notes

Flat hinge Door hinge right, reversible. Door opening angle of 115°, fixable at 90° Max. door panel weight 73/73 kg. The mains socket needs to be planned outside the built-in niche. No transport/operation above 1 500 m sea level.

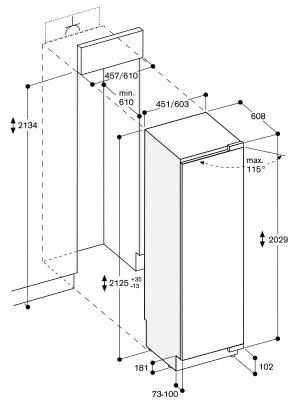

Please read additional planning notes on page 326 – 333.

Connection

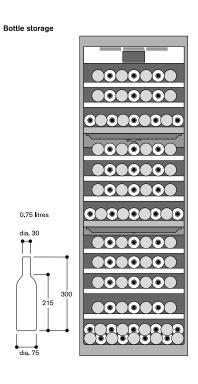

Total connected load 0.300/0.300 kW. Connecting cable 3.0 m, pluggable.

The maximum door panel dimensions are based on a clearance of 3 mm.

RW 282 261

Fully integrated, with glass door Niche width 56 cm, Niche height 177.2 cm

Special accessories

RA 050 220 Replacement activated charcoal air filter.

Wine climate cabinet 200 series RW 282

- 2 independently controllable climate zones
- Consistent temperatures with exact control from +5 °C to +20 °C
- Humidity control - Extendable bottle trays in beech and aluminium
- Presentation light option
- Low-vibration operation -
- Capacity 80 bottles

Handling

Electronic temperature control with digital display. Touch keys. Presentation light option in each climate zone, dimmable. Interior lighting with automatic dimming with opening and closing of door.

Technical Features

Dynamic cold air distribution. Automatic defrosting with defrost water evaporation. Cushioned door closing system integrated in door hinge. 1 activated charcoal air filter for both climate zones. UV-protection. Open-door and malfunction alarm. Child lock.

Features

Capacity 80 bottles (based on 0.75/l standard bottles). 10 bottle trays, 8 of which are extendable. Storage of magnum bottles possible. LED lighting. Net volume 254 litres.

Consumption data

Energy efficiency class A at a range of energy efficiency classes from A+++ to G. Energy consumption 160 kWh/year. Noise level 35 dB (re 1 pW).

Planning notes

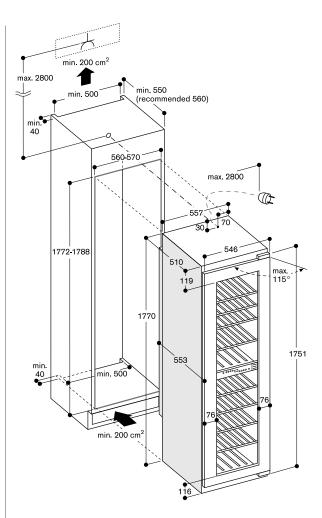

Flat hinge. Door hinge right, reversible. Height-adjustable feet. Door opening angle of 115°, fixable at 90° Max. door panel weight 20 kg. Door panel thickness min. 16 mm/max. 22 mm. The mains socket needs to be planned outside the built-in niche. For a side-by-side installation every appliance must be planned in its own niche. When combining the wine climate

cabinet with cooling appliances other than a second wine climate cabinet, these must have side heating to avoid condensation. Without side heating a clearance of min. 150 mm is to be kept between the appliances.

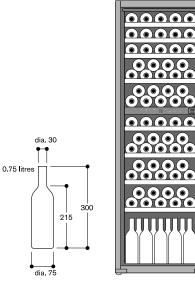

No transport/operation above 1.500 m sea level.

Connection

Total connected load 0.13 kW. Connecting cable 2.8 m with plug.

DF 481 162

Fully integrated Height 86.5 cm DF 480 162 Fully integrated Height 81.5 cm

Included in the price

- 1 baking tray spray head
- 1 holder for long-stemmed glasses
- 2 GN container inserts
- 1 stainless steel trim kit

Installation accessories

DA 021 000 Hinge for all fully integrated diswashers GZ 010 011 Extension for water inlet and outlet

(2 m long)

Special accessories DA 041 160

Cutlery drawer with smooth running rails 3rd level above the upper basket. For large pieces of cutlery, cooking utensils and espresso cups. 13 place setting capacity with all 3 levels.

DA 042 030

Silvercare cartridge for all dishwashers DA 043 000 Holder for long-stemmed glasses

Offers safe positioning for up to four long-stemmed glasses during the dishwashing process and ensures an optimal cleaning result. For positioning in the lower basket.

Dishwasher 400 series DF 481/DF 480

- Optimal protection for sensitive glassware by low temperature drying with zeolite and intelligent water softening
- 8 programmes with aqua sensor and 5 options, such as Power and Intensive:
 - Clean and dry dishes in 57 minutes
 Intensive cleaning in the lower basket while protecting
 - glassware in the upper basket Flexible basket system with smooth
- running rails on all levels and cushioned closing of the upper and lower basket
- TFT display for intuitive handling of all functions
- Remaining time projection onto the kitchen floor
- Perfectly illuminated interior
- Push-to-open function for perfect integration into handleless furniture fronts
- Very quiet: 43 dB
- Energy efficiency class A+++
- Aqua stop

Handling

TFT display indicating remaining or end time, refill for salt and rinsing agent, inflow of water. Touch key operation. Information key with use indications. Time delay up to 24 hours. Visual and acoustic end of programme indicator. Remaining time projection.

Technical Features

- Perfectly illuminated interior. Glass protection with zeolite. Aqua sensor. Load sensor. Automatic detergent function. Regeneration electronics. Heat exchanger. Continuous flow heater. Triple filter system. Soft lock. Aqua stop.
- Home network integration for digital services (Home Connect) wireless via WiFi.
- The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Programmes

- 8 programmes: Auto 35 °C - 45 °C. Auto 45 °C - 65 °C. Auto 65 °C - 75 °C. Intensive 70 °C. Eco 50 °C. Night programme. Quick wash 45 °C (29 min.). Pre-rinse.
- 5 options: Intensive. Power. Half Load. Hygiene. Extra Dry.

Features

Flexible basket system with smooth running rails on all levels and cushioned closing of the upper and lower basket.

Upper basket: Over extension. Rackmatic with 3 levels, adjustable in height up to 5 cm. 6 folding spines. 4 folding racks. 2 glass support bars.

Lower basket: 8 folding spines. 2 folding racks. Dividable glass support. Cutlery basket. Holder for long-stemmed glasses.

Maximum dish sizes (upper/lower basket) for 86.5 cm high dishwashers: 29/28, 26.5/30.5 or 24/34 cm respectively.

Maximum dish sizes (upper/lower basket) for 81.5 cm high dishwashers: 27/25, 24.5/27.5 or 22/31 cm respectively.

12 place setting capacity. Maximum glass loading capacity 23 wine glasses.

Consumption data

Energy efficiency class A+++ at a range of energy efficiency classes from A+++ to D. From 9.5 I water. From 0.8 kWh. Noise level 43 dB (re 1 pW).

Planning notes

Height-adjustable feet. Appliance plinth recess 100 mm (see drawing). To display the remaining time projection, a minimum plinth protrusion is required (40 mm + thickness of the furniture front). The maximum plinth height must be reduced by 30 mm to provide an optimal display of the remaining time projection. Rear feet adjustable at front. Door weight up to 10/8.5 kg. Door panel dimension dependent on plinth height of kitchen furniture. Installation and usage also with furniture handle possible. The

() values with extension kit

DF 481 163F

Fully integrated With flexible hinge Height 86.5 cm DF 480 163F Fully integrated With flexible hinge Height 81.5 cm

Included in the price

- 1 baking tray spray head
- 1 holder for long-stemmed glasses
- 2 GN container inserts
- 1 stainless steel trim kit

Installation accessories

GZ 010 011 Extension for water inlet and outlet (2 m long)

Special accessories

DA 041 160 Cutlery drawer with smooth running rails

3rd level above the upper basket. For large pieces of cutlery, cooking utensils and espresso cups. 13 place setting capacity with all

3 levels.

DA 042 030 Silvercare cartridge for all dishwashers

DA 043 000

Holder for long-stemmed glasses Offers safe positioning for up to four long-stemmed glasses during the dishwashing process and ensures an optimal cleaning result. For positioning in the lower basket.

Dishwasher 400 series DF 481/DF 480

- Optimal protection for sensitive glassware by low temperature drying with zeolite and intelligent water softening
- 8 programmes with aqua sensor and 5 options, such as Power and Intensive:
 - Clean and dry dishes in 57 minutes
 Intensive cleaning in the lower basket while protecting
- glassware in the upper basket Flexible basket system with smooth running rails on all levels and

cushioned closing of the upper and lower basket

- TFT display for intuitive handling of all functions
- Perfectly illuminated interior
- Push-to-open function for perfect integration into handleless furniture fronts
- Very quiet: 43 dB
- Energy efficiency class A+++
- Aqua stop

Handling

TFT display indicating remaining or end time, refill for salt and rinsing agent, inflow of water. Touch key operation. Information key with use indications. Time delay up to 24 hours. Visual and acoustic end of programme indicator. Info-Light.

Technical Features

Perfectly illuminated interior. Glass protection with zeolite. Aqua sensor. Load sensor. Automatic detergent function. Regeneration electronics. Heat exchanger. Continuous flow heater. Triple filter system. Soft lock. Aqua stop.

Home network integration for digital services (Home Connect) wireless via WiFi. The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check:

Connection

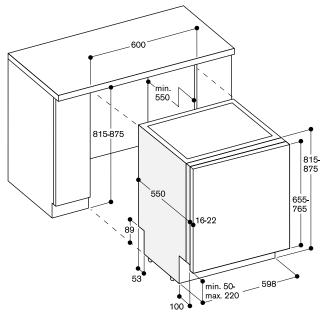

Total connected load 2.4 kW. Connecting cable pluggable. Water connection with 3/4" screw joint. Connection to hot or cold water possible.

Connection dimensions for a 45 cm wide dishwasher

() values with extension kit

Additional planning notes for standard dishwashers (without flexible hinge)

For niche heights from 815 to

855 mm, in most cases, the 81.5 cm high dishwasher must be planned, regardless of the plinth height.

For niche heights from 885 to

925 mm, in most cases, the 86.5 cm high dishwasher must be planned, regardless of the plinth height.

If the niche height amounts to 865 or 875 mm, please note:

Whether the 81.5 cm high dishwasher or the 86.5 cm high dishwasher can be used here depends on the plinth height.

For dishwasher with remaining time projection, the maximum plinth height must be reduced by 30 mm to provide an optimal display.

For niche heights from 815 to 860 mm, in most cases, the 81.5 cm high dishwasher must be planned, regardless of the plinth height.

For niche heights from 880 to 925 mm, in most cases, the 86.5 cm high dishwasher must be planned, regardless of the plinth height.

If the niche height amounts between 865 and 875 mm, please note: Whether the 81.5 cm high dishwasher or the 86.5 cm high dishwasher can be used here depends on the plinth height.

If the installation of a dishwasher with **flexible hinge** is necessary or not depends on several factors.

The door panels cannot be used with dishwashers with flexible hinge.

Additional planning notes - tall unit installation of dishwashers with flexible hinge

Tall unit installation of dishwashers with flexible hinge – **without slanted** drawer panel

The table contains the gap size required between the kitchen furniture door panel and drawer panel with reference to niche height, plinth height and panel thickness when using a standard kitchen furniture door panel for dishwashers installed below worktops.

Niche height (mm)	Panel thickness (mm)	;						Plinth he	eight (mm)

Additional planning notes - tall unit installation of dishwashers with flexible hinge

Tall unit installation of dishwashers with flexible hinge – **with slanted** drawer panel

The table contains the gap size required between the kitchen furniture door panel and drawer panel with reference to niche height, plinth height and panel thickness when using a standard kitchen furniture door panel for dishwashers installed below worktops.

(mm)	Panel thickness (mm)	5						Plinth he	ight (mm))
× /		50	55	60	65	70	75	80	85	90

Accessories and special accessories for dishwashers

Flexible basket system

Flexible basket system with smooth running rails on all levels and cushioned closing of the upper and

Upper basket

lower basket.

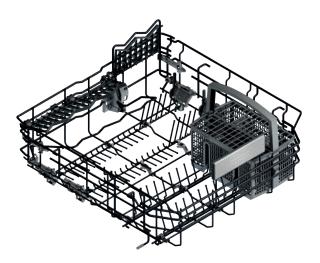

For more flexibility and easier handling when loading and unloading the dishwasher.

6 folding spines. 4 folding racks. 2 glass support bars. With over extension, smooth running rails and cushioned closing as well as rackmatic with 3 levels, adjustable in height up to 5 cm. Handle for easier removal of the upper basket.

Lower basket

8 folding spines. 2 folding racks. Dividable glass support. Cutlery basket. With smooth running rails and cushioned closing. Handle for easier removal of the lower basket.

DA 020 010

Stainless steel trim kit for all 81.5 cm high dishwashers Set of 2, for left and right. To cover the gap between appliance and adjacent furniture and for better fixation of the appliance in the niche. The white frame is replaced by a stainless steel trim kit. W x D in cm: 2.2 x 2.0. Height 62.2 cm.

DA 020 110

Stainless steel trim kit for 86.5 cm high dishwashers Set of 2, for left and right. To cover the gap between appliance and adjacent furniture and for better fixation of the appliance in the niche. The white frame is replaced by a stainless steel trim kit. W x D in cm: 2.2 x 2.0. Height 67.2 cm.

DA 021 000

Hinge for all fully integrated diswashers

Installation solution for all dishwashers with a niche height of up to 92 cm and split furniture panel.

The hinge is fastened to the plinth of the appliance and the lower part of the split furniture panel is mounted onto it. Height upper part of the split furniture panel:

64.5 – 68 cm for 81.5 cm high dishwashers. 69.5 – 73 cm for 86.5 cm high dishwashers.

DA 041 160

Cutlery drawer with smooth running rails 3rd level above the baskets. For large pieces of cutlery, cooking utensils and espresso cups. 13 place setting capacity with all 3 levels.

DA 041 061

Cutlery drawer 3rd level above the baskets. For large pieces of cutlery, cooking utensils and espresso cups. 14 place setting capacity with all 3 levels.

DA 042 030

Silvercare cartridge for all dishwashers Made of aluminium to protect silverware from corrosion. Easy use of cartridge in the cutlery basket. W x H x D in cm: 5.5 x 20.2 x 4.1.

DA 043 060

Glass basket Special basket to prevent tipping of cups or long stemmed glasses. Fold the folding spines in the lower basket down to fit the glass basket. Holds max. 12 long stemmed glasses or 24 cups. Glass basket with 4 folding racks, silver-coloured. W x H x D in cm: 49x23x26.

DA 043 000

Holder for long-stemmed glasses Offers safe positioning for up to four long-stemmed glasses during the dishwashing process and ensures an optimal cleaning result. For positioning in the lower basket.

DA 231 010

Stainless steel-backed full glass door for 81.5 cm high dishwashers Height adjustable by 49 mm, height 67 to 71.9 cm. W x D in cm: 59 x 1.9. Handle: W x D x Ø in cm: 45 x 4.9 x 1.4. DA 231 110 Stainless steel-backed full glass door for 86.5 cm dishwashers

Height adjustable by 49 mm, height 72 to 76.9 cm. $W \times D$ in cm: 59 x 1.9. Handle: $W \times D \times \emptyset$ in cm: 45 x 4.9 x 1.4.

GH 035 010

Handle bar with 2 mounts, stainless steel, Length 35 cm, drilling distance 327 mm

GH 045 010

Handle bar with 2 mounts, stainless steel, Length 45 cm, drilling distance 427 mm

GZ 010 011

Extension for water inlet and outlet (2 m long).

WM 260 163

Free-standing, slide-under or stackable Width 60 cm, height 84.8 cm

Special accessories

WA 200 001

Aquastop extension for cold water inlet

Washing machine WM 260

- Intelligent dosage system iDos for automatic in-flow control of liquid detergent and softener
- 9 kg drum with interior lighting
 Large porthole with 180° door
- opening angle
- Innovative BLDC motor technology for more performance, higher durability as well as less energy consumption and noise
- Stain Automatic for stain specific programme cycles
- Combines perfectly with WT 260 101
- Energy efficiency class A+++

Handling

Electronic control. Illuminated rotary knob with integrated On-Off switch. Touch key operation. TFT display with clear text and symbols. Loading indicator with dosage recommendation. Programme sequence and remaining time display. Time delay up to 24 hours. Multiple signal tones.

Technical Features

Aqua sensor. Aqua stop. Flow-through sensor. Anti-stain automatic. Continous automatic load adjustment. Foam detection system. Spin speed selection from 400 to 1600 rpm. Top-up function. Automatic stabilisation. Anti-crease. Child lock.

Home network integration for digital services (Home Connect) wireless via WiFi.

The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Programmes

Cottons. Eco Cottons. Easy Care. Quick/Mix. Delicates/Silk. Wool. Shirts/Blouses. Super 15/30. Hygiene. Sports. Jeans. Automatic Soft. Automatic Intensive. Additional Programmes: Downs, Curtains, Spinning, Rinse Plus, Drum Clean. Drain. Options: Eco Perfect, Speed Perfect, Rinse Plus, Easy Iron, Rinse Hold, Water Plus, Silent Wash, Prewash, Stain Automatic.

Features

Powder detergent drawer with automatic cleaning mode after every wash cycle. 2 iDos tanks with 1.3 and 0.5 I capacity for liquid detergent or softener. Stainless steel drum with wave structure. Drum interior lighting. Volume capacity from 1 to 9 kg.

Consumption data

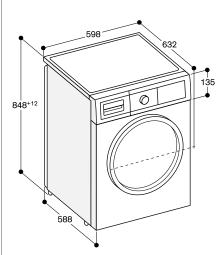

Energy efficiency class A+++ at a range of energy efficiency classes from A+++ to D. Water consumption 11220 l/year. Energy consumption 152 kWh/year.

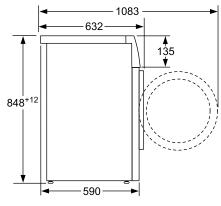

Planning notes

Left-hinged. Height-adjustable feet. Height for slide-under installation: 85 cm. Stackable under the tumble dryer WT 260 101 in combination with special accessory.

Connection

Total connected load 2.3 kW. Connection cable 2.10 m with plug. Water connection with 3/4 " screw joint.

measurements in mm

WT 260 101

Free-standing, slide-under or stackable Width 60 cm, height 84.2 cm

Included in the price 1 basket for wool

Special accessories WA 032 001 Connection kit with extendable shelf

Tumble dryer with heat pump WT 260

- Combines perfectly with _ WM 260 163
- Large drum with interior lighting
- Large porthole with 180° door opening angle
- Self-cleaning heat exchanger, highest comfort and constantly low consumption
- . Heat pump technology
- _ Energy efficiency class A+++

Handling

Electronic control. Illuminated rotary knob with integrated On-Off switch. Touch key operation. TFT display with clear text and symbols. Programme sequence and remaining time display. Time delay up to 24 hours. Multiple signal tones.

Technical Features

Moisture and time controlled programmes. Heat pump technology. Self-cleaning heat exchanger. Anti-crease cycle at programme end. Child lock.

Home network integration for digital services (Home Connect) wireless via WiFi.

The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

Please read additional information on Home Connect on page 420.

Programmes

Cottons Easy Care. Mix. Delicates. Wool in Basket. Cold. Warm. Hygiene. Super 40. Towels. Sports. Downs. Duvets. Shirts/Blouses. Options: Easy Iron, Drying Target, Drying Target Adjustment, Spin Speed,

Features

Stainless steel drum with honeycomb structure Dry wool without shrinking or matting thanks to the included basket for woollens. Volume capacity from 1 to 8 kg. Drum interior lighting.

Consumption data

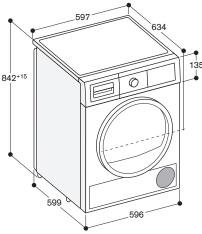

Energy efficiency class A+++ at a range of energy efficiency classes from A+++ to D.

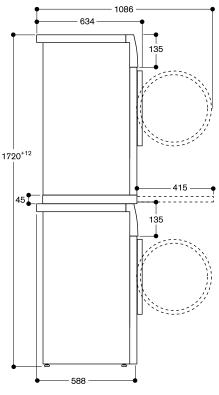

Right-hinged, reversible. Height-adjustable feet. Height for slide-under installation: 84.2 cm. Stackable over the washing machine WM 260 163 in combination with special accessory.

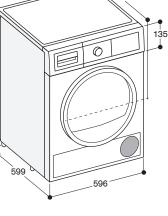

Connection

Total connected load 1.0 kW. Connection cable 1.45 m with plug.

The extraordinary, becomes connected. Gaggenau and Home Connect*

The difference is Gaggenau.

This is the beginning of the future of cooking. Aided by a digital device, the private chef can, for instance, preheat the oven, turn on ventilation, start the dishwasher, order accessories from the eShop, download digital user manuals and have a technician run a diagnostic check, all remotely.

Integrating into different home managements systems ensures the kitchen remains the heart of the digital home. The private chef can ask Amazon Alexa to prepare a cup of coffee and turn on the ventilation while checking remaining time of the oven. – Connect:

Remotely control** and monitor. Enable remote diagnosis by an online technician.

- Access: Purchase accessories via eShop, download user manuals and utilise our partnering network.
- Integration:
 Compatible with different home management system.

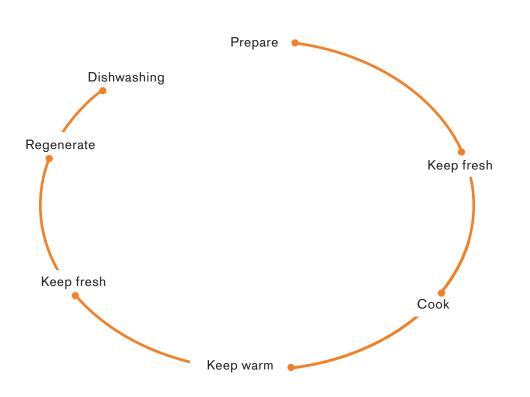

This is just the start, explore the possibilities at home-connect.com.

^{*}The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

^{**}Not applicable for cooktops, cooktops are not intended for unattended use – cooking process must be supervised.

The Gaggenau Gastronorm system

The Gastronorm system provides the basis for cookware in the professional kitchen. It enables a smooth continuum from the preparation and cooking stages right through to serving at the table and storage. The Gastronorm inserts from Gaggenau have been adapted to match our Vario cooling 200 series, our induction cooktops, our Combi-steam and steam ovens, our ovens as well as our dishwashers.

Prepare.

To prepare in combination with kitchen sinks in the Gastronorm format.

Keep fresh.

To keep fresh with appliances of the Vario cooling 200 series.

Cook.

To cook on induction cooktops VI, CI and CX, in our Combi-steam and steam ovens BS/BSP or our ovens BO/BOP in combination with the pullout system BA 018/BA 016.

Keep warm.

To keep warm in the Gaggenau warming drawers WS/WSP.

Regenerate/warm up.

To regenerate in our Combi-steam and steam ovens BS/BSP as well as warming up on our induction cook-tops VI, CI and CX or in our ovens BO/BOP in combination with the pull-out systems BA 018/BA 016.

Dishwashing.

Optimal cleaning and drying of the GN inserts thanks to the GN insert holder.

Accessories in the Gaggenau Gastronorm system

For usage in the various Gaggenau appliances the following accessories in the Gaggenau Gastronorm system are available.

Gastronorm insert GN 114/124/144/154

These high-walled, sturdy inserts made from hygienic stainless steel are ideal for cooking with steam and equally practical for storage in the refrigerator or serving at the table. They are available both in hygienic stainless steel design as well as with non-stick coating. Both are dishwasher-safe. The non-stick coating of the Gastronorm inserts prevent adherence of food and are therefore particularly easy to clean. For cooking several meals simultaneously, the cooking inserts for Combisteam and steam ovens in the GN 2/3 format can be combined as required with smaller inserts that are available as special accessories in the GN 1/3 format.

GN 124 130 Gastronorm insert, stainless steel. GN 1/3. perforated, 40 mm deep, 1.5 l

GN 124 230 Gastronorm insert. stainless steel, GN 2/3, perforated, 40 mm deep, 31

GN 144 130

GN 154 130

Gastronorm insert. non-stick, GN 1/3,

Gastronorm insert, non-stick, GN 1/3, unperforated, 40 mm deep, 1.5 l

GN 144 230 Gastronorm insert, non-stick, GN 2/3, unperforated, 40 mm deep, 3 l

Gastronorm lid

GN 410

The Gastronorm lid may be used to seal the Gastronorm inserts in format GN 1/3 and 2/3. Together they are optimal for storing and keeping fresh of food and dishes in the vario cooling 200 series appliances.

GN 410 130 Gastronorm lid, stainless steel, GN 1/3, for stainless steel gastronorm inserts

GN 410 230

Gastronorm lid, stainless steel, GN 2/3, for stainless steel gastronorm inserts

Gastronorm roaster GN 34

Gastronorm roaster GN 2/3, height 165 mm. Non-stick coating. For roasting in the oven with the roasting function. The top and bottom parts can be used as separate oven proof dishes (65 mm/100 mm deep). Use in ovens with pull-out system BA 018/ $\,$ BA 016 and heating element (order separately). Also to be used with combi-steam and steam ovens: slide directly into the appliance's side racks.

GN 340 230 Gastronorm roaster. cast aluminium. GN 2/3, height 165 mm

Teppan Yaki plate GN 232

GN 232 110 Teppan Yaki plate made of multi ply material, GN 1/1 For full surface induction cooktop CX 492/482

GN 232 230 Teppan Yaki plate made of multi ply material, GN 2/3 For full surface induction cooktop CX 492/482

perforated, 40 mm deep, 1.5 l GN 154 230
